MECHANISMS OF CELL DEATH
THE SECOND ANNUAL CONFERENCE
OF THE CELL DEATH SOCIETY

Edited by Zahra Zakeri, Richard A. Lockshin, and Luis Benítez-Bribiesca
MECHANISMS OF CELL DEATH
THE SECOND ANNUAL CONFERENCE OF THE CELL DEATH SOCIETY

Conference Organizers
ZAHRA ZAKERI AND RICHARD A. LOCKSHIN

Advisory Board Members
RAYMOND BIRGE, MICHAEL HENGARTNER, AND BARBARA OSBORNE

Editors
ZAHRA ZAKERI, RICHARD A. LOCKSHIN, AND LUIS BENÍTEZ-BRIBIESCA

CONTENTS

Preface. By RICHARD A. LOCKSHIN ........................................... ix

Part I. Mechanisms and General Considerations

Apoptosis: A Two-edged Sword in Aging. By HUBER R. WARNER ............... 1

Ultrastructural Alterations of Mitochondria in Pre-apoptotic and Apoptotic
Hepatocytes of TNFα-treated Galactosamine-sensitized Mice. By
S. ANGERMÜLLER, J. SCHUMANN, H.D. FAHIMI, AND G. TIEGS ............... 12

Mitochondrial Membrane Permeabilization during the Apoptotic Process. By
ETIENNE JACOTOT, PAOLA COSTANTINI, ERIC LABOUREAU, NAOUFAL
ZAMZAMI, SANTOS A. SUSIN, AND GUIDO KROEMER ...................... 18

Coenzyme Q\textsubscript{10} Can in Some Circumstances Block Apoptosis, and This Effect
Is Mediated through Mitochondria. By TERRI KAGAN, CLAUDETTE DAVIS,
LIN LIN, AND ZAHRA ZAKERI .................................................. 31

Neither Caspase-3 nor DNA Fragmentation Factor Is Required for High
Molecular Weight DNA Degradation in Apoptosis. By P. ROY WALKER,
JULIE LEBLANC, CHRISTINE CARSON, MARIA RIBECCO
AND MARIANNA SIKORSKA .................................................. 48

Apoptosis-related Functional Features of the DNasel-like Family of Nucleases.
By QING Y. LIU, MARIA RIBECCO, SIYARAM PANDEY, P. ROY WALKER,
AND MARIANNA SIKORSKA .................................................. 60

\textsuperscript{a}This volume is the result of a conference entitled MECHANISMS OF CELL DEATH held by the Cell
Death Society at the Queens College Campus of the City University of New York on July 17-18,
1998.
Does the Oxidative/Glycolytic Ratio Determine Proliferation or Death in Immune Recognition? By M. Karen Newell, Mary-Ellen Harper, Karen Fortner, Julie Desbarats, Alicia Russo, and Sally A. Huber .................................................. 77

Regulation of Transglutaminases by Nitric Oxide. By Francesca Bernassola, Antonello Rossi, and Gerry Melino ................................. 83

Part II. Programmed (Developmental) Cell Death

The Molecular Mechanism of Programmed Cell Death in C. elegans. By Qiong A. Liu and Michael O. Hengartner ......................... 92

Developmental Regulation of Induced and Programmed Cell Death in Xenopus Embryos. By Carmel Hensey and Jean Gautier .................. 105

Bone Morphogenetic Proteins Regulate Interdigital Cell Death in the Avian Embryo. By Ramón Merino, Yolanda Gañán, Domingo Macias, Joaquín Rodríguez-León, and Juan M. Hurle .................. 120

Part III. Cell Death in Pathological and Clinical Situations

Oxidative Damage, Bleomycin, and Gamma Radiation Induce Different Types of DNA Strand Breaks in Normal Lymphocytes and Thymocytes: A Comet Assay Study.
By Luis Benítez-Bribiesca and Patricia Sánchez-Suárez .................. 133

Tumor Cells Utilize Multiple Pathways to Down-Modulate Apoptosis: Lessons from a Mouse Model of Islet Cell Carcinogenesis. By Jeffrey H. Hager and Douglas Hanahan .................. 150

Hyperoxia in Cell Culture: A Non-apoptotic Programmed Cell Death. By Jeffrey A. Kazzaz, Stuart Horowitz, Yuchi Li, and Lin L. Mantell ................................. 164

Hyperoxia-induced Cell Death in the Lung—the Correlation of Apoptosis, Necrosis, and Inflammation. By Lin L. Mantell, Stuart Horowitz, Jonathan M. Davis, and Jeffrey A. Kazzaz .................. 171

Apoptosis in Coxsackievirus B3–induced Myocarditis and Dilated Cardiomyopathy. By S.A. Huber, R.C. Budd, K. Rossner, and M.K. Newell ................................. 181

The Immune Response to Apoptotic Cells. By Dror Mevorach .................. 191

Programmed Cell Death as a Mechanism of CD4 and CD8 T Cell Deletion in AIDS: Molecular Control and Effect of Highly Active Anti-retroviral Therapy. By Marie-Lise Gougeon and Luc Montagnier .................. 199

Index of Contributors .................................................. 213
