## Preface

Preface to the English Edition of Functional Cosmetology—Substantiation of Cosmetics Efficacy:
- Recent Progress and Future Promise (1)
- Supervisor's View of the Significance of this Book and its Importance for Society (3)
- The Great Responsibility of Cosmetic Science in the 21st Century—Steady advances being made in the verification of usefulness (6)

### PART 1

## Chapter I  Social Usefulness of Cosmetics

### I-1 Psychological Effect of Makeup

1. Physical Appearance and Self 1
2. Manipulation of Physical Appearance 3
3. Functions and Meanings of Makeup Behaviour 5
4. Psychological Effects of Makeup 6

### I-2 Effects of Makeup in Medicine

1. Introduction 8
2. Observed Effects of Makeup in Medicine 9
3. Effect of Makeup on a Patient with Manic Depression 11
4. Effect of Makeup on a Patient with Schizophrenia 11
5. Use of Makeup Therapy for Dementia 12
6. Effect of Makeup on a Patient with Alzheimer’s Disease 12
7. Effect of Makeup on a Patient with Vascular Dementia 13
8. Summing up 14

### I-3 Importance of Makeup in the Care of the Elderly

(Conversation with a woman with rich sensibilities and conclusions to be drawn from it)

### I-4 Psychological Effect of Fragrances used in Cosmetics

1. Role of Fragrances in History 20
2. Role of Smells 22
3. Sensitivity to Fragrances 24
4. Fragrances and the Skin, Masking Body Odour 25
5. Characteristics of the Olfactory Sense 25
6. Summing up 27
I-5 What Cosmetics Can Contribute to Health — Including Quality of Life (QOL), Individual Satisfaction, Subjective Feelings and Preference in their Evaluation —

1. Introduction 28
2. WHO View of Health 29
3. Evaluation of Quality of Life (QOL) 31
4. Summing up — Challenges in Diversifying the Evaluation of Cosmetics and Regulatory Systems that will Facilitate this 34

Chapter II Usefulness of Cosmetics in Dermatology

II-1 Overall Effects of Cosmetics from the Dermatological Viewpoint — Effect of Skin Care Cosmetics on the Water Holding Capacity of the Stratum Corneum and Barrier Function —

1. Cosmetic Products from the Viewpoint of Dermatologists 37
2. Scientific Evaluation of Skin Condition 38
3. Methods of Rapidly Evaluating the Water Holding Capacity of the Stratum Corneum 40
4. Nature of Dry Skin (Xerosis) 40
5. Correlation between Barrier Function and Dry Skin (Xerosis) 41
6. Scientific Proof for the Usefulness of Moisturizing Skin Care Products 42
7. How to Select Skin Care Products for the Dry Skin 44
8. Outlook for the Future 45
9. Summing up 46

II-2 Aiming Towards a Common Understanding between Dermatology and Cosmetic Science (with extract from report on an investigation of whitening agents)

1. Introduction 49
2. Physiological and Pathological Aging of the Skin — Common Territory of Dermatology and Cosmetic Science — 49
3. Towards the Realization of Common Terminology — "Crosstalk" between Dermatologists and Cosmetic Researchers — 51
4. Liver Spots, Freckles and Whitening Agents 53
   — Women's awareness of Liver Spots and Freckles and Measures they take against them —
5. Summary and Future Outlook for the Japanese Cosmetic Science Society 54

II-3 Significance of Anti-oxidant Effects in Cosmetic Science —

1. Introduction 55
2. Active Oxygen and Biophylaxis 55
3. Development of Devices Specifically for Detection of Singlet Oxygen 56
4. Detection of Nitrogen Monoxide using a Novel Fluorescent Probe 57
5. Protective Role of Cosmetics with Antioxidant Effects 59
6. Summing up 60
PART 2

Chapter 1 Usefulness of Skin Care Cosmetics

Section 1 Introduction

1. Cleansing the Skin 61
2. Maintaining the Skin's Moisture Balance 61
3. Stimulating Skin Metabolism 62
4. Protecting the Skin from Harmful Influences in the External Environment 62

Section 2 Cleansing Cosmetics

1. Introduction 64
2. Types of Skin Grime 64
3. Concept of Cleansing Materials 65
4. Types of Surfactants 65
5. Mechanism of Cleansing 67
6. Usefulness of Cleansing Materials 68
7. Outlook for the Future and Issues to be Addressed 78

