Architecture and evolution of the continental crust of East Greenland from integrated geophysical studies

Aufbau und Entwicklungsgeschichte der kontinentalen Kruste Ostgrönlands aus integrierten geophysikalischen Untersuchungen

Vera Schlindwein

UB Braunschweig 84

Table of contents

Abstract	3
Zusammenfassung	5
1 Introduction	7
2 Geological and geophysical background	11
2.1 Geology of East Greenland	11
2.2 Previous geophysical studies of East Greenland	15
3 Aeromagnetic study of East Greenland	17
3.1 Aeromagnetic data	17
3.1.1 Data acquisition.....	17
3.1.2 Data processing	21
3.1.3 Aeromagnetic anomaly maps.....	25
3.1.4 Key results.....	25
3.2 Magnetic susceptibility data	27
3.2.1 Data acquisition and processing	28
3.2.2 Magnetic minerals	28
3.2.3 Susceptibilities and geological observations	30
3.2.4 Key results.....	35
3.3 Crustal structure in the light of aeromagnetic data	36
3.3.1 North Greenland.....	36
3.3.2 Caledonian fold belt.....	42
3.3.3 Tertiary volcanism	51
3.3.4 Unexplained anomalies	55
4 Seismic and potential field study of East Greenland	57
4.1 Gravity data	57
4.1.1 Gravity data base	57
4.1.2 Accuracy of the gravity data.....	57
4.1.3 Bouguer anomaly map	60
4.1.4 Key results.....	60

4.2 Seismic refraction data	60
4.2.1 Data acquisition.....	60
4.2.2 Data processing	62
4.2.3 Method of seismic modelling	65
4.2.4 Seismic models for the continental crust of East Greenland.....	69
4.2.5 Key results.....	96
4.3 Joint analysis of geophysical data	96
4.3.1 Method	96
4.3.2 Combined models for the crustal structure of the fjord region of East Greenland.....	97
4.3.3 Discussion.....	104
4.3.4 Key results.....	106
5 Post-Caledonian evolution of East Greenland	109
5.1 Model for the crustal evolution of East Greenland	109
5.1.1 Crustal structure of the East Greenland Caledonides.....	109
5.1.2 Devonian extensional collapse of the East Greenland Caledonides...	109
5.1.3 Post-Devonian extension	114
5.1.4 Tertiary magmatism.....	115
5.1.5 Key results.....	117
5.2 Discussion	118
5.2.1 Crustal structure of the Caledonian orogen.....	118
5.2.2 Extensional collapse of the Caledonian orogen	120
5.2.3 The Kong Oscar Fjord fault zone - a long-lived structure.....	124
5.2.4 Lithospheric control of Tertiary magmatic underplating.....	125
5.2.5 Post-drift Tertiary evolution of East Greenland	127
6 Summary and outlook	129
6.1 Conclusions	129
6.2 Suggestions for further work	130
7 Acknowledgements	133
8 References	135
9 Appendix	143
