I. FUNDAMENTALS OF PHARMACY PRACTICE 1

CHAPTER 1
History of Pharmacy Practice 1

Introduction 1

The Age of Antiquity 2
Ancient Humans 2
Ancient Mesopotamia 2
Mithradates VI 2
Ancient China 3
Ancient Egypt 3
Ancient India 3
Ancient Greece and Rome 3
Hippocrates 3
Theophrastus 3
Dioscorides 4
Galen 4

The Middle Ages 5
Monasteries 5
The First Apothecaries 5
The First Pharmacopoeia 6

The Renaissance 6
The First Anglo-Saxon Organization for Pharmacists 6
The First Apothecary in the American Colonies 6

The 18th Century 6
Elizabeth Marshall: America’s First Female Pharmacist 6
Benjamin Franklin: America’s First Hospital 6
Andrew Craigie: America’s First Apothecary General 7

The 19th Century 7
America’s First College of Pharmacy 7
The American Pharmaceutical Association 7

The United States Pharmacopoeia 7
The Father of Modern Genetics 8

The 20th Century 8
The Discovery of Penicillin 8
The American Council on Pharmaceutical Education 8
The Polio Vaccine 8
Biotechnology 8
Pharmacogenomics 9

Evolution of the Pharmacist’s Role 9
The Traditional Era 9
The Scientific Era 9
The Clinical Era 9
The Pharmaceutical Care Era 10

Evolution of the Pharmacy Technician 10
Military Pharmacy Technicians 10
Move for Standardization 10
National Certification 10
Where We Are Today 10

The Future of Pharmacy and the Pharmacy Technician 10
Occupational Outlook for Pharmacy Technicians 10
Medication Therapy Management and Pharmacists 11

CHAPTER 2
The Professional Pharmacy Technician 14

Introduction 14

Overview of the Pharmacy Profession 15
Qualifications and Educational Requirements 15
Pharmacists 15
Pharmacy Technicians 15
Roles of Pharmacy Professionals 15
Pharmacists 15
Pharmacy Technicians 17
Practice Settings 17
Working Hours 17
Pharmacy Technician Pay 18

Characteristics of a Good Pharmacy Technician 18
Display a Professional Manner and Image 18
Attitude 19
Attire 19
Grooming 20
Be Trustworthy and Confidential 20
Demonstrate Initiative and Responsibility 20
Work as a Team Member 21
Adapt to Change 21
Be Knowledgeable 21
Remember Compassion and Empathy 22

Preparing for Your Future as a Pharmacy Technician 22
Registration/Licensure for the Pharmacy Technician 22
Certification for the Pharmacy Technician 22
Exam for the Certification of Pharmacy Technicians 23
Pharmacy Technician Certification Exam 23
Specialized Certifications 24
Professional Organizations 24
Career Opportunities 24

CHAPTER 3
Communication and Customer Care 28

Introduction 28

The Communication Process 28
The Sender 29
The Message 29
The Channel 29
The Receiver 29
Feedback 29
Context 29

Communication Types and Methods 29
Verbal Communication 29
Face-to-Face Communication 30
Telephone-Based Communication 30
Written Communication 31
Nonverbal Communication 31
Kinesics 32
Oculesics 32
Proxemics 32
Environment 32
Active Listening 32

Barriers to Communication 32
Language Barriers 33
Communication Impairments 33
Hearing Impairment 33
Defense Mechanisms 34
Denial 35
Displacement 35
Intellectualization 35
Projection 35

Rationalization 35
Reaction Formation 35
Regression 35
Repression 35
Sublimation 35
Conflict 35
Eliminating Communication Barriers 35

Caring for Customers and Patients 35
Internal Customers 36
External Customers 36
Patient Rights 36
Greeting Customers 36
Protecting Confidentiality 37
Pharmacist Consultations 37
Special Considerations 37
Cultural Differences 37
Age 37
Terminally Ill Patients 38

CHAPTER 4
Pharmacy Law and Ethics 40

Introduction 40

Overview of Law 41
Constitutional Law 41
Statutes and Regulations 41
State Law and Regulations 41
Legislative Intent 41

Criminal, Civil, and Administrative Law 41
Criminal Law 41
Civil Law 41
Tort Law 41
Administrative Law 41
Violations of the Law 42
Misdemeanors 42
Felonies 42

Regulatory Agencies 42
Centers for Disease Control and Prevention 42
Centers for Medicare and Medicaid Services 42
Drug Enforcement Administration 42
Food and Drug Administration 42
The Joint Commission 42
Occupational Safety and Health Administration 42
State Boards of Pharmacy 43

