### Chapter 4

**Ingredients for the Modern Perfumery Industry**  
*Charles Sell*

| Economic Factors Affecting Perfume Ingredient Production     | 51   |
| Perfume Ingredients Derived from Terpenes                   | 52   |
| Introduction                                                | 52   |
| Five Key Terpenes                                           | 54   |
| Hemiterpenes                                                | 63   |
| Acyclic Monoterpenes                                        | 63   |
| Cyclic Monoterpenes                                         | 67   |
| Bicyclic Monoterpenes                                       | 76   |
| Sesquiterpenes                                              | 78   |
| Cedarwood                                                   | 81   |
| Sandalwood                                                  | 83   |
| Diterpenes                                                  | 86   |
| Ambergris                                                    | 86   |
| Ionones and Related Compounds                                | 88   |
| Musks                                                       | 91   |
| Nitromusks                                                  | 93   |
| Polycyclic Musks                                             | 95   |
| Macrocyclic Musks                                            | 98   |
| Perfume Ingredients Derived from Benzene                    | 101  |
| Perfume Ingredients Derived from Toluene                    | 105  |
| Perfume Ingredients Derived from Phenol                     | 108  |
| Perfume Ingredients Derived from Naphthalene                 | 114  |
| Perfume Ingredients Derived from Aliphatic Materials         | 116  |
| Perfume Ingredients Derived from Cyclopentanone              | 121  |
| Perfume Ingredients Derived from Dicyclopentadiene           | 122  |
| Conclusions                                                 | 124  |
| References                                                  | 124  |
## Chapter 5
The Structure of an International Fragrance Company  
*David Pybus*

- Introduction 125
- The Business-getting Chain 127
- The Supply Chain 127
- References 130

## Chapter 6
The Fragrance Brief  
*David Pybus*

- Brief for ‘Eve’, Prepared by Business Scents Ltd 131
  - Background 133
  - Product Range 134
  - General 134
  - Fragrance 134
  - Time-scale 135
  - Brief Recipients 135
  - Price 135
  - Production 135

## Chapter 7
Perfume Creation: The Role of the Perfumer  
*Les Small*

- Perfumery Degrees of Freedom 137
- The Alcoholic Fragrance 139
- Development of Other Products 141
  - Soap 141
  - Shampoo 142
  - Shower and Bath Gel 143
  - Antiperspirant 144
- Conclusion 144
- Reference 144
Contents

Self-regulation 174
Safety Assessment 177
   Skin Irritation 178
   Skin Sensitization 179
   Photoeffects 182
   Neurotoxicity 183
   Reproductive Effects 185
   Natural Ingredients 186
Conclusions 186
References 186

Chapter 11
Volatility and Substantivity 188
Keith D. Perring

   Perfume Creation and Physical Chemistry 188
   Perfume Ingredient Volatility 189
   Perfume Polarity 193
   Substantivity and Retention 197
Conclusions 200
References 201

Chapter 12
Natural Product Analysis in the Fragrance Industry 202
Robin Clery

   Introduction 202
   Natural Product Analysis 202
      The Traditional Approach 203
      The Headspace Approach 204
   Analytical Techniques Used in the Fragrance Industry 206
      Extraction 206
      Gas–Liquid Chromatography 207
      Preparative Liquid Chromatography 211
   Positive Identification 212
   Headspace Collection 213
References 215
Chapter 13
Chemoreception 216
Charles Sell
Background 216
Theories 217
Biological Facts 220
Misconceptions 223
Conclusions 225
References 226
Further Reading 226

Chapter 14
Electronic Odour Sensing 227
Jenny Oliver
Introduction 227
Electronic Aroma-sensing Systems 228
Possible Uses of an Electronic Odour-sensing System 231
Conclusion 232
References 232

Chapter 15
The Search for New Fragrance Ingredients 233
Karen Rossiter
Introduction 233
The Need 235
The Search 240
Clues from Nature 240
Serendipity 241
Synthesis of Analogues 242
Structure–Activity Relationships 244
The Hansch Approach 245
The Osmophore Approach 248
Pattern Recognition 250
Ligand–Olfactory Receptor Modelling 251
Summary 252
Chapter 16

The Brief Submission 255

David Pybus and Les Small

Marketing Platform 255
Djinni Concept 255
Fragrance Description of 'Djinni' 256
Head and Top Notes: Fruity–Citrus 256
Middle and Heart Notes: Watery Muguet (Lily of the Valley) 257
Base and Foundation Notes: Powdery Amber 257
Overall Composition 257

Epilogue 258

Appendix I  Alcohol 259

Appendix II  Useful Addresses 262

Bibliography 264

Subject Index 268

Djinni's Lamp
