Preface

PART I. *ASPERGILLUS* AS A MODEL SYSTEM

1. Sexual and Parasexual Genetics of *Aspergillus* Species
   *A. John Clutterbuck*
   1.1 Sexual Genetics 4
   1.2 Parasexual Genetics 10
   1.3 Conclusion 14
   References 14

2. Early Developmental Events during Asexual and Sexual Sporulation in *Aspergillus nidulans*
   *Lawrence N. Yager*
   2.1 Why Study Sporulation in Fungi? 19
   2.2 Asexual Sporulation 21
   2.3 Sexual Sporulation 33
   2.4 Conclusions 38
   References 39
3. Control of Gene Expression in the Catabolic Pathways of *Aspergillus nidulans*: A Personal and Biased Account
Claudio Scaccizocchio
3.1 Narrow and Wide Domain Regulation: Statement of the Problem 45
3.2 Specific Regulatory Genes 46
3.3 Is Nitrogen Metabolite Repression Mediated by a Universal Transcription Factor? 52
3.4 A Negative Acting Gene Product: Carbon Catabolite Repression 56
3.5 Do Broad Domain Regulatory Genes Control the Expression of Specific Regulators? 57
3.6 Carbon and Nitrogen Metabolite Repression: How Do They Interact? 58
3.7 Do the Specific Regulatory Gene Products and the areA Protein Interact Directly in a Transcription Complex? 60
3.8 Gene Clusters: Do They Have a Role? 62
3.9 Conclusions 65

4. Protein Synthesis in *Aspergillus nidulans*
Sylvia D. Martinelli, Shantha Perera, and Amina Sheikh
4.1 Background 70
4.2 A Simple System for Protein Synthesis In Vitro and Its Applications 75
4.3 Summary 84
References 85

PART II. BIOTECHNOLOGY AND INDUSTRIAL APPLICATIONS

5. Industrial Acids and Other Small Molecules
Max Roehr, Christian P. Kubicek, and Jiří Kominek
5.1 Biochemical Foundations of Organic Acid Production in *Aspergillus* 91
5.2 Industrial Production Processes 106
References 124

6. New Developments in Fermented Beverages and Foods with *Aspergillus*
Shodo Hara, Katsuhiko Kitamoto, and Katsuya Gomi
6.1 Koji: Characteristics of Solid-State Cultures of *Aspergillus* 134
6.2 Strain Improvement of Industrial *Aspergillus* Strains by Mutagenesis and Protoplast Fusion 137
6.3 Molecular Approaches for Breeding of *Aspergillus* Strains 141
6.4 Conclusions 151
References 38

7. Industrial Enzymes from *Aspergillus* Species 155
*Randy M. Berka, Nigel Dunn-Coleman, and Michael Ward*
7.1 Enzymes Used in Starch Processing 156
7.2 Pectinolytic Enzymes 169
7.3 Cellulases 174
7.4 Hemicellulase/Xylanase 180
7.5 *Aspergillus* Proteinases 181
7.6 Lipase 186
7.7 Catalase 187
7.8 Glucose Oxidase 188
7.9 Phytase 189
7.10 Heterologous Expression of Industrial Enzymes in *Aspergillus* 190
7.11 Future Directions 194
References 195

8. Expression of Foreign Proteins in the Genus *Aspergillus* 203
*David I. Gwynne and Medha Devchand*
8.1 Hosts 204
8.2 Expression Vectors 205
8.3 Transformation 205
8.4 Expression of Cloned Genes 208
8.5 Optimization 211
8.6 Future Developments 212
References 213

PART III. MYCOTOXICOLOGY AND PATHOGENESIS

9. Mycotoxins: Molecular Strategies for Control 217
*John E. Linz and James J. Pestka*
9.1 Immunochemical Assay of *Aspergillus* Toxins 218
9.2 Molecular Biology of Mycotoxin Biosynthesis 223
References 229

