Contents

Preface ix

Part One: Conceptual framework 1

1 Railway station area redevelopment in the spotlight 3
   1.1 Cities on rails: an introduction 3
   1.2 Driving forces behind railway station area redevelopment 5
   1.3 Organization of the book 8

2 The railway station as node and place 9
   2.1 Nodes and places 9
   2.2 Nodes of networks 10
   2.3 Places in the city: defining and delimitating the station as place 11
   2.4 On the interaction of node and place: railway stations, airports and seaports 13

3 What makes the development potential of a railway station location? 21
   3.1 The transport development perspective: the node 21
   3.2 The property development perspective: the place 36
   3.3 Towards an integrated transport–property perspective 43

4 How to realize the potential? 49
   4.1 Introduction 49
   4.2 The institutional conditions 51
   4.3 Actors involved in the process 59
   4.4 Railway station redevelopment: the starting point for analysis 60
## Part Two: Cases

### 5 Euralille
- Preamble: the national planning system
- Context: railway station area redevelopment in France
- Euralille as node and place
- Property development at Euralille
- Euralille: evaluation

### 6 Utrecht Centrum Project and the Zuidas
- Preamble: the national planning system
- Context: railway station area redevelopment in the Netherlands
- The Utrecht Centrum Project as node and place
- Property development at the Utrecht Centrum Project
- Utrecht Centrum Project: evaluation
- The Zuidas as node and place
- Property development at the Zuidas
- The Zuidas: evaluation

### 7 Stockholm City West
- Preamble: the national planning system
- Context: railway station area redevelopment in Sweden
- Stockholm Central station as node and place
- Property development at Stockholm City West
- Stockholm City West: evaluation

### 8 Basel EuroVille and Zentrum Zürich Nord
- Preamble: the national planning system
- Context: railway station area redevelopment in Switzerland
- Basel EuroVille as node and place
- Property development at Basel EuroVille
- Basel EuroVille: evaluation
- Zentrum Zürich Nord as node and place
- Property development at Zentrum Zürich Nord
- Zentrum Zürich Nord: evaluation

### 9 King’s Cross railway lands
- Preamble: the national planning system
- Context: railway station area redevelopment in the UK
- King’s Cross railway lands as node and place
- Property development at King’s Cross railway lands
- King’s Cross railway lands: evaluation
## Part Three: Conclusions

<table>
<thead>
<tr>
<th>Section</th>
</tr>
</thead>
<tbody>
<tr>
<td>10 Conclusions</td>
</tr>
<tr>
<td>10.1 The redevelopment of railway station areas: its urgency and complexity</td>
</tr>
<tr>
<td>10.2 The characteristic dilemmas of station area redevelopment</td>
</tr>
<tr>
<td>10.3 Making it happen: building a capacity to act</td>
</tr>
<tr>
<td>10.4 Towards an agenda for research and practice: putting railway station locations in their urban–regional context</td>
</tr>
</tbody>
</table>
