

2741-3078

**Cruise report
of the Joint Chilean-German-Italian
Magellan "Victor Hensen" Campaign in 1994**

**edited by
Wolf Arntz and Matthias Gorny
with contributions of the participants**

**Ber. Polarforsch. 190 (1996)
ISSN 0176 - 5027**

Contents

| | Page |
|---|-----------|
| Map of the itinerary of RV "Victor Hensen" | 4 |
| Map of the cruise track during the Magellan Campaign | 5 |
| Map of CTD stations | 6 |
| Map of plankton sampling sites | 7 |
| Map of benthos sampling sites | 8 |
| Map of benthos sampling sites (shallow water) | 9 |
| 1. Introduction (W. Arntz) | 10 |
| 1.1 Objectives of the Magellan Campaign | 10 |
| 1.2 Summary Review | 11 |
| 1.3 Itinerary of the cruise | 13 |
| 1.4 Weather conditions | 14 |
| 1.5 Acknowledgements | 15 |
| 2. Reports of individual working groups | 16 |
| 2.1 Hydrography | 16 |
| 2.1.1 Hydrography in Chilean fjords: | |
| Strait of Magellan to Beagle Channel (leg 1 and 2) | |
| (T. Antezana, M. Hamamé, Y. Eissler, & S. Jara) | 16 |
| 2.1.2 Hydrography of the Beagle Channel (leg 4) | |
| (H. Klöser) | 18 |
| 2.1.3 Physical oceanography of the Strait of Magellan in spring | |
| (D. Figuero & G. Yuraz) | 20 |
| 2.2 Plankton | 23 |
| 2.2.1 Traits of Phyto- and Zooplankton | |
| from the Strait of Magellan to Beagle Channel | |
| on board "Victor Hensen" 2, leg 1 and 2, Oct - Nov 1994 | |
| (T. Antezana, M. Hamamé, Y. Eissler & S. Jara) | 23 |
| 2.2.2 Growth of <i>Calanus australis</i> during the spring season | |
| in the Magellan Strait from an onboard experiment | |
| (R. Escribano) | 32 |
| 2.2.3 Spatial distribution of mesozooplankton | |
| in the Beagle Channel, Southern Chile (C. Richter) | 32 |
| 2.2.4 Preliminary results on the gelatinous zooplankton collected | |
| in the Magellan Strait (F. Pagès) | 34 |

| | | |
|--------|--|----|
| 2.3 | Sediments, benthos and demersal fish | 35 |
| 2.3.1 | Sponge biology and sediment biochemistry (U. Witte) | 35 |
| 2.3.2 | Epibenthic communities analysed by underwater camera (J. Gütt & T. Schickan) | 35 |
| 2.3.3 | Preliminary results of the multibox corer investigations (D. Gerdes) | 41 |
| 2.3.4 | Benthic macrofauna sampled with the Agassiz trawl (W.E. Arntz, M. Gorny, M. Lardies, E. Mutschke & C. Ríos) | 43 |
| 2.3.5 | Early reproductive stages of Cheilostomatid bryozoans in the Strait of Magellan (H. Moyano) | 51 |
| 2.3.6 | Deep-water bivalves and gastropods | 52 |
| | Ophisthobranchs (Gastropoda) collected by the RV "Victor Hensen" (M. Schrödl) | 52 |
| 2.3.7 | First observations on the composition and occurrence of Peracarida (Crustacea, Malacostraca) in the Beagle Channel (A. Brandt) | 54 |
| 2.3.8 | Biodiversity and ecological roles of the amphipod crustaceans of the Antarctic and Magellan regions: a comparison (C. DeBroyer & M. Rauschert) | 55 |
| 2.3.9 | Crustacea Decapoda: Summary report (W.E. Arntz, M. Gorny, I.S. Wehrtmann, M. Lardies & R. Soto) | 57 |
| 2.3.10 | Crustacea Decapoda: Report on the anomuran and brachyuran crabs (M. Gorny, W.E. Arntz & R. Soto) | 60 |
| 2.3.11 | Species composition and geographical distribution of caridean shrimps (Decapoda: Caridea) (I.S. Wehrtmann & M. Lardies) | 63 |
| 2.3.12 | Echinodermata | 67 |
| | Ophiuroids (Echinodermata) of the Magellan region (C. Dahm) | 67 |
| 2.3.13 | Preliminary report on the demersal fish material collected during the "Victor Hensen" Magellan Campaign (G. Pequeño & J. Lamilla) | 68 |
| | Shallow-water benthos | |
| 2.3.14 | Distribution of macroalgae and invertebrate grazers in the Magellan Strait (L. Benedetti-Cecchi) | 70 |
| 2.3.15 | Analysis of macroalgal communities in the Magellan region, and a comparison with the Antarctic (H. Klöser) | 72 |

| | | |
|------------|--|-----------|
| 2.3.16 | Benthic sampling to be used for studies on biometry, biomass and trophic relations (G. Albertelli) | 74 |
| 2.3.17 | Plant-animal relationships in the intertidal and shallow subtidal benthic communities of the Magellan area (Chile) (M.C. Gambi, M.B. Scipione & G. Procaccini) | 75 |
| 2.3.18 | Sponge ecology in the Strait of Magellan (M. Pansini & C. Cerrano) | 76 |
| 2.3.19 | Ecology of shallow-water bivalves (H.-J. Urban & B. Campos) | 78 |
| 2.4 | Palaeocommunities | 80 |
| 2.4.1 | Variations of palaeocommunities along gradients during the Quaternary (S.I. Di Geronimo & A. Rosso) | 80 |
| 2.4.2 | Evolutionary stasis of a benthic community during the retraction of the Magellan Province: Analysis of an assemblage of organisms with hard skeletons from the Plio-Pleistocene and Recent limits (C. Valdovinos) | 82 |
| 3. | Annexes | 85 |
| | Abbreviations | 85 |