10. Mycoses and Mycotoxicoses of Animals Caused by Aspergilli 233
*A.C. Pier and J.L. Richard*
10.1 Animal Infections Caused by Aspergilli 235
10.2 Mycotoxicoses of *Aspergillus* Origin 240
xii Contents

10.3 Conclusion 246
References 247

11. Human Pathogenesis 249
Dennis M. Dixon and Thomas J. Walsh
11.1 Aspergilli 250
11.2 Invasive Pulmonary Aspergillosis: Pathogenesis 254
11.3 Disseminated Aspergillosis 257
11.4 Aspergillus Sinusitis 258
11.5 Cutaneous Aspergillosis 258
11.6 Aspergillosis Associated with Other Underlying Conditions 259
11.7 Aspergillosis in Immunocompetent Hosts 259
11.8 Aspergillus Allergic and Saprophytic Diseases of the Airways 261
References 265

PART IV. REGULATIONS, CULTURE COLLECTIONS, AND PATENTS

12. United States Government Regulations Affecting Aspergilli and Their Products 271
Michael G. Schechtman
12.1 General Aspects of Relevant Federal Regulations 272
12.3 General Regulatory Issues 274
12.4 Recombinant DNA Research in the Laboratory Involving Aspergillus 276
12.5 Large-Scale Uses of Recombinant Aspergilli 277
12.6 USDA Regulation 277
12.7 EPA Regulation of Microorganisms 281
12.8 Use of Aspergilli in Foods and in Food Processes 286
12.9 FDA Regulation of Human Drugs and Biological Products 290
References 296

13. Patent Protection for Aspergillus-Related Inventions 297
Shung-Chang Jong and Jeannette M. Birmingham
13.1 Principles of the Patent System 298
13.2 Patent Application 299
13.3 Patenting in Biotechnology 301
13.4 The Need to Deposit Biological Materials 302
13.5 Aspergillus-Related Inventions in U.S. Patents 304
13.6 Summary 306
References 306
14. Culture Collections: Sources and Management of *Aspergillus* Cultures for Biotechnology

*Shung-Chang Jong and Jeannette M. Birmingham*

14.1 Culture Collections and Their Organization 314
14.2 Culture Collection Resources 315
14.3 Collection Services Provided 319
14.4 Conclusion 324
References 324

PART V. ECOLOGY AND TAXONOMY

15. Ecology of the Aspergilli of Soils and Litter

*Maren A. Klich, Lois H. Tiffany, and George Knaphus*

15.1 Isolation Techniques for Verifying the Presence of *Aspergilli* in Soil 330
15.2 Environmental Factors Affecting *Aspergillus* in Soil 334
15.3 Reported Occurrence of Aspergilli 341
15.4 Conclusions 349
References 350

*Robert A. Samson*

16.1 History 358
16.2 Methodologies Used in Identification and Systematics 359
16.3 Teleomorph Associations 363
16.4 Nomenclature 364
16.5 Infrageneric Organization and Recent Research 366
References 387

PART VI. APPENDICES

A. Molecular Biology Supplies

*Edward J. Mullaney*

A.1 Vendors 393
References 396

B. Selected Media Used for Aspergilli

*Maren A. Klich*

B.1 *Aspergillus flavus/parasiticus* Identification Media 397
B.2 *Aspergillus nidulans* Complete Medium (CM) 398
B.3 Czapek or Czapek-Dox Agar 399
B.4 Dextrose-Peptone Agar 400
B.5 Dextrose-Peptone Agar/Rose Bengal Agar 401
B.6 Dichloran Glycerol Agar (DG18) 402
xiv Contents

B.7 Malt Extract Agar 402
B.8 Oatmeal Agar 402
B.9 Potato Dextrose Agar (PDA) 402
B.10 Sabouraud's Agar 403
B.11 Soil Extract Agar 403
B.12 Yeast Extract Sucrose Agar (YES) 403
References 404

Index 405
