Contributors .......................................................... vii
Preface ................................................................. xi

## Part I: General Aspects of In Vitro Testing

1. Replacement Alternative and Complementary In Vitro Methods in Pharmaceutical Research ................................................................. 1
   Donald W. Straughan, Julia H. Fentem and Michael Balls

2. Integration of QSAR and In Vitro Toxicology ........................................ 15
   Martin D. Barratt and Mark Chamberlain

3. Continuous Cell Lines as a Model for Drug Toxicity Assessment ............ 33
   Frank A. Barile

## Part II: Target Organ Toxicity

4. In Vitro Models for Nephrotoxicity Screening and Risk Assessment ........ 55
   Peter H. Bach, David K. Obatomi and Stephen Brant

5. Experimental In Vitro Models to Evaluate Hepatotoxicity .................... 103
   Alison E. M. Vickers

6. Isolation, Culture and Use of Human Hepatocytes in Drug Research ........ 129
   María José Gómez-Lechón, Teresa Donato, Xavier Ponsoda, Ricardo Fabra,
   Ramón Trullenque and José V. Castell

7. Studies of Neurotoxicity in Cellular Models ...................................... 155
   Elizabeth McFarlane Abdulla and Iain C. Campbell

8. Chondrocyte Culture: A Target System to Evaluate Pharmacotoxicological
   Effects of Drugs ...................................................................... 181
   Monique Adolphe, Sophie Thenet-Gauci and Sylvie Demignot

9. Primary Cultures of Cardiac Myocytes as In Vitro Models for Pharmacological
   and Toxicological Assessments ................................................... 209
   Enrique Chacon, Daniel Acosta and John J. Lemasters

10. Immunotoxicology Testing In Vitro ................................................ 225
    Clive Meredith and Klara Miller

## Part III: Irritancy Testing

11. Cutaneous Pharmacotoxicology In Vitro ........................................... 241
    Roland Roguet
12 Ocular Irritation .................................................. 265
Horst Spielmann

13 Phototoxicity of Drugs ........................................... 289
Miguel A. Miranda

Part IV: Genotoxicity and Tetratogenicity Testing
14 In Vitro Genotoxicity and Cell Transformation Assessment .............. 317
Ian de G. Mitchell and Robert D. Combes

15 Use of Whole Embryo Cultures in In Vitro Teratogenicity Testing ......... 353
Beat Schmid, Rudolf Bechter and Pavel Kucera

Part V: Drug Metabolism and Mechanisms of Toxicity
16 In Vitro Investigation of the Molecular Mechanisms of Hepatotoxicity ...... 375
José V. Castell, María José Gómez-Lechón, Xavier Ponsoda and Roque Bort

17 Biotransformation of Drugs by Hepatocytes .................................. 411
André Guillouzo

18 Drug Metabolism and Carcinogen Activation Studies with Human Genetically Engineered Cells .................................................. 433
Katherine Macé, Elizabeth A. Offord and Andrea M. A. Pfeifer

Index ............................................................................. 457
