Preface

Part 1
Introduction to Psychopharmacology: How Drugs Interact with the Body and the Brain

1 Pharmacokinetics: How Drugs Are Handled by the Body

2 Pharmacodynamics: How Drugs Act

3 The Neuron, Synaptic Transmission, and Neurotransmitters
Overall Organization of the Brain / The Neuron / Specific Neurotransmitters
Part 2

Drugs That Depress Brain Function: Sedative-Hypnotic Drugs

4 Ethyl Alcohol and the Inhalants of Abuse

Ethyl Alcohol
Pharmacology of Alcohol / Tolerance and Dependence / Side Effects and Toxicity / Teratogenic Effects / Alcoholism and Its Pharmacological Treatment
Inhalants of Abuse
Why Inhalants Are Abused and Who Abuses Them / Medical Consequences of Inhalant Abuse / Acute Intoxication and Chronic Effects
Chapter 4 Appendix: What Is a Drink? How Much Alcohol Is in My Drink?

5 Barbiturates, General Anesthetics, Gamma Hydroxybutyrate (GHB), and Antiepileptic Drugs

Historical Background / Sites and Mechanisms of Action / Sedative-Induced Brain Dysfunction
Specific Depressants
Barbiturates / Nonbarbiturate Sedative-Hypnotic Drugs
General Anesthetics
Gamma Hydroxybutyrate
Antiepileptic Drugs
Relationships Between Structure and Activity / Specific Agents / Antiepileptic Drugs in Pregnancy

6 Benzodiazepines and Related Anxiolytic Medications

Benzodiazepines / Flumazenil: A Benzodiazepine Receptor Agonist / Benzodiazepine Receptor Agonist Hypnotics / Ramelteon: A Selective Melatonin Receptor Agonist / Serotonin Receptor Agonists as Anxiolytics / Anticonvulsants as Anxiolytics
Part 3
Drugs That Are Used to Treat Psychological Disorders

7 Antidepressant Drugs
Depression / First-Generation Antidepressants / Second-Generation Antidepressants / Selective Serotonin Reuptake Inhibitors / Dual-Action Antidepressants / Dopamine-Norepinephrine Reuptake Inhibitor: Bupropion / Selective Norepinephrine Reuptake Inhibitors / STAR*D Study / Antidepressants of the Future

8 Drugs Used to Treat Bipolar Disorder
Bipolar Disorder / STEP-BD Study / Lithium / “Neuromodulator” Anticonvulsant Mood Stabilizers / Other Uses for Anticonvulsant Mood Stabilizers / Atypical Antipsychotics / Omega-3 Fatty Acids / Miscellaneous Agents / Psychotherapeutic and Psychosocial Treatments

9 Antipsychotic Drugs

10 Child and Adolescent Psychopharmacology
Behavioral and Aggressive Disorders / Autism Spectrum Disorders / Attention Deficit/Hyperactivity Disorder / Depression in Children and Adolescents / Anxiety Disorders in Children and Adolescents / Bipolar Disorder in Children and Adolescents / Psychotic Disorders in Children and Adolescents

11 Geriatric Psychopharmacology
Inappropriate Drug Use in the Elderly / Control of Agitated and Aggressive Behaviors in the Elderly / Undertreatment of the Elderly: Focus on Depression / Parkinson's Disease / Alzheimer’s Disease
12 Integrating Psychopharmacology and Psychological Therapies in Patient Care

Limitations to Pharmacological Therapy / Developing a Plan to Integrate Psychopharmacology and Psychological Therapies / Clinical Examples / Limitations to Current Practice / Examples of Areas of Needed Involvement

Chapter 12 Appendix: Quick Reference to Psychotropic Medication

Part 4
Drugs That Stimulate Brain Function: Psychostimulants

13 Cocaine, the Amphetamines, and Nonamphetamine Behavioral Stimulants

Cocaine
Forms of Cocaine / Pharmacokinetics / Mechanism of Action / Pharmacological Effects in Human Beings / Comorbidity / Cocaine and Pregnancy / Neurotoxicity of Cocaine / Pharmacological Treatment of Cocaine Dependency / Novel Approaches to the treatment of Cocaine Addiction

Amphetamines
Mechanism of Action / Pharmacological Effects / Dependence and Tolerance / Methamphetamine
Nonamphetamine Behavioral Stimulants

14 Caffeine and Nicotine

Caffeine
Pharmacokinetics / Pharmacological Effects / Mechanism of Action / Reproductive Effects / Tolerance and Dependence

Nicotine
Pharmacokinetics / Pharmacological Effects / Mechanism of Action / Tolerance and Dependence / Toxicity / Effects of Passive Smoke / Effects During Pregnancy / Therapy for Nicotine Dependence
### Part 5
**Analgesic Drugs and Psychedelics**

Contents

21 Topics in Drug Abuse 683

Historical and Current Perspectives / Extent of the Drug Problem / Nosology and Psychopathology of Substance Abuse / Drugs as Behavioral Reinforcers: Neurobiology of Drug Dependence / Drug Availability / Addiction as a Chronic, Relapsing Illness / Drug Education / Treatment Issues / Pharmacotherapy of Substance Use Disorders

Glossary 709

Index 717
