Boston • London
Contents

CHAPTER 1
Drug Use: An Introduction

Commonly Used Terms
Drug Use and Abuse: A Historical Perspective
How Widespread Is Drug Abuse?
Who Are Potential Drug Abusers?
Drug Use or Abuse: Where Do We Draw the Line?
Is There a Link between Drug Abuse and Mental Illness?
Are Drug Users Socialized Differently?
What Is the Frequency of Drug Use?
Statistics of Drug Use
Main Findings from the 1988 National Household Survey on Drug Abuse
The Role of the Mass Media in Drug Advertising
Appendixes

1-1: Drugs of Use and Abuse
1-2: Drug Quiz Answers

CHAPTER 2
Explaining Drug Use and Abuse

The Biological Basis of Drug Abuse
Social Structure and Social Process Theories
Social Disorganization and Social Strain Theories
Subculture Theory: Social and Cultural Support
Social Process Theories: Focusing on the Individual
Social Learning Theory
The Reward System
Control Theories
Labeling Theory
A Changing World
Current Social Change in Most Societies
Drug Abuse among Adolescents
The Adolescent Subculture
Drugs and Peers
Types of Adolescents Likely to Abuse Drugs
CHAPTER 4

How and Why Drugs Work 92

The Intended and Unintended Effects of Drugs 94

The Dose-Response Relationship and the Dimensions of Effective Doses 96
  Lethality and Effectiveness 97
  Potency versus Toxicity 98
  Margin of Safety 100
  The Therapeutic Index 101

Drug Interaction 102
  Additive Effects 102
  Antagonistic (Inhibitory) Effects 102
  Potentiative (Synergistic) Effects 103
  Dealing with Drug Interaction 104

Pharmacokinetic Factors That Influence Drug Effects 105
  Forms and Methods of Taking Drugs 105
  Distribution of Drugs in the Body 105
  Inactivation and Elimination of Drugs from the Body 111
  Physiological Variables That Modify Drug Effects 113
  Pathological Variables That Modify Drug Effects 114

Tolerance to Drugs 114
  The Rebound Effect 115
  Reverse Tolerance (Sensitization) 116
  Cross-Tolerance 116

Physical Dependence 117
  Cross-Dependence 117
  Psychological Factors 117
  The Placebo Effect 118

Psychological Dependence 119

Addiction and Abuse: Who Becomes Drug Dependent? 119
### CHAPTER 5

**Homeostatic Systems and Drugs 124**

**Homeostasis and Control 126**

**The Building Blocks of the Nervous System 128**

- The Neuron: The Basic Structural Unit of the Nervous System 128
- The Nature of Drug Receptors 132
- Agonistic and Antagonistic Effects on Drug Receptors 132
- Neurotransmitters: The Messengers 133

**Major Divisions of the Nervous System 136**

- The Central Nervous System 136
- The Autonomic Nervous System 141

**The Endocrine System and Drugs 143**

- Endocrine Glands and Regulation 143
- Contraception 144
- The Abuse of Hormones: Anabolic Steroids 144

### CHAPTER 6

**CNS Depressants: Sedative-Hypnotics 152**

**The History of CNS Depressants 154**

**The Effects of CNS Depressants: Benefits and Risks 155**

**Types of CNS Depressants 157**

- Benzodiazepines: Valium-Type Drugs 157
- Barbiturates 161
- Other CNS Depressants 165

**Patterns of Abuse with CNS Depressants 168**

- Treatment for Withdrawal 169

### CHAPTER 7

**Alcohol 174**

**The Pervasive Costs of Alcohol Use 176**

**Alcohol in Society 177**

- Alcohol in the Western World 179
- Alcohol in America 180

**The Properties of Alcohol 182**

**The Physical Effects of Alcohol 183**

- Short-Term Effects 185
- Long-Term Effects 187

**How Widespread Is Alcohol Use and Abuse? 189**

- Alcohol Use in American Population Groups 189
- Alcohol Abuse in Specific Populations 192
- Attitudes toward Drinking and Driving 195

**What Is Alcoholism? 197**

- Stages of Alcohol Abuse 199
- Causes of Alcoholism 200
- Prevention of Alcohol Abuse 203
- Treatment of Alcoholism 204

