Contents

About the Series (Eric Jungermann) iii
Preface vii
Contributors xiii

I. INTRODUCTION

1. Evolution of Modern Sunscreen Chemicals 3
   Nadim A. Shaath

2. Sunscreens: Rationale for Use to Reduce Photodamage 35
   and Phototoxicity
   Nicholas J. Lowe and Josia Friedlander

3. Photoprotection Against Harmful Effects of Solar UVB and 59
   UVA Radiation: An Update
   Madhu A. Pathak
## II. PHOTOBIOLOGICAL ASPECTS

4. Biological Effects of Sunlight  
   *John H. Epstein*  
   Pages: 83

5. Exposure to Low Levels of Ultraviolet Light B or Ultraviolet Light A Induces Cutaneous Photodamage in Human Skin  
   *David P. Meyers, Nicholas J. Lowe, and Ian R. Scott*  
   Pages: 101

6. Ultraviolet Radiation-Induced Skin Aging  
   *Lorraine H. Kligman and Albert M. Kligman*  
   Pages: 117

7. Antioxidants and Carotenoids as Potential Photoprotectants  
   *Homer S. Black and Betty Rajan*  
   Pages: 139

8. Reactive Oxygen Species and Antioxidant Protection in Photodermatology  
   *Douglas Darr and Sheldon R. Pinnell*  
   Pages: 155

9. Dosimetry of Ultraviolet Radiation  
   *Brian L. Diffey*  
   Pages: 175

10. Reduction of Actinic Keratoses by Sunscreens  
    *Robin Marks*  
    Pages: 189

## III. REGULATORY ASPECTS

11. Regulatory Aspects of Sunscreens in the United States  
    *Emalee G. Murphy*  
    Pages: 201

12. Regulatory Aspects of Sunscreens in Europe  
    *Angela Janousek*  
    Pages: 215

13. The Sunscreen Industry in Australia: Past, Present, and Future  
    *Gordon A. Groves*  
    Pages: 227

14. The Sunscreen Industry in Japan: Past, Present, and Future  
    *Minoru Fukuda and Masako Naganuma*  
    Pages: 241

## IV. SUNSCREEN INGREDIENTS AND FORMULATIONS

15. The Chemistry of Sunscreens  
    *Nadim A. Shaath*  
    Pages: 263
Contents

16. Sunscreen Products: Formulation and Regulatory Considerations
   Kenneth Klein
   285

17. Particulate Sun Blocks: General Principles
   David Fairhurst and Mark A. Mitchnick
   313

18. Broad-Spectrum Physical Sunscreens: Titanium Dioxide
   and Zinc Oxide
   Michael W. Anderson, Julian P. Hewitt, and Stephen R. Spruce
   353

19. Photoprotection of Hair: A Review
   Arthur C. W. Georgalas
   399

20. Melanins
   Miles R. Chedekel and Lisa Zeise
   421

21. Sunscreens and Hair
   Sergio Nacht
   445

22. 5-Methoxypsoralen-Containing Sunscreens
   Antony R. Young
   461

23. Tanning Accelerators
   James M. Wilmott, Michele C. Duggan, and Alexander P. Znaiden
   473

V. BIOLOGICAL EVALUATION OF SUNSCREEN PRODUCTS

24. Sun Protection Factor Determination in the United States
   Molly E. Griffin, Teresa D. Bourget, and Nicholas J. Lowe
   499

25. European Guidelines (COLIPA) for Evaluation of Sun
   Protection Factors
   Jack Ferguson
   513

26. Ultraviolet A Claims and Testing Procedures for
   OTC Sunscreens: A Summary and Review
   Nicholas J. Lowe
   527

27. An Evaluation of Methods for Measuring Sunscreen
   Ultraviolet A Protection Factors
   Joseph W. Stanfield, Susan H. Edmonds, and Patricia P. Agin
   537
28. Persistent Pigment-Darkening Response as a Method for Evaluation of Ultraviolet A Protection Assays  
   *Alain Chardon, Dominique Moyal, and C. Hourseau*

29. Sunscreens: Effects of Amounts of Application of Sun Protection Factors  
   *Annette Gottlieb, Teresa D. Bourget, and Nicholas J. Lowe*

30. Indices of Protection from In Vitro Assay of Sunscreens  
   *Brian L. Diffey*

31. Noninvasive In Vivo Determination of Sunscreen Ultraviolet A Protection Factors Using Diffuse Reflectance Spectroscopy  
   *Robert Gillies and Nikiforos Kollias*

   *Dominique Moyal and O. Binet*

33. Ultraviolet Protection Offered by Clothing: An In Vitro and In Vivo Assessment of Clothing Fabrics  
   *Nicholas J. Lowe, Teresa D. Bourget, Shaun Hughes, and Robert M. Sayre*

34. Contact Sensitization and Photocontact Sensitization of Sunscreening Agents  
   *Jens O. Funk, Sydney H. Dromgoole, and Howard I. Maibach*

VI. CHEMICAL EVALUATION OF SUNSCREEN PRODUCTS

35. Quality Control of Sunscreens  
   *Nadim A. Shaath*

36. Modern Analytical Techniques in the Sunscreen Industry  
   *Nadim A. Shaath, Peter M. Griffin, and Gideon I. Andemicael*

37. Interpretation and Evaluation: Spectroscopic Data from Sunscreens  
   *Nadim A. Shaath, Peter M. Griffin, Gideon I. Andemicael, and Lisa E. Paloympis*

*Index* 763
