<b>Section I. Establishment of Field Experiments</b>	
<b>1. Introduction</b>	3
Gunnar Abrahamsen, Arne O. Stuanes, and Bjørn Tveite	
<b>2. Study Area</b>	11
Arne O. Stuanes, Gunnar Abrahamsen, Bjørn Tveite, and Kristian Bjor	
<b>3. Experiments</b>	24
Arne O. Stuanes, Gunnar Abrahamsen, Bjørn Tveite, and Kristian Bjor	
<b>Section II. Results of Experiments</b>	
<b>4. Soil Chemistry</b>	37
Arne O. Stuanes and Gunnar Abrahamsen	
<b>5. Soil Biology: Soil Animals and Soil Acidity</b>	101
Sigmund Hågvar	

<b>6. Soil Biology: Soil Microflora and Soil Acidity</b>	122
Rolf Arnt Olsen	
<b>7. Soil Biology: Decomposition and Soil Acidity</b>	136
Sigmund Hågvar	
<b>8. Trees: Nutrition</b>	140
Bjørn Tveite, Gunnar Abrahamsen, and Magne Huse	
<b>9. Trees: Growth</b>	180
Bjørn Tveite, Gunnar Abrahamsen, and Magne Huse	
<b>10. Plant—Soil Interactions</b>	204
Gunnar Abrahamsen, Bjørn Tveite, and Arne O. Stuanes	
<b>11. Ground Vegetation: The B-2 Experiment</b>	221
Per Holm Nygaard	
<b>12. Ground Vegetation: Mycoflora</b>	230
Klaus Høiland and Hege Bull Jenssen	
<b>13. Monolith Lysimeters</b>	239
Gunnar Abrahamsen, Arne O. Stuanes, and Trine A. Sogn	
<b>14. Germination and Seedling Development</b>	287
Toril Drabløs Eldhuset, Olav Teigen, and Kristian Bjor	
<b>Section III. Conclusions</b>	
<b>15. Discussion and Synthesis</b>	297
Gunnar Abrahamsen, Arne O. Stuanes, and Bjørn Tveite	
<b>16. Summary and Conclusions</b>	332
Gunnar Abrahamsen, Arne O. Stuanes, and Bjørn Tveite	
<b>Index</b>	337