**Appendix 7-1: A Self-Quiz on Fact and Fancy About Alcohol 210**

### CHAPTER 8

**Analgesics: NSAIDS and Narcotics 216**

**Analgesic Drugs: An Overview 218**

**The Nature of Pain 219**

- Physiological Aspects 219
- Pain Classifications 222
- Pain Assessment 222

**Nonmedicinal Pain Therapy 223**

- Behavioral Modification 223
Contents

Medicinal Pain Therapy  224
  Nonsteroidal Antiinflammatory Drugs (NSAIDS)  224
  Opioid Narcotic Analgesics  227
  Miscellaneous Analgesic Drugs  241

Major Stimulants  248
  Amphetamines  248
  Cocaine  256
  Use by Athletes  273

Minor Stimulants  274
  Caffeinelike Drugs (Xanthines)  274
  OTC Sympathomimetics  280

The History of Tobacco Use  288
  Popularity in the Western World  288
  Tobacco Use in America  290

Smoking Tobacco  293
  The Properties of Nicotine  293
  Physiological Effects  293
  Mortality Rates  294
  Chronic Illness  295
  Effects on the Fetus  297

Taking Tobacco without Smoking  297
  Smokeless Tobacco  298
  Second-Hand and "Sidestream" Smoke  298

How to Stop Smoking  300
  Withdrawal and Readdiction  300
  Behavioral Treatments  300
  The Motivation Not to Smoke  300

Who Smokes and Why?  303
  Characteristics of Smokers  303
  Reasons for Smoking  306

Social Issues: Looking to the Future  308
  Economic Interests  308
  Tobacco as a "Gateway" Drug  309
  Smoking Prohibition versus Smokers’ Rights  309
  Future Smokers  311

Hallucinogens  318

The History of Hallucinogen Use  320

The Nature of Hallucinogens  324
  Physiological Effects  324
  Mechanisms of Action  326

Types of Hallucinogenic Agents  327
  Traditional Hallucinogens: LSD Types  327
  Phenylethylamine Hallucinogens  339
  Anticholinergic Hallucinogens  342
  Other Hallucinogens  345

Marijuana  354

Attitudes toward Marijuana Use  356
  The History of Marijuana Use  356
Contents

Characteristics of Cannabis 360

The Physiological Effects of Marijuana Use 362
  Effects on the Central Nervous System 362
  Effects on the Respiratory System 363
  Effects on the Cardiovascular System 363
  Effects on Sexual Performance and Reproduction 364
  Effects on the Immune System 365
  Tolerance and Dependence 365
  Therapeutic Uses 366

The Behavioral Effects of Marijuana Use 367
  Driving Performance 368
  Chronic Use 369
  The Amotivational Syndrome 370
  Subjective Experiences 372

Trends in Marijuana Use 372
  Age Differences 372
  Peer Influences 372
  Other Research Findings 372
  The Role of Marijuana as a “Gateway” Drug 374

CHAPTER 14

Drugs and Psychiatric Disorders 402

The History of Mental Illness 404

Types of Psychiatric Disorders 406
  The Neurotransmitter Theory 407
  Anxiety Disorders 407
  Psychosis 407
  Affective Disorders 408

Using Psychotherapeutic Drugs to Treat Psychiatric Disorders 411
  Anxiolytics 412
  Antipsychotics 413
  Antidepressants 415

Drug Abuse and Psychiatric Disorders: What’s the Association? 418

CHAPTER 15

Drug Education, Prevention, and Treatment 422

The Nature of Drug Addiction 424
  The American Problem 424
  Views on Addiction 424
  Levels of Addiction 427

Drug Education 428
  Using Education to Control Drug Use 428
  School-Based Drug Education Objectives 430
  A National Strategy for Drug Control 431

Prevention 432
  Prevention Models 433
  The Role of Social and Personal Development 435
  Alternatives to Drugs 436
  Nontraditional Prevention Methods 439

CHAPTER 13

Nonprescription (OTC) Drugs 378

Federal Regulation of OTC Drugs 380

Public Use and Misuse 382
  Common Misconceptions 382

Types of OTC Drugs 383
  Internal Analgesics 383
  External Analgesics 384
  Cold, Allergy, and Cough Remedies 385
  Sleep Aids 389
  Stimulants 390
  Gastrointestinal Medications 390
  Diet Aids 396
  Skin Products 396

Rules for OTC Drug Use 398
