Pharmacology
An Introduction

6th edition

Henry Hitner, Ph.D.
Professor Emeritus
Department of Neuroscience, Physiology,
Pharmacology
Philadelphia College of Osteopathic Medicine
Philadelphia, Pennsylvania

Adjunct Professor, Pharmacology
Physician Assistant Program
Drexel University
Philadelphia, Pennsylvania

Barbara Nagle, Ph.D.
President
Clinical Research Development and Education
III Associates
Bryn Mawr, Pennsylvania
CHAPTER 12
Sedative-Hypnotic Drugs and Alcohol 157
  Sleep Cycle 159
  Mechanism of Action of Sedative-Hypnotic Drugs 160
  Barbiturate Sedatives and Hypnotics 160
  Benzodiazepines 163
  Miscellaneous Hypnotic Drugs 164
  Alcohol 166
  Chapter Review 169

CHAPTER 13
Antipsychotic and Antianxiety Drugs 173
  Antipsychotic Drugs 174
  Antianxiety Drugs 179
  Chapter Review 184

CHAPTER 14
Antidepressants, Psychomotor Stimulants, and Lithium 188
  Types of Depression 189
  Drugs Used to Treat Depression 190
  Monoamine Oxidase Inhibitors 194
  Psychomotor Stimulants 195
  Lithium 196
  Preferred Therapy for Depression, Mania, and Bipolar Disorder 197
  Chapter Review 198

CHAPTER 15
Psychotomimetic Drugs of Abuse 203
  LSD-Type Hallucinogens 204
  Psychomotor Stimulants 205
  Miscellaneous Psychotomimetic Drugs 209
  Chapter Review 212

CHAPTER 16
Antiepileptic Drugs 216
  Types of Epilepsy 217
  Drugs Effective for Both Generalized Tonic-Clonic and Partial Seizures 218
  Drugs Effective Primarily for Partial Seizures 222
  Drugs Used in the Treatment of Absence Seizures 222
  Treatment of Status Epilepticus 223
  Preferred Therapy for Epileptic Seizures 223
  Chapter Review 225
Preferred Treatment with Anticoagulants and Thrombolytics 429
Coagulants/Hemostatics 430
Chapter Review 432

CHAPTER 28
Nutrition and Therapy 436
   Nutrients 437
   Vitamins 442
   Fat-Soluble Vitamins 443
   Water-Soluble Vitamins 447
   Body Water 449
   Minerals 449
   Chapter Review 454

CHAPTER 29
Hypolipidemic Drugs 459
   Atherosclerosis and Arterial Disease 461
   Hypolipidemic/Antilipemic Drugs 465
   Other Hypolipidemic Drugs 469
   Preferred Therapy 471
   Contraindications and Pregnancy 472
   Drug Interactions 472
   Chapter Review 475

CHAPTER 30
Antianemics 480
   Causes of Anemia 481
   Iron Deficiency Anemia 482
   Cobalamin Deficiency Anemia 487
   Folic Acid Deficiency 488
   Erythropoietin Stimulating Agents 490
   Chapter Review 493

PART 6
Drugs That Affect the Respiratory System 499

CHAPTER 31
Antihistaminic Drugs and Mast Cell Release Inhibitors 500
   Action of Histamine 502
   Mast Cell Release Inhibitors 504
   Antihistamine H₁ Antagonists 507
   Chapter Review 515
CHAPTER 36
Adrenal Steroids 599
  Regulating Adrenocorticoid Secretions 600
  Glucocorticoids 602
  Mineralocorticoids 609
  Special Considerations 610
  Drug Interactions 611
  Chapter Review 613

CHAPTER 37
Gonadal Hormones, Oral Contraceptives, and Erectile Dysfunction Drugs 617
  Female Sex Hormones 619
  Hormonal Replacement Therapy (HRT) 622
  Fertility Drugs 630
  Male Sex Hormones (Androgens) 632
  Erectile Dysfunction 636
  Chapter Review 640

CHAPTER 38
Drugs Affecting the Thyroid and Parathyroid Glands and Bone Degeneration 644
  Thyroid Function, Pharmacology, and Disorders 646
  Parathyroid Hormones 652
  Degenerative Bone Disease: Osteoporosis 654
  Chapter Review 660

CHAPTER 39
Pancreatic Hormones and Antidiabetic Drugs 665
  Pancreatic Endocrine Function 667
  Diabetes Mellitus 670
  Treatment of Diabetes 672
  Parenteral Antidiabetic Drugs: Insulin 673
  Oral Antidiabetic Drugs: Secretagogues, Hypoglycemics 682
  Other Oral Antihyperglycemic Drugs 686
  Chapter Review 692

CHAPTER 40
Posterior Pituitary Hormones: Antidiuretic Hormone and Oxytocin 697
  Posterior Pituitary Hormones 698
  Antidiuretic Hormone 699
  Drugs Affecting Uterine Muscle 702
  Tocolytics 703
  Chapter Review 705
PART 9

Pharmacology of Infectious Diseases 711

CHAPTER 41
Antibacterial Agents 712
  Morphology of Bacteria 713
  Chemotherapy 714
  Penicillins 716
  Cephalosporins 719
  Aminoglycosides 721
  Tetracyclines 722
  Sulfonamides 723
  Macrolide Antibiotics 724
  Fluoroquinolone Antimicrobials 725
  Miscellaneous Antimicrobial Drugs 726
  Drugs Used to Treat Tuberculosis 727
  Preferred Therapy for Selected Infections 728
  Chapter Review 730

CHAPTER 42
Antifungal and Antiviral Drugs 735
  Fungal Infections and Antifungal Drugs 737
  Viral Diseases 748
  Antiviral Drugs 754
  Drug Interactions 763
  Chapter Review 765

CHAPTER 43
Parasitic Infections: Antiprotozoal and Anthelmintic Drugs 769
  Protozoal Infections 770
  Malaria 771
  Dysentery 774
  Other Protozoal Infections 776
  Anthelmintic Drugs 778
  Chapter Review 781

CHAPTER 44
Antiseptics and Disinfectants 786
  Antisepsis and Disinfection 787
  Antiseptics and Disinfectants 793
  Chapter Review 797
PART 10

Antineoplastics and Drugs Affecting the Immune System  

CHAPTER 45
Antineoplastic Agents  802
  Types of Cancer  803
  Alkylating Drugs  805
  Antimetabolites  808
  Drugs Derived from Natural Products  810
  Hormone Antagonists  811
  New Approaches to Cancer Chemotherapy  814
  Chapter Review  816

CHAPTER 46
Immunopharmacology  821
  Immune System  822
  Immunosuppressive Drugs  825
  Immunomodulating Drugs  828
  Chapter Review  830

Glossary  835

Appendix A Latin Abbreviations Used in Medicine  850
Appendix B Abbreviations and Symbols Commonly Used in Medical Notations  851
Index  857
