This volume is the result of a conference, entitled *Nutritional Implications of Macronutrient Substitutes*, held in Arlington, Virginia on October 27–29, 1996, by the New York Academy of Sciences. The conference was also sponsored by the International Life Sciences Institute North America Technical Committee on Macronutrient Substitution.
Carbohydrates and Energy Balance. By R. JAMES STUBBS, A. M. PRENTICE, and W. P. T. JAMES .................................................. 44

Part III. Macronutrient Modification and Food Selection
Impact of Macronutrient Substitutes on the Composition of the Diet and the U.S. Food Supply. By REBECCA MORGAN, MADELEINE SIGMAN-GRANT, DENISE S. TAYLOR, KRISTIN MORIZARTY, VALERIE FISHELL, and PENNY M. KRIS-ETHERTON. ....................... 70
Impact of Macronutrient-substituted Foods on Food Choice and Dietary Intake. By DAVID J. MELA ............................................. 96
Impact of the Use of Reduced-fat Foods on Nutrient Adequacy. By JAMES T. HEIMBACH, BROOKE E. VAN DER R IET, and S. KATHLEEN EGAN .................................................. 108

Part IV. Macronutrient Substitutes: Consumer Knowledge, Attitudes, and Practices
Consumer Attitudes and Practices. By LYN O’BRIEN NABORS ....... 115
Social Determinants of Food Intake. By LOUIS E. GRIVETTI .......... 121
Macronutrient Substitutes and Weight-reduction Practices of Obese, Dieting, and Eating-disordered Women. By ADAM DREWNOWSKI ........................................... 132

Part V. Macronutrient Substitutes: Clinical and Experimental Evaluation
Dietary Fiber: Nutritional Lessons for Macronutrient Substitutes. By KAY M. BEHALL ................................................................. 142
Appropriate Animal Models for Clinical Studies. By RUTH B. S. HARRIS ................................................................. 155
Nutritional Aspects of Macronutrient-substitute Intake. By JOHN C. PETERS ................................................................. 169
Fat and Sugar Substitutes and the Control of Food Intake. By BARBARA J. ROLLS ............................................................. 180
Food Intake Regulation in Children: Fat and Sugar Substitutes and Intake. By LEANN L. BIRCH and JENNIFER O. FISHER .......... 194
Beyond Calories: Other Benefits of Macronutrient Substitutes—Effects on Chronic Disease. By JUDY S. HANNAH ................. 221

Part VI. Poster Papers
Replacement of Dietary Fat with Fat-free Margarine Alters Vitamin E Storage in Rats. By G. V. MITCHELL, E. GRUNDEL, and M. Y. JENKINS .................................................. 236
