   | 37 |

4. Water and High Dilutions Phenomenology: Physical Characterization  
   Adriana Ramos de Miranda  
   | 49 |

### Part III Basic Research: Biology

5. Non-linearity Modeling of Ultra-dilutions: The Histamine Disturbances Case  
   Guadalupe Ruiz-Vega and Gabino Estevez-Delgado  
   | 67 |
6 Hepatic Cell Growth Models for the Study of Ultra High Dilutions

Kátia Silva Martinho, Vanessa Del Bianco de Bento, Graziella Ulbricht Benvenega, Viviane Aparecida Marcondes, and Leoni Villano Bonamin

7 Models with Plants, Microorganisms and Viruses for Basic Research in Homeopathy

Lucietta Betti, Grazia Trebbi, Daniele Nani, Vera Majewsky, Claudia Scherr, Tim Jäger, and Stephan Baumgartner

8 Arnica montana and Behavior of Connective Tissue

Leoni Villano Bonamin

9 How Living Organisms Detect Very Low Doses? A New Approach to Homeopathy and Hormesis

Elżbieta Malarczyk

10 The Effect of Homeopathically Prepared Thyroxin (10⁻³⁰ Parts by Weight) on Highland Frogs: Influence of Electromagnetic Fields

Sabrina Weber, Peter Christian Endler, Sonja U. Welles, Erika Suanjak-Traidl, Waltraud Scherer-Pongratz, Michael Frass, Heinz Sprange, Gerhard Peithner, and Harald Lothaller

Part IV Clinical Research

11 Clinical Verification of Homeopathic Symptoms: Experience and Statistics

Lex Rutten and Michel van Wassenhoven

Part V Veterinary Research and Practice

12 Homeopathic Veterinary Clinical Protocol

Luiz Figueira Pinto

Epilogue

13 Some Reflections About the Interest of Non-conventional Medicine in Public Health, Especially Homeopathy

Catherine Gaucher
