Introduction 1
Alan J. Lewis and Daniel E. Furst

I. Clinical Applications of Nonsteroidal Anti-Inflammatory Drugs

1. Effects of Nonsteroidal Anti-Inflammatory Drugs and Corticosteroids on Cartilage Metabolism in Rheumatoid Arthritis and Osteoarthritis 5
Jean-Pierre Pelletier, Johanne Martel-Pelletier, and Charles J. Malemud

2. Nonsteroidal Anti-Inflammatory Drugs in Migraine 27
Seymour Diamond

3. Nonsteroidal Anti-Inflammatory Agents and the Adult Respiratory Distress Syndrome 43
Hanson B. Cowan and Jean E. Rinaldo

4. Nonsteroidal Anti-Inflammatory Drugs in Stroke 55
Sien T. Chen, Teng-Nan Lin, T. K. Lee, and Chung Y. Hsu

5. Topical Nonsteroidal Anti-Inflammatory Drugs in Skin Diseases and Musculoskeletal Disorders 71
Sydney H. Dromgoole
Contents

6. The Over-the-Counter Use of Nonsteroidal Anti-Inflammatory Drugs and Other Antipyretic Analgesics
   Kay Brune and Keith McCormack

7. Nonsteroidal Anti-Inflammatory Drugs and Their Enantiomers
   Kenneth M. Williams, Iris Hall, Richard Day, and Franziska Löhre

II. Toxicity of Nonsteroidal Anti-Inflammatory Drugs

8. Lower Bowel Toxicity of Nonsteroidal Anti-Inflammatory Drugs
   Ingvar Bjarnason, Andrew Macpherson, Sivagurunathan Somasundaram, and Jeremy Hayllar

9. Prevention and Treatment of Gastric and Duodenal Ulcers Induced by Nonsteroidal Anti-Inflammatory Drugs
   Esam Z. Dajani and Naurang M. Agrawal

10. Hepatic Injury Associated with Nonsteroidal Anti-Inflammatory Drugs
    Hyman J. Zimmerman

11. Renal Toxicity of Nonsteroidal Anti-Inflammatory Drugs
    Andrew Whelton and Cindy W. Hamilton

12. Nonsteroidal Anti-Inflammatory Drugs: Uses in Dermatology and Cutaneous Toxicity
    Michael Bigby

13. Rare Side Effects of Nonsteroidal Anti-Inflammatory Drugs
    W. Watson Buchanan and Walter F. Kean

III. New Anti-Inflammatory Drugs and Analgesics

14. Ketorolac
    John M. Young and James P. Yee

15. Bromfenac
    Joseph S. Wajdula, Mohamed Osman, Ivan Vavra, Diane Sullivan, and James Ermer

16. Pemedolac
    Thuy T. Chau, Marie Sanda, and Barry M. Weichman

17. Pravadoline: A Dual-Mechanism Aminoalkylindole Analgesic
    Susan J. Ward

18. Romazarit
    David Bradshaw and Peter E. O. Williams
19. Tilomisole
   Richard P. Carlson, Steven C. Gilman, Francis J. Gregory,
   W. Craig Daniel, and Richard L. Fenichel
   333

20. Leflunomide: A Novel Immunomodulating Drug
    Robert R. Bartlett, Thomas Zielinski, H.-Ulrich Schorlemmer,
    Giles Campion, Predrag Musikic, and Rudolph Schleyerbach
    349

    Judith Cohn
    367

22. Pharmacological Properties of IX 207-887
    Andrew R. Mackenzie
    391

23. Pharmacological Properties of E5090: An Orally Active Inhibitor
    of Interleukin-1 Generation
    Hiroshi Shirota, Ken-ichi Chiba, Masaki Goto, Isao Yamatsu,
    and Kouichi Katayama
    411

IV. Future Developments

24. Future Therapy for Arthritis
    Ivan G. Otterness and E. Roy Pettipher
    427

Index
    453
