1 Introduction
   Chapter overview 3

2 Data collection and research methodology
   Introduction 6
   Diachronic sources 7
   Present-day English: the British National Corpus 17
   Searching the data 20
   A frequency list of complex prepositions 23

3 Complex prepositions: indivisible units or free constructions?
   Introduction 25
   An overview of grammars 26
   Syntactic evidence against complex prepositions:
      Seppänen et al. (1994) 31
      Seppänen et al. (1994): some methodological considerations 33
   The status of complex prepositions: corpus evidence 35
   In favour of unity: complex prepositions exist! 49

4 Grammaticalization and complex prepositions
   Introduction: language change 51
   A case study: the grammaticalization of in view of 53
   The status of complex prepositions as elements of grammar 59

5 Complex prepositions: a diachronic overview
   Introduction 60
   Early complex prepositions 63
## Contents

Complex prepositions established between 1500 and 1700 77
Complex prepositions established after 1700 86
Grammaticalization and corpus data 93

6 Complex prepositions in Present-day English 95
   Introduction 95
   General distribution 97
   The distributional characteristics of some individual complex prepositions 103
   Interpreting distributional data: conceptual frequency and style 107
   The case of concession: in spite of and its variants 110
   Conclusion 118

7 In terms of: a new discourse marker 120
   Introduction 120
   Historical development 120
   Present-day use 124
   In terms of in spoken language 125
   Summary and conclusion 138

8 Are low-frequency complex prepositions grammaticalized? 140
   Introduction 140
   The data 141
   The importance of frequency in grammaticalization 144
   Frequency and saliency 148
   Grammaticalization by analogy 152
   Low-frequency grammaticalization phenomena and corpus data 154
   Summary and conclusion 164

9 Conclusion 166
   The status of complex prepositions as syntactic units 166
   Complex prepositions and grammaticalization theory 169
   The use of complex prepositions 173
   Outlook: suggestions for further research 173
