Stephan J. Dreyhaupt

Locational Tournaments in the Context of the EU Competitive Environment

A New Institutional Economics Approach to Foreign Direct Investment Policy Competition between Governments in Europe

With a Foreword by Prof. Dr. Rolf Caspers

Deutscher Universitäts-Verlag
# Table of Contents

Summary of Figures ................................................................. XVII
Summary of Tables ................................................................. XIX
Abbreviations ........................................................................... XXI

I Introduction ............................................................................. 1
1 Context of the Research ........................................................... 1
2 Objective and Structure of the Study ......................................... 7
   2.1 Definitions and Conceptual Themes ....................................... 7
   2.2 Research Objectives and Design ........................................... 9

II Theoretical Framework ............................................................ 15
1 Introduction .............................................................................. 15
2 Theories of Foreign Direct Investment ......................................... 17
   2.1 Definition of Foreign Direct Investment ................................. 17
   2.2 Origins of Foreign Direct Investment Theory ......................... 20
   2.3 The Elusive “General Theory” of Foreign Direct Investment .... 22
      2.3.1 Theoretical Approaches Based on Perfect Markets ........... 22
      2.3.2 Theoretical Approaches Based on Imperfect Markets ....... 25
      2.3.3 Alternative Theoretic Approaches ................................. 35
   2.4 The “Eclectic” Paradigm of Foreign Direct Investment .......... 37
3 Locational Competition and Government Intervention ................ 44
   3.1 The (Neo-) Classical Approach to Locational Competition ....... 44
   3.2 The Neoclassical Model Revisited ....................................... 46
   3.3 An Expanded Model of FDI Policy Competition between Governments .................................................. 50
4 The New Institutional Economics Theory ..................................... 60
   4.1 Main Characteristics of the New Institutional Economics ......... 61
   4.2 The Economics of Institutions ............................................. 64
      4.2.1 Institutional Environment and Institutional Change ........ 69

2.1 Impact of European Commission Policies on FDI Competition .......................................................... 152
2.2 Main Weaknesses in the Current EU Approach to Practice ......................................................... 157
  2.2.1 Spatial Coverage versus Containing Award Levels ................................................................. 157
  2.2.2 The Monitoring and Disciplining Function of the DG Competition ........................................ 160
  2.2.3 Political Independence and Domestic Preferences ................................................................. 162

3 Regional Integration and FDI Competition .................................................................................. 164
  3.1 The Challenges of EU Enlargement ......................................................................................... 164
  3.2 System Competition versus Forced Harmonization ................................................................. 168
  3.3 Empirical Impressions: The Impact of FDI Policy Harmonization in the EU .......................... 175
      3.3.1 Harmonization of Rules — Does it Lead to an Increase in FDI Flows? ................................. 175
      3.3.2 Harmonization of Instruments — The Case of the Czech Republic .................................... 181
      3.3.3 A Firm-Specific Perspective: Survey Review of Attitudes of European Business vis-à-vis International Investment Rules ........................................... 183

4 Institutional Issues and Policy Implications .............................................................................. 187
  4.1 Reforming the Existing Framework of FDI Competition ......................................................... 187
  4.2 Maintaining Global Competitiveness ....................................................................................... 194

V Political Economy Aspects of FDI Policy Competition ............................................................... 200
1 International Regime Theory and Foreign Direct Investment .............................................. 202
   1.1 Is FDI Policy Competition a Regime Issue? .............................................................................. 202
   1.2 Diverging Views on International Regime Theory ................................................................. 205
      1.2.1 The Realist School: Hegemonic Stability Theory ............................................................. 205
      1.2.2 The Neoliberal School: Interests and Regimes .................................................................... 207

2 Institutional Choice and Cooperation in FDI Competition ..................................................... 212
   2.1 Increasing Transparency in Locational Competition ............................................................. 212
   2.2 Reaching Cooperative Investment Agreements ...................................................................... 214
       2.2.1 Dilemma of Common Aversions ...................................................................................... 214
       2.2.2 Policy Coordination in the EU .......................................................................................... 218
   2.3 Binding Multilateral Rules for Investment ............................................................................. 223
       2.3.1 Dilemma of Common Interests ...................................................................................... 223
       2.3.2 The Case of the MAI ....................................................................................................... 227

3 Is the EU Competition Framework a Model for International FDI Regimes? .............................. 235
### Table of Contents

3.1 Rules of the FDI Game — How Should They Be Established? .................................................. 235
3.2 Rules of the FDI Game — How Should They Be Governed? .... 241
3.3 Lessons Learned from the EU Experience .................................................. 247

VI Conclusions ........................................................................................................ 251
Annex ..................................................................................................................... 255
Bibliography ........................................................................................................... 283
