Pharmacologic Analysis of Drug-Receptor Interaction

Second Edition

Terry Kenakin, Ph.D.

Department of Cellular Biochemistry
Glaxo Research Institute
Glaxo, Inc.
Research Triangle Park, North Carolina

Raven & New York
# Contents

Preface to First Edition ix  
Preface xi  
Acknowledgments xii  

1 Drug-Receptor Theory 1  
2 Stimulus-Response Mechanisms 39  
3 Drug Response Systems 69  
4 Diffusion 118  
5 Concentrations of Drugs in the Receptor Compartment 137  
6 Analysis of Dose-Response Data 176  
7 Agonist Affinity 221  
8 Efficacy 249  
9 Competitive Antagonism 278  
10 Allotopic, Noncompetitive, and Irreversible Antagonism 323  
11 Methods of Drug and Receptor Classification 344  
12 Radioligand Binding Experiments 385  
13 Kinetics of Drug Action 411  
14 Drug Design and Discovery 441  
Subject Index 469
