Manolis Wallace, Ioannis E. Anagnostopoulos, Phivos Mylonas, and Maria Bielikova (Eds.)

Semantics in Adaptive and Personalized Services

Methods, Tools and Applications

Springer
Contents

Semantics in Adaptive and Personalized Services: Methods, Tools and Applications ........................................ 1
Manolis Wallace, Ioannis Anagnostopoulos, Phivos Mylonas, Maria Bielikova

Semantic-Enabled Information Access: An Application in the Electricity Market Domain ............................. 9
Panos Alexopoulos, Manolis Wallace, Konstantinos Kafentzis, Christoforos Zoumas, Dimitris Askounis

Ontology-Based Profiling and Recommendations for Mobile TV ........................................................................ 23
Yannick Naudet, Armen Aghasaryanb, Sabrina Mignon, Yann Toms, Christophe Senot

The USHER System to Generate Semantic Personalised Maps for Travellers .................................................. 49
Zekeng Liang, Kraisak Kesorn, Stefan Poslad

Semantic Based Error Avoidance and Correction for Video Streaming .......................................................... 73
Christian Spielvogel, Sabina Serbu, Pascal Felber, Peter Kropf

Semantics in the Field of Widgets: A Case Study in Public Transportation Departure Notifications .................. 93
Alena Kovárová, Lucia Szalayová

An Adaptive Mechanism for Author-Reviewer Matching in Online Peer Assessment ........................................ 109
Ioannis Giannoukos, Ioanna Lykourentzou, Giorgos Mpardis, Vassilis Nikolopoulos, Vassili Loumos, Eleftherios Kayafas
Towards Emotion Recognition from Speech: Definition, Problems and the Materials of Research ............................ 127
Christos-Nikolaos Anagnostopoulos, Theodoros Ilion

Health Care Web Information Systems and Personalized Services for Assisting Living of Elderly People at Nursing Homes .............................................. 145
Stefanos Nikolidakis, Dimitrios D. Vryados, Ioannis Anagnostopoulos

Introducing Context-Awareness and Adaptation in Telemedicine Systems .......................................................... 163
Charalampos Doukas, Ilias Muglogiannis, Kostas Karpouzis

Blog Rating as an Iterative Collaborative Process ................. 187
Malamati Louta, Iraklis Varlamis

Simulation-Based UMTS e-Learning Software ....................... 205
Florin Sandu, Szilárd Cserey

Author Index ......................................................... 233