Section 3 Cosmetics for Moisturizing and Prevention of Rough Skin

1. Introduction 81
2. Factors in the Development of Rough Skin and Measures against Them 81
3. Methods for Evaluating Stratum Corneum Functions, Usefulness of Moisturizing and Rough Skin Cosmetics 92
4. Outlook for the Future and Issues to be Addressed 100

Section 4 Cosmetics for Acne

1. Introduction 103
2. Skin Types Susceptible to Acne and Periods when it Occurs 103
3. Factors in the Development of Acne 105
4. Dealing with Acne 110
5. In vitro Evaluation Methods for Anti-acne Agents 116
7. Evaluation of Anti-acne Agents in Humans 120
8. Outlook for the Future and Issues to be Addressed 121

Section 5 UV Care Cosmetics

1. Introduction 126
2. UV Induced Skin Damages 126
3. Mechanism of UV Induced Skin Damage 135
4. Various Approaches to Efficacy of UV Care Cosmetics 138
5. Outlook for the Future and Issues to be Addressed 140

Section 6 Whitening Cosmetics

1. Introduction 145
2. Mechanism of Pigmentation 146
3. Melanin Synthesis Inhibitors 150
4. Methods of Evaluating Melanin Synthesis Inhibitors 151
5. Outlook for the Future and Issues to be Addressed 159

Section 7  Anti-wrinkle Cosmetics 163
1. Introduction 163
2. Mechanism of Wrinkle Formation and Measures against Them 163
3. In vivo Evaluation Techniques 171
4. Evaluation Techniques in Humans 172
5. Evaluation of Aging-related Changes in Wrinkles in Japanese Women 175
6. Evaluating Usefulness of Anti-wrinkle Cosmetics 177
7. Outlook for the Future and Issues to be Addressed 179

Section 8  Cosmetics for Sagging Skin 181
1. Introduction 181
2. Explanation of Sagging Skin 181
3. Factors causing Sagging Skin 181
4. Evaluation of Sagging Skin 182
5. Outlook for the Future and Issues to be Addressed 187

Section 9  Cosmetics for Dark Patches 188
1. Introduction 188
2. Mechanism of Dark Patches and How to Treat Them 188
3. Evaluation Techniques for Dark Patches 190
4. Usefulness of Cosmetics for Dark Patches 193
5. Outlook for the Future and Issues to be Addressed 194

Section 10  Cosmetics for Dark Circles Around the Eyes 196
1. Introduction 196
2. Mechanism by which Dark Circles Develop and Measures Against Them 196
3. Evaluation Techniques in Humans 199
4. Outlook for the Future and Issues to be Addressed 200

Section 11  Cosmetics for Massage 203
1. Introduction 203
2. Effects of Massage 203
3. Physical Effects of Massage on the Body 204
4. Psychological Effects of Massage 208
5. Influence of Massage Cream Formulation and Ease of Use on Effects of Massage 212
6. Outlook for the Future and Issues to be Addressed 213

Section 12  New Function Cosmetics

(1) Stratum Corneum Peeling Cosmetics 215
1. Concept of Stratum Corneum Care 215
2. Regulating Stratum Corneum Exfoliation through Control of Protease Activity 216
3. Regulating Stratum Corneum Desquamation with Keratolytic Agents 219
4. Evaluation of Usefulness 226
5. Outlook for the Future and Issues to be Addressed 228
(2) Antioxidant Cosmetics

1. Active Oxygen Species
2. Active Oxygen Species Scavenging Systems in the Body
3. Formation of Active Oxygen Species in the Skin
4. Oxidative Stress and the Skin
5. Overview of Antioxidants
6. Methods for Evaluating Antioxidant Efficacy
7. Outlook for the Future and Issues to be Addressed

Section 13 Feeling on Use and Psychological Effects of Skin Care Cosmetics

1. Introduction
2. Feeling on Use and its Evaluation by Sensory Tests
3. Psychological Methods for Evaluation of Feelings
4. Outlook for the Future and Issues to be Addressed

Section 14 Outlook for the Future and Issues to be Addressed

1. How the Evaluation of the Usefulness of Cosmetics has Evolved
2. Current Issues
3. Future for Skin Care Cosmetics
   ■ Techniques for Evaluating the Efficacies of Skin Care Cosmetics (Matrix Table)

