

# Immunotherapy in Transplantation

## Principles and Practice

EDITED BY

### **Bruce Kaplan MD**

Kathy and Harry Jentsch Professor of Medicine  
Professor of Surgery and Pharmacology  
Chief, Division of Nephrology  
Medical Director of Abdominal Transplant  
University of Arizona Medical Center  
Tucson, AZ, USA;  
Adjunct Professor of Medicine, Applied Genomics Center  
University of Alberta  
Edmonton, AB, Canada

### **Gilbert J. Burckart PharmD**

Associate Director, Office of Clinical Pharmacology  
Center for Drug Evaluation and Research  
US Food and Drug Administration  
Silver Spring, MD, USA

### **Fadi G. Lakkis MD**

Professor of Surgery, Immunology and Medicine  
Frank & Athena Sarris Chair in Transplantation Biology  
Scientific Director, Thomas E. Starzl Transplantation Institute  
University of Pittsburgh  
Pittsburgh, PA, USA

 **WILEY-BLACKWELL**

# Contents

List of Contributors, vii

Preface, xi

## **Part 1 Transplantation Immunobiology**

- 1** The Immune Response to a Transplanted Organ: An Overview, 3  
*Fadi G. Lakkis*
- 2** Antigen Presentation in Transplantation, 10  
*Martin H. Oberbarnscheidt and Fadi G. Lakkis*
- 3** The T Cell Response to Transplantation Antigens, 19  
*Didier A. Mandelbrot, Bryna Burrell, Mohamed H. Sayegh, and Peter S. Heeger*
- 4** The B Cell Response to Transplantation Antigens, 38  
*Roger Sciammas, Anita S. Chong, and Robert B. Colvin*
- 5** The Innate Response to a Transplanted Organ, 54  
*Daniel R. Goldstein and Laurence A. Turka*
- 6** Regulation of the Alloimmune Response, 62  
*Kathryn J. Wood and Terry B. Strom*

## **Part 2 Transplantation Clinical Pharmacology**

- 7** Pharmacokinetics, 81  
*Venkateswaran C. Pillai and Raman Venkataramanan*
- 8** Therapeutic Drug Monitoring for Immunosuppressive Agents, 95  
*Michael C. Milone and Leslie M.J. Shaw*
- 9** Pharmacometrics: Concepts and Applications to Drug Development, 114  
*Mallika Lala and Jogarao V.S. Gobburu*
- 10** Pharmacogenomics and Organ Transplantation, 133  
*Gilbert J. Burckart and Richard M. Watanabe*
- 11** Study Design/Process of Development: Clinical Studies, 146  
*Richard D. Mamelok*

## **Part 3 Agents**

- 12** Corticosteroids, 163  
*Olivia R. Blume, Sarah E. Yost, and Bruce Kaplan*
- 13** Azathioprine, 171  
*Barry J. Browne*

- 14** Pharmacokinetic and Pharmacodynamic Properties of Mycophenolate, 182  
*David Hager, Arjang Djamali, and Bruce Kaplan*
- 15** Cyclosporine: Molecular Action to Clinical Therapeutics, 197  
*Bradford Strijack and Paul A. Keown*
- 16** Tacrolimus, 224  
*William E. Fitzsimmons*
- 17** Inhibitors of Mammalian Target of Rapamycin, 241  
*Barry D. Kahan*
- 18** Inhibitors Targeting JAK3, 273  
*Gary Chan and Paul S. Changelian*
- 19** Cyclophosphamide, 290  
*John J. Curtis*
- 20** Application of Antisense Technology in Medicine, 296  
*Beata Mierzejewska and Stanislaw M. Stepkowski*
- 21** The Role of Ganciclovir in Transplantation, 316  
*Lyndsey J. Bowman and Daniel C. Brennan*
- 22** Transplantation Immunotherapy with Antithymocyte Globulin (ATG), 330  
*John L. Dzuris, Christian Bloy, Melanie Ruzek, and John M. Williams*
- 23** The Role of Alemtuzumab in Solid Organ Transplantation, 346  
*Avinash Agarwal, David Bruno, and Stuart J. Knechtle*
- 24** Rituximab, an Anti-CD20 Monoclonal Antibody, 362  
*Mark D. Pescovitz*
- 25** The Anti-Interleukin 2 Receptor Antibodies, 378  
*Muna Alnimri and Flavio Vincenti*
- 26** Infliximab/Anti-TNF, 385  
*Marina Vardanyan, Edward C. Parkin, and Horacio L. Rodriguez Rilo*
- 27** CTLA4-Ig, 399  
*Sarah E. Yost and Bruce Kaplan*
- 28** Combination and Adjuvant Therapies to Facilitate the Efficacy of Costimulatory Blockade, 407  
*Swetha K. Srinivasan, Helen L. Triemer, and Allan D. Kirk*
- 29** Intravenous Immunoglobulin (IVIG) a Modulator of Immunity and Inflammation with Applications in Solid Organ Transplantation, 429  
*Stanley C. Jordan, Mieko Toyoda, Joseph Kahwaji, Alice Peng, and Ashley A. Vo*

Index, 447
