Preface                                                          v
Contributors                                                   xvii

Part I: Oral

1. Oral Modified-Release Delivery Systems 1
   Susan A. Charman and William N. Charman

2. TIMERx Oral Controlled-Release Drug Delivery System 11
   Troy W. McCall, Anand R. Baichwal, and John N. Staniforth

3. MASRx and COSRx Sustained-Release Technology 21
   Syed A. Altaf and David R. Friend

4. Procise: Drug Delivery Systems Based on Geometric Configuration 35
   Sham K. Chopra

5. RingCâp Technology 49
   David A. Dickason and George P. Grandolfi
Horst G. Zerbe and Markus Krumme

7. TheriForm Technology  
Charles W. Rowe, Chen-Chao Wang, and Donald C. Monkhouse

8. Accudep Technology for Oral Modified Drug Release  
S. S. Chrai, David R. Friend, G. Kupperblatt, R. Murari, Jackie Butler, T. Francis, Araz A. Raoof, and Brian McKenna

9. Osmotically Controlled Tablets  
Patrick S. L. Wong, Suneel K. Gupta, and Barbara E. Stewart

10. Three-Phase Pharmaceutical Form—THREEFORM—with Controlled Release of Amorphous Active Ingredient for Once-Daily Administration  
Janez Kerč

11. Two Concepts, One Technology: Controlled-Release and Solid Dispersions with Meltrex  
Jörg Breitenbach and Jon Lewis

12. DissoCubes—A Novel Formulation for Poorly Soluble and Poorly Bioavailable Drugs  
Rainer H. Müller, Claudia Jacobs, and Oliver Kayser

13. IDD Technology: Oral Delivery of Water-Insoluble Drugs Using Phospholipid Stabilized Microparticulate IDD Formulations  
Awadhesh K. Mishra, Michael G. Vachon, Pol-Henri Guivarc’h, Robert A. Snow, and Gary W. Pace

14. Liquid-Filled and -Sealed Hard Gelatin Capsule Technologies  
Ewart T. Cole

15. The Zydis Oral Fast-Dissolving Dosage Form  
Patrick Kearney

16. Orasolv and Durasolv: Efficient Technologies for the Production of Orally Disintegrating Tablets  
S. Indiran Pather, Rajendra K. Khankari, and Derek V. Moe
Contents

Part II: Colonic

17. Colonic Drug Delivery
    Clive G. Wilson 217

18. Enteric Coating for Colonic Delivery
    Gour Mukherji and Clive G. Wilson 223

19. Biopolymers and Colonic Delivery
    Gour Mukherji and Clive G. Wilson 233

20. Time-Dependent Systems for Colonic Delivery
    Wang Wang Lee, Gour Mukherji, and Clive G. Wilson 243

    John R. Crison, Michael L. Vieira, and Gordon L. Amidon 249

    Howard N. E. Stevens 257

23. Development of the Egalet Technology

24. The Enterion Capsule
    David V. Prior, Alyson L. Connor, and Ian R. Wilding 273

Part III: Ocular

25. Ophthalmic Drug Delivery
    Bernard Plazonnet 289

26. Ion Exchange Resin Technology for Ophthalmic Applications
    R. Jani and E. Rhone 315

27. New Ophthalmic Delivery System (NODS)
    L. Sesha Rao 329
28. Bioadhesive Ophthalmic Drug Inserts (BODI)  
Olivia Felt-Baeyens and R. Gurny  

29. Oral Mucosal Drug Delivery  
Ian W. Kellaway, Gilles Ponchel, and D. Duchêne  

30. Slowly Disintegrating Buccal Mucoadhesive Plain-Tablet (S-DBMP-T) and Buccal Covered-Tablet System (BCTS)  
Katsumi Iga  

31. The Oral PowderJect Device for Mucosal Drug Delivery  
George Costigan and Brian John Bellhouse  

32. The Periochip  
Wilfred Aubrey Soskolne  

33. Polysaccharide-Based Mucoadhesive Buccal Tablets  
Hemant H. Alur, Ashim K. Mitra, and Thomas P. Johnston  

34. Medicated Chewing Gum  
Margrethe Rømer Rassing and Jette Jacobsen  

35. Immediate-Immediate Release (I²R) Lingual or Buccal Spray Formulations for Transmucosal Delivery of Drug Substances  
Harry A. Dugger III, Kenneth E. Cleaver, and Donald P. Cox  

36. Liquid Crystalline Phases of Glyceryl Mono-oleate as Oral Mucosal Drug Delivery Systems  
Jaehwi Lee and Ian W. Kellaway  

37. Microparticles as Delivery Systems for Local Delivery to the Oral Cavity  
Rita Cortesi, E. Menegatti, Claudio Nastruzzi, and Elisabetta Esposito  

38. OraVescent: A Novel Technology for the Transmucosal Delivery of Drugs  
S. Indiran Pather, Rajendra K. Khankari, and John M. Siebert
Contents

