CONTENTS

Preface v
Colour Plates xiii
Contributors xvii

SECTION 1
APPLIED BIOLOGY, BOTANY
AND PLANT GENETIC RESOURCES

1. Development of Medicinal and Aromatic Plants in Fragile Agroecosystem 3
   —M.L. Jakhar
2. Medicinally Important Seed Spices: Related R & D Activities in Arid
   and Semi Arid Regions 31
   —Dhirendra Singh
3. Capparis Species and Other Underutilized Medicinal Plants of Arid,
   Semi Arid and Tropical Niches 57
   —M.S. Fageria, Saroj Rolania and Karan Singh
4. Ratan Jyot (Jatropha): A Potential Medicinal cum Biofuel Plant 64
   —B.R. Choudhary, M.L. Jakhar, S.S. Rajput and Shiv Narain
viii

5. Therapeutically Valuable Millets and Other Poaceous Plants: Potential Bioresources for Arid and Semi-Arid Environments 72
—B.S. Afria and Shrikant

6. Guggul—A Medicinal Plant of Indian Desert 80
—M.L. Sharma, Ravinder Paliwal and Arvind Kumar

7. Chickpea: Medicinal and Nutritive Crop for Diverse Niches 87
—S.C. Gupta and Karan Singh

8. Medicinally Valuable Minor Seed Spices 92
—S.K. Malhotra

SECTION 2

APPLIED AND ENVIRONMENTAL PHYSIOLOGY,
BIOCHEMISTRY AND BIOTECHNOLOGY

9. Linking the Science of Medicinal Trees and Shrubs with Biodrainage Potential: Global and Indian Perspectives 103
—Karan Singh

10. Applications of Biotechnology Innovations in Pharmaceutics and Nutraceutics 137
—C.P. Malik

11. Environmental Physiology of Seed Onion for Crop Amelioration under Semi Arid Agro-eco System 142
—M.K. Sharma, P.K. Sharma, O.P. Gill and Karan Singh

12. Seed Germination and Seedling Growth of Some Medicinal Plants under Water Stress 153
—Karan Singh and Vijay Singh Mitharwal

13. Effect of Plant Growth Regulators and Saline Water on Seed Physiological Parameters in Different Brassica Genotypes 161
—V.P. Agarwal, B.L. Kakralya and Karan Singh

14. Phytochemical Markers for Cumin Varietal Identification 169
—R.S. Raje and M.L. Jakhar

15. Physiological Aspects of Seed Invigoration in Therapeutically Valuable Arid Legumes 172
—Karan Singh, V.S. Mitharwal, M.L. Jat and B.L. Kakralya

16. Seed Quality, Productivity and Physiological Maturity of Therapeutically Valuable Arid Legumes 184
—Karan Singh, M.L. Jat, V.S. Mitharwal and B.L. Kakralya
### SECTION 3

**PLANT AND CROP PRODUCTION : AGROTECHNOLOGY**

</table>
31. Productivity of Fenugreek in Response of Nitrogen and Number of Cutting  
   —G. Lal, R.G. Jat and Y.V. Singh  
32. Yield and Quality of Fenugreek as Affected by Foliar Fertilization  
   —Dhan Raj Meena and Jitendra Singh

SECTION 4

PLANT AND CROP IMPROVEMENTAL STRATEGIES: CONVENTIONAL AND MODERN METHODS

33. Potential of Conventional Methods of Crop Improvement for Opium  
   —S.K. Jain, R.B. Dubey, N.S. Dodiya and D.K. Jain
34. Crop Improvemental Studies on Coriander through Irradiation Breeding  
   —Vikas Khandelwal and K. Ramkrishna
35. Some Aspects of Mutation Breeding in Fenugreek under Field Evaluation  
   —B.L. Kumhar, E.V.D. Sastry and Dhrendra Singh
36. Observation on Hybrid Vigour for Seed Yield and Quality Traits in Fennel  
   —S.S. Rajput and Dhrendra Singh
37. Aspects of Heterosis in Fennel: A Spice with High Therapeutic Index  
38. Crop Improvement through Breeding for High Yielding and Powdery Mildew Resistant Genotypes in Fenugreek  
   —R.S. Raje and D.L. Singnania
39. Fenugreek (A Wonder Medicinal Herb): Crop Improvemental Studies  
   —D. Singh and S.S. Rajput
40. Fennel (A Potential Medicinal Herb): Exploitable Variation in Yield Attributes  
   —Dhirendra Singh, S.S. Rajput, M.L. Jakhar and V.V. Singh
41. Character Association Studies in Fenugreek  
   —C. Sarada, K. Giridhar, N. Hariprasada Rao and B. Rosaiah
42. Some Aspects of Heritable Variation in Fenugreek under Lam-Guntur (A.P.) Conditions  
   —C. Sarada, Giridhar Kalidadu, N. Hariprasada Rao and B. Rosaiyah
43. Coriander (Socio-economically Valuable Spice cum Medicinal Crop): Some Crop Improvemental Studies  
   —K.C. Sharma
44. Relative Efficiency of Different Population Improvement Methods in Fennel  
   —V.V. Singh, D.L. Singnania, E.V. Divakara Sastry, D. Singh and S.S. Rajput
SECTION 5

PLANT AND CROP PROTECTION MEASURES AND BIOLOGICAL CONTROL

45. Biotic Control Studies on Coriander Aphid
   —R.K. Choudhary and B.L. Jat

46. Relative Efficacy of Insecticides and Botanicals Against the Aphid Predator on Coriander in Fragile Agroecosystem
   —P.C. Meena, J.K. Sharma and A. Noor

47. Pest Control Studies in Fennel with New Insecticides
   —B.L. Jat and R.K. Choudhary

48. Chemomanagement of Cumin Diseases and Aphid
   —B.S. Rathore

49. Ripe Fruit Rot of Chilli (A Potential Medicinal and Spiceal Plant) : Some Control Measures
   —Rakesh Katewa and P.K. Rai

50. Ripe Fruit Rot of Chilli: Some Epidemiological Aspects
   —P.K. Rai, Rakesh Katewa and K.S. Shekhawat

SECTION 6

PROPAGATION AND NUTRIENTS' MANAGEMENT

51. Propagation and Ecofarming Oriented Nutrients Management in Medicinal Plants : Some Tips
   —Karan Singh and Yogendra Kumar Sinsinwar

Index
