*List of figures/plates*  
xiii  
*List of contributors*  
xvii  
*Preface*  
xviii  

1  **Cannabinoid receptor genetics and behavior**  
EMMANUEL S. ONAIWI, HIROKI ISHIKURO, ZHICHENG LIN,  
BABATUNDE E. AKINSHOLA, PING-WU ZHANG AND GEORGE R. UHL  

2  **Cannabinoid therapeutic potential in motivational processes, psychological disorders and central nervous system disorders**  
RICHARD F. MUSTY  

3  **Marijuana addiction and CNS reward-related events**  
ELIOT L. GARDNER  

4  **Effects of marijuana on human performance and assessment of driving impairment**  
STEPHEN J. HEISHMAN  

5  **Biology of endocannabinoids**  
VINCENZO DI MARZO, LUCIANO DE PETROCELLIS,  
TIZIANA BISOGNO, ALVIN BERGER AND RAPHAEL MECHOUAM  

6  **Cannabinoids and endocannabinoids: behavioral and developmental aspects**  
ESTER FRIDE AND M. CLARA SAÑUDO-Peña  

7  **Marijuana and movement disorders**  
M. CLARA SAÑUDO-Peña AND ESTER FRIDE
8 Effects of marijuana on brain: function and structure 234
  WILLIAM H. WILSON AND ROY J. MATHEW

9 Marijuana and cannabinoid effects on immunity and AIDS 282
  GUY A. CABRAL

10 Marijuana and cognitive function 308
   NADIA SOLOWIJ

11 Marijuana and endocrine function 333
   LAURA L. MURPHY

12 Embryonic cannabinoid receptors are targets for natural and endocannabinoids during early pregnancy 344
   B. C. PARIA AND S. K. DEY

13 Antiemetic action of $\Delta^9$-tetrahydrocannabinol and synthetic cannabinoids in chemotherapy-induced nausea and vomiting 356
   NISSAR A. DARMANI

14 Cannabis and prostaglandins: an overview 390
   SUMNER H. BURSTEIN

15 Cannabinoid mediated signal transduction 407
   MICHELLE GLASS AND SEAN D. MCALLISTER

16 Deregulation of membrane and receptor mediated signaling by THC – therapeutic implications 431
   GABRIEL G. NAHAS, D. HARVEY, K. M. SUTIN, H. TURNDORF AND R. CANCRO

17 Cannabinoid receptors: the relationship between structure and function 449
   PATRICIA H. REGGIO

18 Endocannabinoid proteins and ligands 491
   SONYA L. PALMER, ATMARAM D. KHANOLKAR AND ALEXANDROS MAKRIYANNIS

19 Electrophysiological actions of marijuana 523
   PAUL SCHWEITZER
20 The vascular pharmacology of endocannabinoids 542
MICHAEL D. RANDALL, DAVID HARRIS AND DAVID A. KENDALL

21 The cannabinoid receptors and their interactions with synthetic cannabinoid agonists and antagonists 554
DAVID SHIRE, PAUL GOULDSON, BERNARD CALANDRA, MARIELLE PORTIER, MONSIF BOUABOULA, FRANCIS BARTH, MURIELLE RINALDI-CARMONA, PIERRE CASELLAS, GERARD LE FUR AND PASCUAL FERRARA

22 Cannabinoids as analgesics 573
J. MICHAEL WALKER, NICOLE M. STRANGMAN AND SUSAN M. HUANG

23 Effects of acute and chronic cannabinoids on memory: from behavior to genes 591
ROBERT E. HAMPSON, ELENA GRIGORENKO AND SAM A. DEADWYLER

24 Adverse effects of marijuana 621
JOHN R. HUBBARD