Overview of Pharmacy Law 43
State and Federal Functions 43
State Pharmacy Law 43
Federal Pharmacy Law 43
The Pure Food and Drug Act of 1906 43
The Sherley Amendment of 1912 43
The Food, Drug, and Cosmetic Act of 1938 43
CHAPTER 5
Terminology and Abbreviations  58
Introduction  58
Understanding Selected Roots  59
Understanding Selected Prefixes  59
Understanding Selected Suffixes  59
Understanding Combining Forms  60
Pharmacy Abbreviations  60
Dangerous Abbreviations  60
Commonly Used Symbols  68
Drug Names  68
Terminology  68
Pharmaceutical Terminology  83
Medical Terminology  87

CHAPTER 6
Dosage Formulations and Routes of Administration  92
Introduction  93
Sources of Drugs  93
Natural Drug Sources  93
CONTENTS

Plant Sources 93
Animal Sources 93
Mineral Sources 93
Synthetic Drug Sources 93
Genetically Engineered Drug Sources 94

Drug Nomenclature 94
Chemical Name 94
Generic Name 94
Trade or Brand Name 95

Classification of Drugs 95

Dosage Formulations 95
Solid Dosage Forms 95
Tablets 95
Capsules 96
Lozenges 97
Powders 97
Granules 97
Medicated Sticks 97
Semisolid Dosage Forms 97
Suppositories 97
Creams 97
Ointments 97
Liquid Dosage Forms 98
Solutions 99
Aqueous Solutions 99
Viscous Aqueous Solutions 99
Nonaqueous Solutions 99
Hydroalcoholic Solutions 99
Alcoholic Solutions 99
Suspensions 100
Magmas and Milks 100
Lotions 100
Gels 100
Extractives 100
Emulsions 100
Comparison of Water-in-Oil and Oil-in-Water Emulsions 101
Liniments 101
Transdermal Patches 101
Sprays 101
Inhalants 101
Aerosols 101

Delayed and Extended Releases 101

Routes of Administration 102
Oral 103
Sublingual 104
Buccal 104
Transdermal 104
Inhalation 104
Nasal 104
Parenteral 105

Intradermal 105
Subcutaneous 105
Intramuscular 105
Intravenous 106
Other Parenteral Routes 106
Topical 106
Rectal 106
Vaginal 107
Ophthalmic 107
Otic 107

CHAPTER 7
Referencing and Drug Information Resources 110

Introduction 110

How to Use Reference Sources 111

Resources Used in Pharmacy 111

Monographs and Package Inserts 112

Reference Books 112
Drug Facts and Comparisons 112
Physician’s Desk Reference 113
AHFS Drug Information 113
Martindale: The Complete Drug Reference 113
USP–NF 113
Handbook on Injectable Drugs 113
Handbook of Nonprescription Drugs 114
Approved Drug Products with Therapeutic Equivalence Evaluations “FDA Orange Book” 114
Red Book 114
American Drug Index 115
The Merck Index 115
Pediatric & Neonatal Dosage Handbook 115
Geriatric Dosage Handbook 115
Goodman & Gilman’s: The Pharmacological Basis of Therapeutics 115
Remington: The Science and Practice of Pharmacy 115

Electronic/Web-based References 116
Micromedex 116
Medline 116
MEDMARX 116
Skyscape 116
Websites 117
Smartphone Apps 117

Journals and Magazines 119
CHAPTER 8
Retail Pharmacy 122

Introduction 122

Direct Patient Care 123

Retail Pharmacy 123
  Chain Pharmacies 123
  Franchise Pharmacies 124
  Independent Pharmacies 124
  Outpatient Pharmacies 125

Retail Pharmacy Staff 125
  Certified Pharmacy Technician 125
  Pharmacy Clerk/Cashier 125
  Pharmacy Manager 125
  Doctor of Pharmacy 126
  Pharmacist in Charge 126
  Registered Pharmacist 126
  Store Manager 126

Organization of Retail Pharmacies 126
  Pharmacy Drop-Off Counter 126
  Computer Workstations 126
  Prescription-Filling Area 126
  Patient Consultation Area 126
  Prescription Pickup Area 126
  Medication Storage 126
  OTC/Front End 127

Regulatory Agencies 127
  State Board of Pharmacy 127
  Drug Enforcement Administration 127
  Centers for Medicare and Medicaid Services 127

The Prescription 127
  Elements of the Prescription 127
  The Patient Profile 128
  Processing Prescriptions 129
    Receiving 129
    Reviewing 130
    Translating 130
    Computer Entry 130
    Adjudicating 131
    Alerting the Pharmacist of Nonformularies 131
    Drug Utilization Evaluation 132
    Preparing 132
    Counting/Measuring/Pouring 132
    Packaging and Labeling 132
    Final Check 135
    Storing 135

