Contents

Introduction

1 Cognitive Semantics and Prototype Theory
   1.1 Introducing cognitive linguistics
   1.2 Characteristics of prototypicality
   1.3 Hypotheses about semasiological change

2 The Prototypical Characteristics of Semasiological Change
   2.1 Modulations of core cases
   2.2 Radial sets through time
   2.3 Semantic polygenesis
   2.4 Semantic change from subsets

3 Prototypicality in a Classification of Lexical Change
   3.1 Functional classifications in diachronic semantics
   3.2 The mechanisms of lexical change
   3.3 The causes of lexical change
   3.4 Prototypicality as an efficiency principle

4 Prototypical Polysemization and the Isomorphic Principle
   4.1 Polysemiophobia and semantic reorganization
   4.2 Homonymiphobia and conceptual merger
   4.3 Predictability and teleology

5 Prototype Theory as a Scientific Paradigm
   5.1 Knowledge from uncertainty
   5.2 Lexical semantics as a Geisteswissenschaft
