Evidence-based Pharmacy

Edited by

Christine Bond

BPharm, MEd, PhD, MRPharmS

Senior Lecturer and Deputy Head of Department
Department of General Practice and Primary Care
University of Aberdeen
Aberdeen, UK
## Contents

*Foreword* ix  
*Preface* x  
*About the editor* xii  
*Contributors* xiii  

1. **An introduction to pharmacy practice research**  
   - Introduction 1  
   - A new age for pharmacy 1  
   - Pharmacy practice research and health services research 4  
   - Conclusion 20  
   - References 21  

2. **Advice-giving in community pharmacy**  
   - Introduction 25  
   - Methodological problems and issues 27  
   - Research studies 31  
   - The future 36  
   - References 37  

3. **The reclassification of medicines (I): clinical aspects**  
   - Medicines deregulation 41  
   - The research issues 49  
   - The studies 51  
   - Acknowledgements 70  
   - References 70  

4. **The reclassification of medicines (II): economic aspects**  
   - Introduction 73  
   - Identifying and measuring costs and benefits when reclassifying drugs 73  
   - Empirical evidence 81  
   - Discussion and conclusion 84  
   - Acknowledgements 87  
   - References 87  

5. **Prescribing**  
   - General practice prescribing 91  
   - The research issues 94  
   - The study 97
Contents

Implications for practice 109
Acknowledgements 112
References 113

6 Disease management
Introduction 115
Research questions 118
Method 119
Results 122
Discussion 125
Conclusion 127
Acknowledgements 129
References 129

7 Hospital at home
Introduction 131
The research question 136
The study 136
Discussion 145
Future for pharmacy practice in IV HAH care in the UK 148
Acknowledgements 149
References 149

8 Health promotion (I): smoking cessation
Introduction 155
The research question and methods 158
The study 162
Conclusions 175
Acknowledgements 179
References 179

9 Health promotion (II): services to drug misusers
Introduction 183
Research questions and methods 187
The study 189
Implications of findings for pharmacy practice 203
Acknowledgements 207
References 207

10 Conclusion: the future for evidence-based pharmacy
Introduction 209
Evidence to support the 'Pharmacy in a New Age' (PIANA) strategy 209
The importance of research and development 214
The agenda for practitioners 215
The agenda for researchers 216