Dispensing 135
Filing 137
Refills 137
Transfers 137

Ringing Up Transactions 138
  Types of Payments 138
  The Cash Register 138
  Department Codes 139
  Voiding Transactions 139
  Taxable Versus Nontaxable Items 139

Pharmacy Technician Job Responsibilities 139
  Tasks Requiring Quality Assurance 140
  Providing Requested Information to the Pharmacist 141
  Situations to Alert the Pharmacist 141
  Types of Questions a Technician Can Answer 142

Medical Information Systems 142
  Uses 142
  Impact on Quality Decision Making 143
  Characteristics of Typical Database 143

Medication Use Review 143
  Purpose 143
  Structure 144
  The Pharmacy Technician’s Role 144

Productivity and Workflow Management 144
  Productivity 144
    Use of Productivity Data 144
    Productivity Measurement Systems 145
    The Pharmacy Technician’s Role 145
  Workflow Management 145
    Managing Your Own Workflow 146
    Delegation 146

Patient Confidentiality and HIPAA 146
  Protected Health Information 146
  The Health Insurance Portability and Accountability Act 146
  Proprietary Business Information 147

Forged or Altered Prescriptions 147
  Detection 148

Immunizations 148

CHAPTER 9
Health-System Pharmacy 153

Introduction 153

Health-System Pharmacies 154
Automation and Robotics in Health-System Pharmacies 182

Automated Medication Delivery Systems 182
Medication Order—From Physician to Patient 182
Security 182
Inventory Control 183
Patient Safety 183
Automated Storage and Retrieval Systems 183

Bar Coding 183

Health Care Information Technology and Electronic Prescribing 184

Telepharmacy 184

Pharmacy Technology and Patient Confidentiality 184

CHAPTER 11
Inventory Management 187

Introduction 187

Purchasing Systems 188
Independent Purchasing 188
Group Purchasing 188

Methods of Purchasing 188
Purchasing Direct 188
Wholesalers 188
Primary Vendors 188

Formularies 188

Evaluating Costs 188

Evaluating Sources 188

The Ordering Process 189
Generate Order 189
Automated 189
Manual 189
Combination of Automated and Manual 189
Confirm Order 189
Submit Order 190
Supplier’s Receipt of Order 190
Processing/Shipping of Order 190

The Receiving Process 190
Order Delivery 190
Order Verification 190
Inventory Adjustment 190
Automated 190
Manual 190
Stocking the Order 190
Recordkeeping 191

Ordering Atypical Products 191
Biologics 191
Interferon 191
HIV Medications 191
Investigational Drugs 191
Nonformulary Drugs 192

Back-Ordered Products 192

Communicating Changes in Product Availability 192
Communicating Changes to Patients 192
Communicating Changes to Health Care Providers 192

Returns 193
Product Returns 193
Recalls 193
Expired Drugs 193
Problem with Excessive Inventory 193
Importance of Cash Flow 194

Medication Disposal 194
Disposal of Controlled Substances 194
Dropped Drugs 194

Theft and Diversion 194
Counterfeit Medications, Theft, and Chemical Dependency 194

CHAPTER 12
Insurance and Third-Party Billing 197

Introduction 197

Insurance Billing 198

Formularies 198

Drug Utilization Reviews/Evaluations 198

Types of Insurance 198
Health Maintenance Organizations 198
Preferred Provider Organizations 198
Drug Discount/Coupon Cards 199
Medicare 199
Medicaid 199
TRICARE 199
TRICARE Standard 199
TRICARE Prime 199
TRICARE Reserve Select 199
TRICARE for Life 199
TRICARE Drug Programs 199
Civilian Health and Medical Program of the Veterans Administration 199
Worker’s Compensation 200
Understanding the Insurance Billing Process 200

