# Table of Contents

## SECTION I

### Bioavailability of Trace Elements

**Chapter 1**  
Bioavailability and Fate of Trace Elements in Long-Term Residual-Amended Soil Studies  
*George F. Vance and Gary M. Pierzynski*

**Chapter 2**  
Mobility and Bioavailability of Trace Elements in Soils  
*Eliska Podlesáková, Jan Nemecek, and Radim Vácha*

**Chapter 3**  
Sequential Extraction of Metals from Artificially Contaminated Soils in the Presence of Various Composts  
*Luis Madrid, Encarnación Díaz-Barrientos, and Isabel Cardo*

**Chapter 4**  
Induced Hyperaccumulation: Metal Movement and Problems  
*Chris Anderson, Annabelle Deram, Daniel Petit, Robert Brooks, Robert (Bob) Stewart, and Robyn Simcock*

**Chapter 5**  
Bioavailability of Cu, Zn, and Mn in Contaminated Soils and Speciation in Soil Solution  
*David L. Rimmer, Suzanne M. Reichman, and Neal W. Menzies*

## SECTION II

### Fluxes and Transfer Partitioning of Trace Elements

**Chapter 6**  
Experimental and Theoretical Study on Equilibrium Partitioning of Heavy Metals  
*William J.G.M. Peijnenburg, Arthur C. de Groot, and Rens P.M. van Veen*

**Chapter 7**  
Isotopic Exchange Kinetics Method for Assessing Cadmium Availability in Soils  
*Emilie Gérard, Guillaume Echevarria, Christian Morel, Thibault Sterckeman, and Jean Louis Morel*
Chapter 8
Accumulation, Redistribution, Transport, and Bioavailability of Heavy Metals in Waste-Amended Soils
F.X. Han, W.L. Kingery, and H.M. Selim

Chapter 9
Contaminant Transport in the Root Zone
Iris Vogeler, Steven R. Green, Brent E. Clothier, M.B. Kirkham, and Brett H. Robinson

Chapter 10
Partitioning and Reaction Kinetics of Cd-109 and Zn-65 in an Alum Shale Soil as Influenced by Organic Matter at Different Temperatures
Åsgeir Almås and Bal Ram Singh

Chapter 11
Solid Phase Speciation of Cd, Ni, and Zn in Contaminated and Noncontaminated Tropical Soils
Abul Kashem and Bal Ram Singh

Chapter 12
Quality of Estimated Freundlich Parameters of Cd Sorption from Pedotransfer Functions to Predict Cadmium Concentration of Soil Solution
Günther Springob, Dörthe Tetzlaff, Angela Schön, and Jürgen Bottcher

Chapter 13
Effect of Sorbed and Dissolved Organic Carbon on Molybdenum Retention by Iron Oxides
Friederike Lang and Martin Kaupenjohann

Chapter 14
Speciation and Sorption of Lead (II) in Soils
Alexander Ponizovsky and Eugene Mironenko

Index
