Advances in Controlled Delivery of Drugs

Edited by Melvyn A. Kohudic
TABLE OF CONTENTS

Ultrasonically Mediated Drug Delivery ........................................... 1
J. Saxena and N. Sharma, Ranbaxy Laboratories, Ltd.,
A-2, Okhla Industrial Area, New Delhi, India, M. C. Makoid,
Creighton University, School of Pharmacy & Allied Health
Professions, 2542 California Street, Omaha, NE 68178,
U.V. Banakar, St. Louis College of Pharmacy,
4588 Parkview Place, St. Louis, MO 63110

Implantable Drug Delivery .......................................................... 21
Monica J. Nitsch, Medical Student 4th Year, University of
Nevada at Reno, School of Medicine, Reno, NV 89557,
Umesh V. Banakar, Director of Research, Section Head:
Pharmaceutical Sciences, Associate Professor of
Pharmaceutics, St. Louis College of Pharmacy,
4588 Parkview Place, St. Louis, MO 63110

Polyethylene-Starch Extrudates as Erodible Carriers for
Bioactive Materials: I. Erodibility and in vitro
Dye Release Studies ................................................................. 59
Padmanaban G. Krishnan, James L. Julson,
Deborah J. Robison and Yashwant V. Pathak,
South Dakota State University, Brookings, SD 57007

Bioactive Polymers: In Vitro and In Vivo Study of
Controlled Release Neomycin ................................................... 72
Severian Dumitriu and Maria Dumitriu, Polytechnic
Institute of Jassy, Department of Macromolecular Chemistry,
Bul. Copou 11, R-6600, Jassy, Romania, Stefan M. Dimitriu,
Tatiana Turcu, Lucia Grigore, Daniela Dumitriu and Monica
Iacob, Institute of Medicine and Pharmacy, 16, Universitatii,
R-6600, Jassy, Romania

Polymer Entrapment Powders for Topical Delivery ...................... 82
Arthur A. Siciliano, PolyMedica Industries,
Inc., 2 Constitution Way, Woburn, MA 01801
Bioactive Polymers 68—Controlled Release of Neomycin-Furazolidone Bicomponent System from Xanthan Hydrogel

Severian Dumitriu, Marcel I. Popa and Maria Dumitriu, Polytechnic Institute of Jassy, Department of Macromolecular Chemistry, Jassy, Bul. Copou, 11, R-6600, Jassy, Romania, Daniela Dumitriu, C. R. I. S. M. A., Interdisciplinary Research Center for Advanced Medical Systems, University of Siena, Le Scotte, Siena, Italy, Alina Tara, Polytechnic Institute of Bucharest, Faculty of Chemical Engineering, Bucharest, Romania

Effect of Controlled Local Acetylsalicylic Acid Release on in vitro Platelet Adhesion to Vascular Grafts

John D. Hall, Department of Biomedical Engineering, The University of Akron, Akron, OH 44325-0302, Stanley E. Rittgers, Department of Biomedical Engineering, The University of Akron, Akron, OH 44325-0302 and Vascular Hemodynamics Research Lab, Akron City Hospital, Akron, OH 44309, Steven P. Schmidt, Vascular Research Lab, Akron City Hospital, Akron, OH 44309

Materials Used in Controlled Release Technology—A Primer

U. V. Banakar, St. Louis College of Pharmacy, 4588 Parkview Place, St. Louis, MO 63110
