The People's Guide to Deadly Drug Interactions

How to Protect Yourself from Life-Threatening Drug/Drug, Drug/Food, Drug/Vitamin Combinations

Joe Graedon and Teresa Graedon, Ph.D.

St. Martin's Press
New York
Contents

Acknowledgments x

Chapter 1

Introduction 1

Types of Drug Interactions 3
  Additive Interactions 3
  Antagonistic Interactions 3
  Unpredictable Interactions 5

Protecting Yourself from Drug Interactions 7

References 10

Chapter 2

How to Use This Book 11

How to Read the Guides to Dangerous Drug Interactions 12

How Not to Use This Book 14

Chapter 3

Lethal Drug/Drug Combinations 19

Antidepressant (MAO Inhibitor) Hazards 21

Digitalis Dangers 23

Diuretic Dangers 24

Arthritis Drug Interactions 26
  Anticoagulants 27
  Methotrexate 27
  Lithium 28

Be Vigilant 29

Hazardous Drug Interactions (table) 31

References 40

Chapter 4

Eat, Drink, and Be Wary! Food/Drug Interactions 41

Hidden Hazards of Grapefruit Juice 41

Liabilities of Licorice 44

Treacherous Tyramine: The Cheese Effect 45
  Foods That May Interact with MAO Inhibitors (table) 47

Hazardous Foods of Healthy Foods 49
  Salt Substitutes 49
  Overdosing on Oatmeal 50
  Broccoli, Brussels Sprouts, and Blood Clots 51
  When Milk Does a Body Harm 52
Coffee Complaints 53
Food and Asthma Medications 54
Pudding and Dilantin 55
Which Medicines to Take with Food—or Without Food 56
Food and Drug Compatibility (table) 59
References 74

Chapter 5

Drug/Vitamin and Drug/Mineral Interactions 77

How Drugs Affect Nutrition 78
How Supplements Affect Drugs 80
Mineral Supplements and Tetracycline 80
B Vitamin Supplements and Anticonvulsants 82
Vitamins E and K and Coumadin 82
Potentially Dangerous Nutrient/Nutrient Interactions 84
Potassium and Vitamin B12 84
Beta Carotene, Vitamin E, and Alcohol 84
Drug/Nutrient Interactions 85
Drug/Nutrient Interactions (table) 86
References 95

Chapter 6

Prescription Drug/Over-the-Counter Drug Interactions 97

Lethal Prescription Drug/OTC Drug Interactions 98
OTC Drugs That Don’t Mix with MAO Inhibitors (table) 99
Laxatives, Diuretics, and Digoxin 100
Antacids, Pepto-Bismol, and Broad-Spectrum Antibiotics 102
Antacids That Affect Antibiotics (table) 104
Activated Charcoal (the Gas-Busters) 105
Drugs Affected by Activated Charcoal (table) 105
Antihistamines 106
Pain Relievers 107
Aspirin Versus Capoten and Vasotec 107
Drugs That Interact with Aspirin (table) 110
Drugs That Interact with Acetaminophen (table) 114
Caffeine 116
Herbal Remedies 117
Guarana 117
Licorice 118
Garlic 118
Glucomannan 118
Goldenseal 119
Feverfew 119
Ubiquinone (Coenzyme Q<sub>10</sub>) 119
Chamomile 120
Yohimbine 120
Valerian 120
Conclusion 121
References 122

Chapter 7
Drug Interactions That Affect Women, Children, and Older People 125
Drug Interactions That Affect Women 125
Birth Control Pills 126
Drug Interactions That Affect Children 134
Cold and Cough Remedies 134
Antibiotics 136
Ritalin (methylphenidate) 136
How to Protect Your Child from Drug Interactions 138
