Contents

Preface
  W. Cautreels, C. Steinborn and L. Turski v

List of Contributors vii

Conference Preface and Keynote Lecture

Conference Preface
  Bart Staels and Jean Louis Junien 3

Keynote Lecture – An Introduction to the Nuclear Receptor Superfamily
  Vincent Laudet 5

Metabolic Control by LXR
  Jean Louis Junien 19

Regulation of Cardiac Energetic by the Orphan Nuclear Receptors ERRα and γ
  Vincent Giguère 33

FXR and Bile Acids: Critical Modulators of Metabolism
  Peter A. Edwards and Yanqiao Zhang 43

The Role of PPARs in Human Prediabetes
  Harald Staiger, Claus Thamer and Hans-Ulrich Häring 51

New Insights in the Role of the Intestine in Reverse Cholesterol Transport
  Folkert Kuipers 61

NR4A Nuclear Receptors in the Vessel Wall
  Claudia M. van Tiel and Carlie J.M. de Vries 75

Cholesterol: Novel Target in the Treatment of Alzheimer’s Disease?
  M. Mulder 85

PPARγ-Mediated Effects in CNS Disorders
  Stephan A. Paxian, Lars Tatenhorst and Michael T. Heneka 93

Molecular Biology of Circadian Rhythms and Cardiometabolic Disease: Role
  of the Orphan Nuclear Receptor Rev-erba
  Bart Staels and Hélène Duez 109

Author Index 117
