**THE GENUS ALLIUM – TAXONOMIC PROBLEMS
AND GENETIC RESOURCES**

**Proceedings of an International Symposium
held at Gatersleben, Germany, June 11 - 13, 1991**

Edited by

**P. Hanelt
K. Hammer
H. Knüpfner**

Institut für Pflanzengenetik und Kulturpflanzenforschung Gatersleben, Germany
1992

Contents

Preface	3-5
Contents	7-9
<u>Allium</u> genetic resources and networks D. ASTLEY	11-16
Qualitative and quantitative variations of secondary sulfur volatiles in some wild and cultivated <u>Allium</u> J. BOSCHER and J. AUGER	17
Reduction of redundancy in the CGN <u>Allium</u> collection I.W. BOUKEMA and L. DE GROOT	19
<u>Allium melanantherum</u> complex in Bulgaria I. ČESCHMEDZIEV	21-26
Evolution of life forms of species in subgenus <u>Rhizirideum</u> (Koch) Wendelbo. genus <u>Allium</u> L. V.A. CHEREMUSHKINA	27-34
The genetic resources of <u>Allium cepa</u> in the tropics L. CURRAH and F.J. PROCTOR	35-39
Comparative investigations on seedlings of the genus <u>Allium</u> L. S. DRUSELMANN	41
The cultivated species of the genus <u>Allium</u> in Cuba M. ESQUIVEL and K. HAMMER	43-48
Fertile garlic clones collected in Caucasia T. ETOH, T. KOJIMA and N. MAUSUZOE	49-54
Systematics of the Siberian polyploid complex in subgenus <u>Rhizirideum</u> (<u>Allium</u>) N. FRIESEN	55-66
Infra-subgeneric grouping in subgenus <u>Melanocrommyum</u> (Webb et Berth.) Rouy R.M. FRITSCH	67-75
Septal nectaries in the genus <u>Allium</u> - shape, position and excretory canals R.M. FRITSCH	77-85
Himalayan representatives of <u>Allium</u> [Abstract. Full paper on pp. 335-340] R.N. GOHIL	87
Evidence of infections by aphid- and soil-borne viruses in the <u>Allium</u> collection of the Gatersleben Institute K. GRAICHEN, K. HAMMER and P. HANFELT	89-92
Detection of viruses in <u>Allium</u> tissue culture - a prerequisite for virus elimination K. GRAICHEN and J. KELLER	93-96

Leaf anatomy in genus <u>Allium</u> , especially section <u>Allium</u> M. GREGORY	97
Ovule number and seed weight in the genus <u>Allium</u> L. P. HANELT	99-105
Infrageneric grouping of <u>Allium</u> - the Gatersleben approach P. HANELT, J. SCHULTZE-MOTEL, R. FRITSCH, J. KRUSE, H.I. MAASS, H. OHLE and K. PISTRICK	107-123
Molecular phylogenetics of cultivated and wild <u>Alliums</u> M.J. HAVEY	125-127
Morphological types and root systems as indicators of evolutionary pathways in the genus <u>Allium</u> I. KAMENETSKY	129-135
<u>In vitro</u> cultivation of <u>Allium</u> species - a method for application in plant breeding and germplasm conservation J. KELLER	137-152
A revision of the genus <u>Allium</u> L. in the flora of Uzbekistan F.O. KHASSANOV	153-159
Apomixis in <u>Allium tuberosum</u> and <u>A. ramosum</u> A. KOJIMA, Y. NAGATO and K. HINATA	161-165
Genetic resources conservation of <u>Allium</u> in Poland T. KOTLIŃSKA	167-172
Growth form characters and their variation in <u>Allium</u> L. J. KRUSE	173-179
Variability of testa sculptures in the genus <u>Allium</u> L. J. KRUSE	181-182
Electrophoretic study of storage proteins in the genus <u>Allium</u> L. H.I. MAASS	183-189
A taxonomic review of <u>Allium</u> section <u>Allium</u> B. MATHEW	191
The genus <u>Allium</u> in Iran, diversity, distribution and endemism F. MATIN	193-194
Taxonomy of North American species of <u>Allium</u> D.W. MCNEAL	195-204
<u>Alliums</u> in South Asia: Importance, ethnobotanical uses, genetic resources, enu- meration of species and distribution N.M. NAYAR, M. AHMEDULLA and R. SINGH	205-213
National collection of genus <u>Allium</u> L. in Bulgaria and statistical analysis of some quantitative characters S. NEYKOV, I. LOZANOV and I. ČESCHMEDZIEV	215-220
Karyotype analysis using Giemsa C-banding technique in <u>Allium</u> species of six sections of the subgenus <u>Rhizirideum</u> H. OHLE	221-232

Interspecific hybrids between onion and garlic Ch. OHSUMI, A. KOJIMA, K. HINATA, T. ETOH and T. HAYASHI	233-239
Cytotaxonomy of Turkish <u>Allium</u> species of section <u>Allium</u> N. ÖZHATAY	241
Phenological variability in the genus <u>Allium</u> L. K. PISTRICK	243-249
Mitochondrial DNA polymorphisms among different accessions of <u>Allium schoenoprasum</u> L. H. POTZ and T. TATLIOGLU	251-256
Systematics and phylogeny of <u>Allium cepa</u> L. and allies L.W.D. VAN RAAMSDONK and T. DE VRIES	257-263
Biosystematics of <u>Allium</u> section <u>Cepa</u> - crossability versus relationship L.W.D. VAN RAAMSDONK, T. DE VRIES, W.A. WIETSMA and J.N. DE VRIES	265-270
Genebank for vegetatively propagated <u>Allium</u> spp. - experience and conclusions H.D. RABINOWITCH and A. HARAZY	271-279
Comparative investigations of microsporogenesis using temperature- and tetracycline-sensitive and -insensitive cms-genotypes in chives (<u>Allium schoenoprasum</u> L.) B. RUGE, H. POTZ and T. TATLIOGLU	281-287
A revision of the genus <u>Allium</u> L. in the flora of Mongolian Peoples Republic C. SANCIR	289-296
<u>Allium</u> germplasm collection in the Soviet Union 1989 P.W. SIMON, L. PIKE, J. SWENSON, A. PIMAKHOV, and T. KOTLIŃSKA	297
Some students of <u>Allium</u>: Albrecht von Haller and his successors W.T. STEARN	299-303
Karyotype variation and evolution in the Greek <u>Allium</u> D. TZANOUDAKIS	305-320
Introgression of characters from <u>Allium roylei</u> Stearn into <u>A. cepa</u> L. J.N. DE VRIES, W.A. WIETSMA and M.C. JONGERIUS	321-325
What's in a name? In quest of the origin and proper name of C502, known as <u>Allium roylei</u> Stearn J.N. DE VRIES	327-330
Monosomic additions of <u>Allium cepa</u> L. in a diploid <u>A. fistulosum</u> L. background J.N. DE VRIES, M.J. ZEVENBERGEN, W.H.C. HUIBERS and M.C. JONGERIUS	331-333
Himalayan representatives of <u>Allium</u> R.N. GOHIL	335-340
Index of scientific names	341-348
Glimpses of the symposium	349-354
List of participants	355-359