Chapter 2 Usefulness of Makeup Cosmetics

Section 1 Introduction

Section 2 Base Makeup Cosmetics

1. Beauty-related Usefulness
2. Protective Usefulness

Section 3 Point Makeup Cosmetics

1. Lipstick
2. Eye Makeup Cosmetics
3. Manicure
4. Outlook for the Future and Issues to be Addressed

Section 4 Techniques for Enhancing Usefulness

1. Pigment Technology for Makeup Cosmetics
2. Specific Techniques for Makeup Cosmetics

Section 5 Psychological Effects of Makeup

1. Evaluation of Makeup's Effect on the Mind
2. Evaluation of Beautifying Effect of Makeup on the Face

Section 6 Outlook for the Future and Issues to be Addressed

1. Overall Quality of Makeup Cosmetics
2. Intentions of the Manufacturers and Assessment by the User
Chapter 3 Usefulness of Hair Care Cosmetics

Section 1 Introduction

Section 2 Hair Growth Stimulating Cosmetics
1. Hair Loss, Graying of the Hair and Their Causes
2. In vitro Evaluation Techniques
3. In vivo Evaluation Techniques
4. Evaluation Techniques in Humans
5. Outlook for the Future and Issues to be Addressed

Section 3 Anti-dandruff Cosmetics
1. Occurrence of Dandruff and its Causes
2. In vitro Evaluation Techniques
3. In vivo Evaluation Techniques
4. Evaluation Techniques in Humans
5. Outlook for the Future and Issues to be Addressed

Section 4 Anti-itching Cosmetics
1. Occurrence of Itching and its Causes
2. Itching in the Scalp and its Causes
3. In vitro and in vivo Evaluation Techniques Targeting Histamine
4. Animal Models
5. Evaluation Techniques in Humans
6. Evaluation of Usefulness
7. Outlook for the Future and Issues to be Addressed

Section 5 Hair Cleansing Cosmetics
1. History of Hair Cleansing Cosmetics and Their Usefulness
2. Scalp and Hair Dirt
3. Cleansing the Hair and Evaluation Techniques for It
4. Outlook for the Future and Issues to be Addressed

Section 6 Hair Conditioning and Styling Products
1. Hair Conditioning Products
2. Hair Styling Products
3. Evaluation of Products Usefulness
4. Outlook for the Future and Issues to be Addressed

Section 7 Permanent Waving Lotions
1. Introduction
2. Safety of Permanent Waving Agents and Their Mechanism of Action
3. Sensory Testing of Permanent Waving Agents
4. Testing of Permanent Waving Agent Effects
3. Methods for Evaluating Skin Condition 475
4. Prevention and Alleviation of Skin Roughness 478
5. Outlook for the Future and Issues to be Addressed 481

Section 5 Slimming Cosmetics
1. Slimming Effect 483
2. Methods for Measuring Body Shape 483
3. Subcutaneous Fat 484
4. Swelling due to Fluid Retention 488
5. Sagging 490
6. Outlook for the Future and Issues to be Addressed 490

Section 6 Circulation Enhancing Cosmetics
— Measurement of Skin Blood Circulation and Evaluation of Blood Circulation Enhancers and Bath Preparations —
1. Skin Vascularization and Blood Circulation 493
2. Measuring Skin Blood Flow 494
4. Evaluation of Bath Preparations 498
5. Outlook for the Future and Issues to be Addressed 499

Section 7 Anti-itching Cosmetics
1. Itching and Skin Care 501
2. Itching Mechanism 501
3. Dryness and Itching 502
4. Cosmetics Ingredients with Potential for Suppressing Itching 502
5. Cosmetics and Itching Control 503
6. Literature Search 503
7. Evaluation of Itching 503
8. Outlook for the Future and Issues to be Addressed 512

Section 8 Deodorant Cosmetics
1. Perception of Body Odour 513
2. Mechanism and Usefulness of Deodorant Cosmetics 513
3. Methods for Evaluating Antiperspirant Effect 515
4. Methods for Evaluating Bactericidal Effect 517
5. Methods for Evaluating Deodorant Effect 518
6. Alleviating Body Smell Particular to the Middle Aged and Elderly 519
7. Outlook for the Future and Issues to be Addressed 519

Section 9 Cosmetics for Removing Body Hair
1. Depilatory Products 520
2. Bleaches 522
3. Outlook for the Future and Issues to be Addressed 523

Section 10 Insect Repellents
1. Introduction 524
2. Evaluating Mosquito Repellent Effect 524
3. Evaluating Repellence for Chigger Mites 526
Section 11  Outlook for the Future and Issues to be Addressed  529

1. Cleansing of Body Dirt  529
2. Prevention and Alleviation of Sunburn  529
3. Prevention and Treatment of Rough Skin on the Hands  530
4. Prevention and Treatment of Obesity, Swelling and Sagging  530
5. Remediing Poor Blood Circulation  530
6. Prevention and Alleviation of Itching  530
7. Prevention of Body Odour  530
8. Body Hair Removal and Bleaching  531
9. Prevention of Insect Bites using Repellents  531

