## Contents

Acknowledgments vii

1. Introduction 1

2. The Soil Food Web: Biotic Interactions and Regulators 7
   - Controls: Top Down, Bottom Up, and Productivity 9
   - Regulation by Resources and Predation in Soil Food Webs 16
   - Litter Transformers, Ecosystem Engineers, and Mutualisms 37
   - The Functionality of Soil Food Webs 43
   - Stability and Temporal Variability 48
   - Synthesis 53

3. Plant Species Control of Soil Biota and Processes 56
   - Plant Species Effects on Soil Biota 57
   - Links among Plant Species, Soil Biota, and Soil Processes 68
   - Temporal and Spatial Variability 73
   - Plant Traits, Strategies, and Ecophysiological Constraints 83
   - Soil Biotic Responses to Vegetation Succession 97
   - Synthesis 103

4. Belowground Consequences of Aboveground Food Web Interactions 105
   - Individual Plant Effects 106
   - Dung and Urine Return 114
   - Effects of Palatability Differences among Plant Species 117
   - Spatial and Temporal Variability 130
   - Consequences of Predation of Herbivores 132
## CONTENTS

*Transport of Resources by Aboveground Consumers*  
*Synthesis*  

### 5. Completing the Circle: How Soil Food Web Effects Are Manifested Aboveground

- **The Decomposer Food Web**  
- **Nitrogen Transformations**  
- **Microbial Associates of Plant Roots**  
- **Root Herbivores**  
- **Physical Effects of Soil Biota**  
- **Soil Biotic Effects on Aboveground Food Webs**  
*Synthesis*  

### 6. The Regulation and Function of Biological Diversity

- **Assessment of Soil Diversity**  
- **Stress and Disturbance as Controls of Soil Diversity**  
- **Biotic Controls of Diversity**  
- **The Enigma of Soil Diversity**  
- **Diversity of Soil Organisms over Larger Spatial Scales**  
- **Biodiversity and Ecosystem Function**  
*Synthesis*  

### 7. Global Change Phenomena in an Aboveground-Belowground Context

- **Species Losses and Gains**  
- **Land Use Changes**  
- **Carbon Dioxide Enrichment and Nitrogen Deposition**  
- **Global Climate Change**  
*Synthesis*  

### 8. Underlying Themes
