## Contents

**Preface** iii  
**Contributors** vii  

1. Water: The Most Natural Penetration Enhancer  
   *Michael S. Roberts and Michael Walker*  
   1  

2. Simple Alkyl Esters as Skin Penetration Enhancers  
   *David R. Friend and Jorge Heller*  
   31  

3. Phospholipids as Skin Penetration Enhancers  
   *Gary P. Martin*  
   57  

4. Terpenes as Skin Penetration Enhancers  
   *Brian W. Barry and Adrian C. Williams*  
   95  

5. Mechanisms and Prediction of Nonionic Surfactant Effects on Skin Permeability  
   *Edward J. French, Colin W. Pouton, and Kenneth A. Walters*  
   113  

6. Interaction Between Anionic Surfactants and Skin  
   *J. Gordon Black*  
   145  

7. Azone: Mechanisms of Action and Clinical Effect  
   *Jonathan Hadgraft, Dafydd G. Williams, and Geoffrey Allan*  
   175  

8. In Vitro Analysis of QSAR in Wanted and Unwanted Effects of Azacycloheptanones as Transdermal Penetration Enhancers  
   *Harry E. Boddé, Maria Ponec, Ad P. IJzerman, A. Janet Hoogstraate, M. A. Ineke Salomons, and Joke A. Bouwstra*  
   199
