CHAPTER I
Introduction: The Practice of Clinical Pharmacy 1
Patient-Focused Pharmacy Practice 1
The Clinical Environment 5
The Health Care Delivery System 14

CHAPTER 2
Communication Skills for the Pharmacist 18
Verbal Communication Skills 19
Written Communication Skills 21
Integration 23
Additional Communication Skills 34

CHAPTER 3
Taking Medication Histories 40
Preparation for the Interview 41
Observation of the Patient and the Patient's Environment 41
Data to Be Obtained 44
The Difficult Interview 50
Questioning Techniques 51
Documenting the Medication History 52

CHAPTER 4
Physical Assessment Skills 58
The Process 62
Inspection, Palpation, Percussion, and Auscultation Techniques 62
Equipment 63
Skin 64
Head and Neck 68
Chest and Lungs 75
Cardiovascular System 79
Breasts and Axillae 85
Abdomen 86
Genitourinary System 90
Musculoskeletal System 91
Neurologic System 92
CHAPTER 5  Review of Laboratory and Diagnostic Tests  102
Background  102
General Organ System Monitoring  103
Cardiovascular System  106
Endocrine System  111
Gastrointestinal System  115
Hematologic System  119
Immunologic System  125
Infectious Disease  128
Neurologic System  130
Nutritional Assessment  130
Renal System  132
Respiratory System  137
Serous Body Fluids  139

CHAPTER 6  The Patient Case Presentation  143
Components  143

CHAPTER 7  Therapeutics Planning  154
Problem Identification  154
Problem Prioritization  158
Selection of Specific Therapeutic Regimens  159
SOAPing Format  160

CHAPTER 8  Monitoring Drug Therapies  170
Process  171
Application and Integration  175

CHAPTER 9  Researching and Providing Drug Information  186
Process  186
Drug Information Centers  198

CHAPTER 10  Ethics in Pharmacy and Health Care  202
Professional Codes of Ethics  203
Ethical Issues  207

Appendix  224
