

ABC Transporters in Microorganisms

Research, Innovation and Value as Targets
against Drug Resistance

Edited by

Alicia Ponte-Sucre

Laboratorio de Fisiología Molecular
Instituto de Medicina Experimental
Facultad de Medicina
Universidad Central de Venezuela
Caracas
Venezuela

	List of contributors	v
	Foreword	ix
	Preface	xi
1	ABC Transporters – a Smart Example of Molecular Machineries Thorsten Jumpertz, I. Barry Holland and Lutz Schmitt	1
2	Evolution and Function of the Multi-drug Resistance-linked ABC Transporters in Bacteria and Cancer Cells Zuben E. Sauna and Suresh V. Ambudkar	35
3	Structure–Function Relationships in ABC Multidrug Transporters Daniel A. P. Gutmann and Hendrik W. van Veen	51
4	Can ABC Proteins Confer Drug Resistance in Microorganisms Without being Export Pumps? James M. Dorrian and Ian D. Kerr	63
5	ABC-type Multidrug Resistance Transporters and their Role in Survival of Bacteria Patrick J. Bakkes, H. Bart van den Berg van Saparoea and Arnold J.M. Driessen	79
6	ABC Transporters in <i>Plasmodium falciparum</i> and their Involvement in Resistance to Antimalarial Drugs Bruno Pradines, Véronique Parquet and Eve Orlandi-Pradines	113
7	Cellular Functions of ABC Proteins in <i>Trypanosomatidae</i> Philippe Leprohon, Danielle Légaré and Marc Ouellette	129
8	ATP-Binding Cassette (ABC) Transporters in Yeasts: Their Role in Multidrug Resistance and Survival Hina Sanwal, Sneh Lata Panwar and Rajendra Prasad	149

9	ABC Transporter Blockers and Reversal of Drug Resistance in Microorganisms	177
	Alicia Ponte-Sucre, Maritza Padrón-Nieves and Emilia Díaz	
10	ABC Transporters as Targets for RNA Interference-mediated Reversal of Multidrug Resistance: Implications in Microorganisms	195
	Hermann Lage	
	Index	227
	Colour Plates