Part V: Dermal and Transdermal

39. Dermal and Transdermal Delivery
   Jonathan Hadgraft
   471

40. D-TRANS Technology
   Rama Padmanabhan, Robert M. Gale, J. Bradley Phipps,
   William W. van Osdol, and Wendy Young
   481

41. E-TRANS Technology
   J. Bradley Phipps, Rama Padmanabhan, Wendy Young, Rodney
   M. Panos and Anne E. Chester
   499

42. Microfabricated Microneedles for Transdermal Drug Delivery
   Mark R. Prausnitz, Donald E. Ackley, and J. Richard Gyory
   513

43. Metered-Dose Transdermal Spray (MDTS)
   Timothy M. Morgan, Barry L. Reed, and Barrie C. Finnin
   523

44. Transfersomes: Innovative Transdermal Drug Carriers
   Gregor Cevc
   533

45. Advances in Wound Healing
   Michael Walker
   547

46. Ultrasound-Mediated Transdermal Drug Delivery
   Samir Mitragotri and Joseph Kost
   561

47. SLN and Lipopearls for Topical Delivery of Active Compounds
    and Controlled Release
   Rainer Helmut Müller and Sylvia Wissing
   571

48. Macroflux Technology for Transdermal Delivery of Therapeutic
    Proteins and Vaccines
   Michel Cormier and Peter E. Daddona
   589

49. Needle-Free Drug Delivery
   Franklin Pass and John Hayes
   599

50. Dermal PowderJect Device
   Brian John Bellhouse and Mark A. F. Kendall
   607
Part VI: Injections and Implants

52. Implants and Injectables
   Franklin W. Okumu and Jeffrey L. Cleland

53. Alzamer Depot Bioerodible Polymer Technology
   Jeremy C. Wright, Roy Bannister, Guohua Chen, and Catherine Lucas

54. The Atrigel Drug Delivery System
   Richard Dunn

55. Long-Term Controlled Delivery of Therapeutic Agents via an Implantable Osmotically Driven System: The DUROS Implant
   Jeremy C. Wright, Anne E. Chester, R. Skowronski, and Catherine Lucas

56. Long-Acting Protein Formulations—ProLease Technology
   OluFunmi L. Johnson and Paul Herbert

57. Sucrose Acetate Isobutyrate (SAIB) for Parenteral Delivery
   Arthur J. Tipton

58. Stealth Technology
   Frank Martin and Tony Huang

59. DepoFoam Technology
   Sankaram Mantripragada

60. Medipad Delivery System: Controlled Macromolecule Delivery
   Izrail Tsals and Diana Davidson

Part VII: Nasal

61. Intranasal Drug Delivery
   Daniel P. Wermeling and Jodi L. Miller
## Contents

62. Poly(ethylene oxide)-b-Poly(propylene oxide)-b-Poly(ethylene oxide)-g-Poly(acrylic acid) Copolymers as In Situ Gelling Vehicle for Nasal Delivery  
   *Lev Bromberg*  
   749

### Part VIII: Vaginal

63. Intravaginal Drug Delivery Technologies  
   *A. David Woolfson*  
   759

64. The Intravaginal Ring  
   *R. Karl Malcolm*  
   775

65. SupraVail Vaginal Gel  
   *Mathew Leigh*  
   791

66. VagiSite Bioadhesive Technology  
   *R. Saul Levinson and Daniel J. Thompson*  
   801

### Part IX: Pulmonary

67. Pulmonary Delivery of Drugs by Inhalation  
   *Igor Gonda and Jeff Schuster*  
   807

68. Aerogen Pulmonary Delivery Technology  
   *Paul S. Uster*  
   817

69. The AERx Pulmonary Drug Delivery System  
   *Jeff Schuster and S. J. Farr*  
   825

70. Formulation Challenges of Powders for the Delivery of Small Molecular Weight Molecules as Aerosols  
   *Anthony J. Hickey*  
   835

71. Nebulizer Technologies  
   *Martin Knoch and Warren Finlay*  
   849

72. The Pressurized Metered-Dose Inhaler  
   *Akwete L. Adjei*  
   857
73. Passive Dry Powder Inhalation Technology  
   Ian Ashurst and Ann Malton  
   867

74. Formulation Challenges: Protein Powders for Inhalation  
   Hak-Kim Chan  
   879

75. The Development of Large Porous Particles for Inhalation Drug Delivery  
   Richard Batycky, Daniel Deaver, Sarvajna Dwivedi, Jeffrey Hrkach, Lloyd Johnston, Tracy Olson, James E. Wright, and David Edwards  
   891

76. Dry Powder Inhalation Systems from Inhale Therapeutic Systems  
   Andy R. Clark  
   903

77. Spiros Inhaler Technology  
   Clyde Witham and Elaine Phillips  
   913

78. The Respimat, a New Soft Mist Inhaler for Delivering Drugs to the Lungs  
   Bernd Zierenberg and Joachim Eicher  
   925

79. Regulatory Issues for Pulmonary Delivery Systems  
   Darlene Rosario and Babatunde Otulana  
   935

Part X: Regulatory

80. Regulatory Issues Relating to Modified-Release Drug Formulations  
   Patrick J. Marroum  
   943
