Foreword ..............................................................vii

On Dynamic Wavelength Assignment
in WDM Optical Networks .................................1
  Murat Alanyali

Wavelength Assignment Algorithms
for WDM Ring Architectures ..............................19
  Georgios Ellinas and Krishna Bala

Dynamic Traffic Scheduling for QoS Support
in WDM/TDM Networks with Arbitrary
Tuning Latencies ..................................................47
  Nen-Fu Huang, Te-Lung Liu, and Ching-Fang Hsu

Optimal Placement of Wavelength Converters
in WDM Networks for Parallel and Distributed
Computing Systems .............................................75
  Xiaohua Jia, Ding-Zhu Du, Xiaodong Hu, Hejiang Huang,
  and Deying Li

Lightpath Establishment in Wavelength-Routed
WDM Optical Networks .......................................99
  Jason P. Jue

Multifiber WDM Networks ....................................123
  Ling Li and Arun K. Somani

Recent Developments in Optical
Multistage Networks ..........................................151
