Contents

Dedication iii
Foreword v
Preface ix
Contributors xiii

1. Tooling for Pharmaceutical Processing 1
   Dale Natoli

2. Tablet Press Instrumentation in the Research and Development Environment 49
   Gary E. Bubb

3. Pharmaceutical Manufacturing: Changes in Paradigms 85
   Jean-Marie Geoffroy and Denise Rivkees

   Fernando J. Muzzio, Marianthi Ierapetritou, Patricia Portillo, Marcos Llusa, Michael Levin, Kenneth R. Morris, Josephine L. P. Soh, Ryan J. McCann, and Albert Alexander

5. Dissolution and Drug Release Testing 153
   Vivian A. Gray

6. Setting Dissolution Specifications 191
   Patrick J. Marroum

7. Mechanical Strength of Tablets 207
   Göran Alderborn and Göran Frenning

8. cGMPs for the 21st Century and ICH Quality Initiatives 237
   Moheb M. Nasr, Donghao (Robert) Lu, and Chi-wan Chen

   Keith K. H. Chan and Albert W. K. Chan

10. Near-infrared Chemical Imaging for Characterizing Pharmaceutical Dosage Forms 269
    Gerald M. Sando, Linda H. Kidder, and E. Neil Lewis

11. Surface Area, Porosity, and Related Physical Characteristics 277
    Paul A. Webb
