11. The PerioChip™: A Biodegradable Device for the Controlled Delivery of Chlorhexidine in the Subgingival Environment 121
   Wilfred Aubrey Soskolne

PART III: ORAL TECHNOLOGIES

12. Modified-Release Delivery Systems for Oral Use 131
    R. B. Walker

13. Advances in Cellulose Ether-Based Modified-Release Technologies 143
    Thomas J. Dürig

14. SQZgel™ 153
    Ramesh C. Rathi, Jong Bark, and Kirk D. Fowers

15. Thiolated Polymers for Controlled Release 163
    M. Werle and A. Bernkop-Schnürch

16. Two Concepts, One Technology: Controlled-Release Solid Dispersions Using Melt Extrusion (Meltrex®) 179
    Jörg Breitenbach and Jon Lewis

17. Threeform—Technology for Controlled Release of Amorphous Active Ingredient for Once-Daily Administration 187
    Janez Kežić

18. Floating Gastroretentive Capsule for Controlled Drug Delivery 197
    Janez Kežić and Jerneja Opara

19. Thin Film Oral Dosage Forms 209
    Scott D. Barnhart

20. Dose Sipping Technology—A Novel Dosage Form for the Administration of Drugs 217
    Iris M. Ziegler

21. Enhanced Gastroretentive Dosage Form with Minimal Food Effects: GIRES™ 231
    David C. Coughlan, Edel O’Toole, and Thomas W. Leonard

22. Advancing Gastrointestinal Permeation Enhancement Formulations into the Clinic: GIPET™ 239
    David C. Coughlan, Edel O’Toole, and Thomas W. Leonard

23. The Micropump™ Technology 251
    Kenneth Lundstrom, Catherine Castan, Florence Guimberteau, Roger Kravitzoff, and Rémi Meyrieux
   Richard A. Kendall, Emma L. McConnell, Sudaxshina Murdan, and Abdul W. Basit

25. Lipid Nanoparticles (SLN, NLC, LDC) for the Enhancement of Oral Absorption 269
   Cornelia M. Keck, Aiman H. Hommoss, and Rainer H. Müller

PART IV: COLONIC TECHNOLOGIES

26. Colonic Drug Delivery 287
   Clive G. Wilson

27. Biopolymers and Colonic Delivery 295
   Clive G. Wilson, Gour Mukherji, and Hardik K. Shah

28. Enteric Coating for Colonic Delivery 311
   Hardik K. Shah, Gour Mukherji, Bianca Brögmann, and Clive G. Wilson

29. Programmed Drug Delivery Systems and the Colon 325

30. Pulsincap™ and Hydrophilic Sandwich Capsules: Innovative Time-Delayed Oral Drug Delivery Technologies 337
    H. N. E. Stevens

31. Targeting the Colon Using COLAL™: A Novel Bacteria-Sensitive Drug Delivery System 343
    Emma L. McConnell and Abdul W. Basit

32. Development of the Egalet Technology 349
    Daniel Bar-Shalom, Christine Andersen, Clive G. Wilson, and Neena Washington

PART V: REGULATORY ISSUES AND CHALLENGES

33. Regulatory Aspects in Modified-Release Drug Delivery 357
    Michael S. Roberts, Andrew Bartholomaeus, George Wade, Sultan Ghani, and Patrick J. Marroum

34. Regulatory Issues in the United States Relating to Modified-Release Drug Formulations 385
    Patrick J. Marroum

Naomi Nagai and Satoshi Toyoshima

36. Regulatory Aspects of Delivery Systems in the European Union 437

George Wade, Evdokia Korakianiti, and Susanne Keitel

37. Canadian Regulatory Requirements for Drug Approval 459

Sultan Ghani and David Lee

38. Regulating Modified-Release Drug Delivery Technologies in Australia 473

Andrew Bartholomaeus, Carolyn Rolls, and Michael S. Roberts
