1. Novel Neuropeptides in the Control of Food Intake: Neuronostatin and Nesfatin-1
   Gina L. C. Yosten
   1. Introduction 2
   2. Neuronostatin 8
   3. Nesfatin-1 11
   4. Conclusions 16
   References 19

2. Anorexia and Hypothalamic Degeneration
   Ida A. K. Nilsson, Charlotte Lindfors, Martin Schalling, Tomas Hökfelt, and Jeanette E. Johansen
   1. Introduction 28
   2. The anx/anx Mouse 30
   3. General Aspects of Mechanisms Underlying Weight Disturbances 42
   4. Neurodegeneration and Mitochondrial Dysfunction Related to Eating Disorders in Humans 48
   5. Conclusions and Future Directions 49
   Acknowledgments 49
   References 50

3. The Role of Ghrelin in Anorexia–Cachexia Syndromes
   Bobby Guillory, Andres Splenser, and Jose Garcia
   1. Introduction 62
   2. Discovery of Ghrelin 63
   3. Ghrelin, GHS-R1a, and GOAT 64
   4. Mechanisms of Action of Ghrelin 66
   5. Ghrelin and Sarcopenia of Aging 72
   6. Ghrelin and Cancer Cachexia 73
   7. Ghrelin and COPD-Induced Cachexia 83
   8. Ghrelin and Anorexia Nervosa 85
   9. Ghrelin and CHF-Induced Cachexia 87
10. Ghrelin and ESRD 89
11. AIDS-Associated Cachexia 90
12. RA-Associated Cachexia 91
13. Conclusions 93
Acknowledgments 93
References 93

4. Ghrelin Gene Variants and Eating Disorders 107
   Tetsuya Ando
   1. Introduction 108
   2. Ghrelin Signaling System 108
   3. Physiological Functions of Ghrelin 110
   4. Ghrelin and Eating Disorders 110
   5. Ghrelin Gene Variants and Eating Disorders 111
   6. Association of Ghrelin Polymorphisms with Anthropometry and Eating Pathology in Young Women 116
   7. Association of Ghrelin Polymorphisms with Changes in Eating Disorder Phenotypes 117
   8. Conclusions 117
References 118

5. Steroid Metabolism and Excretion in Anorexia Nervosa 125
   Wassif Samuel Wassif and Andrew Rashad Ross
   1. Introduction 125
   2. Steroid Metabolism in Health 126
   3. Steroid Metabolism in AN 129
   4. Steroid Excretion in AN 130
   5. Effects of Refeeding 136
   6. Conclusions 137
Acknowledgments 138
References 138

6. Anorexia Nervosa and Estrogen Receptors 141
   Nicolas Ramoz, Audrey Versini, and Philip Gorwood
   1. Introduction 142
   2. Anorexia Nervosa 142
   3. Estrogens and Estrogen Receptors and Pathways 145
   4. Estrogen and Anorexia 147
   5. Human Genetics of Estrogen Pathway in Anorexia Nervosa 151
7. Cannabinoid Receptors and Cholecystokinin in Feeding Inhibition
Francisco Alén, M. Teresa Ramírez-López, Raquel Gómez de Heras, Fernando Rodríguez de Fonseca, and Laura Orio

1. Introduction: Peripheral Regulation of Food Intake: A Place for Endocannabinoids and Cholecystokinin 166
2. The Endocannabinoids and Feeding Regulation 168
3. CCK and Feeding Regulation 175
4. Interactions Between CCK and Endocannabinoid Receptors in the Regulation of Feeding 181
5. Conclusions and Clinical Relevance 183

Acknowledgments 184
References 184

8. Treatment of Cachexia: Melanocortin and Ghrelin Interventions
Jeremy Steinman and Mark Daniel DeBoer

1. Introduction 198
2. Molecular Mediators of Cachexia 199
3. Peripheral and Central Appetite Regulation 201
4. Cancer Cachexia 209
5. Cardiac Cachexia 215
6. Renal Cachexia 219
7. Other Cachexia 220
8. Summary of Treatment Effects 225
9. Future Directions 226

References 227

9. The Influence of Estrogen Therapies on Bone Mineral Density in Premenopausal Women with Anorexia Nervosa and Amenorrhea
Jocelyn Lebow and Leslie Sim

1. Introduction 244
2. Estrogen Therapy and Bone Mass 245
3. Potential Clinical Drawbacks of Estrogen Therapy for Patients with AN 246
4. Influence of Oral Contraceptives on Bone Mineral Density 247
5. Influence of Hormone Replacement Therapy on Bone Mineral Density 248