Chapter 5  Usefulness of Fragrance Cosmetics

Section 1  Introduction  535

1. Importance of Olfaction  535
2. Role of Aromatic Materials  535
3. Fragrance Cosmetics  535
4. Types of Fragrance Cosmetics  536
5. Role of Fragrance in Cosmetics  536
6. Techniques for Evaluating Usefulness of Fragrance  536

Section 2  Physiological Evaluation of Preference  537

1. Evaluation of Preference using Autonomic Nervous System Indicators  538
2. Evaluation of Preference using Central Nervous System Indicators  539
3. Outlook for the Future and Issues to be Addressed  542

Section 3  Evaluation of Arousal and Sedative Effects  544

1. Effect of Odours on the Emotions  544
2. Physiological Evaluation of Arousal and Sedative Effects  545
3. Evaluation of Arousal and Sedative Effects using Contingent Negative Variation (CNV)  546
4. Outlook for the Future and Issues to be Addressed  548

Section 4  Evaluation of Fatigue Relieving Effects  549

1. Fatigue Relieving Effects Expected of Fragrances  549
2. Evaluation of Subjective Fatigue Level  549
3. Objective Evaluation of Fatigue Level  549
4. Evaluation of Physiological Fatigue Level  551
5. Outlook for the Future and Issues to be Addressed  551

Section 5  Evaluation of Stress Relieving Effects  553

1. Use of Fragrances for Relieving Stress  553
2. Evaluation using Autonomic Nervous System Indicators  553
3. Evaluation using Endocrine System Indicators  554
4. Evaluation using Immune System Indicators  555
Section 6 Evaluation of the Immunological Effects of Fragrances — 557
1. Immunological Effects of Fragrances 557
2. Application of Fragrances in Medicine 559
3. Outlook for the Future and Issues to be Addressed 560

Section 7 Evaluation of the Effect of Fragrances on Sleep — 562
1. Research using Animal Models 562
2. Effect of Fragrances on Drowsiness 562
3. Effect of Fragrances on Sleep 563
4. Use of Fragrances for Insomnia 564
5. Outlook for the Future and Issues to be Addressed 564

Section 8 Evaluation of the Stimulating Effect of Odours on the Opposite Sex — 566
1. Chemical Communication between Humans 566
2. Influence of Odours on Sexual Information and Emotions 567
3. Outlook for the Future and Issues to be Addressed 569

Section 9 Evaluation of Antibacterial Effects of Fragrance Materials — 570
1. Evaluation of Antibacterial Activity 570
2. Comparison of MICs Obtained by Different Test Methods 571
3. Antibacterial Activity of Essential Oils and Fragrance Materials 571
4. Antibacterial Activity of Fragrance Materials When used in Cosmetics 572
5. Outlook for the Future and Issues to be Addressed 572

Section 10 Outlook for the Future and Issues to be Addressed — 574
1. Effects of Fragrances on the Brain 574
2. Current Status of Evaluation Methods and Future Outlook 575

Techniques for Evaluating the Efficacies of Fragrance Cosmetics (Matrix Table) 577

Chapter 6 Usefulness of Oral Care Products — 579

Section 1 Introduction — 579

Section 2 Evaluation of Effectiveness in Preventing Dental Caries and Examples of Usefulness in this Respect — 580
1. In vivo Studies (with Usefulness Example) 580
2. In situ Method (with Usefulness Example) 581
3. In vitro Method (with Usefulness Example) 582

Section 3 Methods of Evaluating Effectiveness in Preventing Periodontal Disease and Examples of Usefulness in this Respect — 584
1. In vivo Test (with Usefulness Example) 584
2. In vitro Method 586
Section 4 Evaluation of Effectiveness in Relieving Hyperesthesia and Examples of Usefulness in this Respect 587

Section 5 Evaluation of Effectiveness in Preventing Deposition of Dental Calculus and Examples of Usefulness in this Respect 588

Section 6 Evaluation of Whitening Effect on Teeth Surface and Examples of Usefulness in this Respect 590

Section 7 Evaluation of Effectiveness in Removing Plaque and Examples of Usefulness in this Respect 591

Section 8 Evaluation of Effectiveness in Alleviation and Prevention of Halitosis and Examples of Usefulness in this Respect 593

Section 9 Usefulness of Oral Care Products as Regards Feeling on Use 595

Section 10 Outlook for the Future and Issues to be Addressed 598