Collecting Insurance Data 200

Transmitting Prescriptions 201

Troubleshooting Insurance 201

Fraud 202

Billing 202

Information Systems 203

Price Updates 203

Report Generation 203

CHAPTER 13
Over-the-Counter (OTC) Products 206

Introduction 207

Transition from Prescription to OTC 207

Common OTC Products 208

Analgesics and Antipyretics 208

Analgesics 209

Acetaminophen 209

Salicylate 209

Nonsteroidal Anti-Inflammatory Drugs 210

Antipyretics 211

Respiratory System Agents 211

Antihistamines 212

Antitussives 213

Decongestants 213

Expectorants 213

Gastrointestinal System Agents 214

Antacids 214

Antidiarrheals 215

Antiemetics 215

Antiflatulents 215

Antihemorrhoidals 216

Laxatives 216

Integumentary System Agents 217

Acne 217

Alopecia 217

Anti-Infectives 217

Corns, Calluses, and Warts 218

Dandruff 218

Dermatitis 218

Head Lice 218

Sunscreen and Sunburn 219

Central Nervous System Agents 219

Ophthalmic Agents 219

Ophthalmic Antihistamines 220

Ophthalmic Decongestants 220

Artificial Tears 220

Otic Agents 221

Oral Agents 221

Cold Sores 221

Oral Pain 222

Contraceptives 222

Smoking Cessation 222

Behind-the-Counter Products 223

Herbal and Alternative Treatments 223

Vitamins and Supplements 224

Medical Devices and Diagnostics 224

Cholesterol 225

Diabetes 225

Blood Glucose Monitor 226

Insulin Supplies 226

Urinary Ketones 226

Fertility and Pregnancy Tests 226

Nebulizers 227

Test Screening Kits 227

Illicit Drugs 228

Sexually Transmitted Infections 228

Medical Supplies 228

The Pharmacy Technician’s Role with OTC Products, Devices, and Supplies 229

CHAPTER 14
Introduction to Compounding 232

Introduction 232

Overview of Compounding 233

Regulations and Accreditation 233

USP 795 233

PCAB Accreditation 233

Compounding a Prescription 234

Equipment and Supplies 234
Contents

Compounding Facilities 234
Quality Assurance 236
  Standard Operating Procedures 236
Dosage Forms and Basic Guidelines 237
  Capsules 238
  Tablets 238
  Powders 238
  Lozenges and Troches 238
  Sticks 239
  Suppositories 239
  Solutions 239
  Suspensions 240
  Emulsions 240
  Ointments 240
  Pastes 240
  Creams 240
  Gels 241
  Ophthalmic Preparations 241
  Otic Preparations 242
  Nasal Preparations 242
Veterinary Compounding 243
Medication Flavoring 243
  Psychological Impact 243
  Sensory Roles in Flavoring 243
  Flavoring Considerations 243
    Pediatric Flavoring 243
    Adult Flavoring 244
    Impact on Stability, Solubility, and pH 244
  Four Taste Types 244
  Flavoring Techniques 244
  Coloring 245

Chapter 15
Introduction to Sterile Products 247

Introduction 248
Aseptic Technique 248
Regulations and Guidelines 248
  Food and Drug Administration 248
  The Joint Commission 248
  Centers for Disease Control and Prevention 249
USP 797 249
ASHP Guidelines 249
  Risk Level 1 249
  Risk Level 2 249
  Risk Level 3 249

Basic Equipment and Supplies 249
  Laminar Flow Hoods 250
  Vertical Flow Hoods 250
    Biological Safety Cabinets 251
  Needles 251
  Syringes 252
    Prefilled Syringes 252
  IV Bags 253
Routes of Administration 254
  Intravenous Administration 254
    Risks 254
Sterile Products 254
  Sterility 254
  pH 255
  Tonicity 255
  Storage 255
  Common Products 255
  Compatibility 255
    pH 255
    Light 255
    Dilution 256
    Chemical Composition 256
    Time 256
    Solutions 256
    Temperature 256
    Buffer Capacity 256
    Order of Mixing 256
    Plastic 256
    Filters 256
    Minimizing Incompatibilities 256
  Total Parenteral Nutrition 257
  Chemotherapy 257

Basic Procedures 258

III. Pharmacy Calculations 262

Chapter 16
Basic Math Skills 262

Introduction 262
Basic Math Pretest 263
Decimals 264
  Decimals as Fractions 264
  Key Points for Working with Decimals 264
  Rounding 265
  Adding and Subtracting Decimals 265
  Multiplying Decimals 266
  Dividing Decimals 266
Roman Numerals 267
  Rules for Roman Numerals 267

Fractions 268
  Proper Fractions 268
  Improper Fractions 268
  Simple Fractions 269
  Complex Fractions 269
  Rules for Calculating with Fractions 269
    Rule: Reducing Fractions to Lowest Terms 269
    Rule: Converting Improper Fractions 269
    Rule: Adding and Subtracting Fractions 269
    Rule: Multiplying Fractions 270
    Rule: Dividing Fractions 270

Ratios and Proportions 271
  Ratios 271
  Proportions 271
  Solving for X 272

CHAPTER 17
Measurement Systems 276
Introduction 276
  The Metric System 277
    Guidelines for Metric Notation 277
  International Units 279
    Milliequivalent 279
  The Apothecary System 280
  The Avoirdupois System 280
  The Household System 280
  Converting Measurements 281
    Converting the Household System 281
    Formula—Conversion of Systems 282
    Converting the Apothecary System 282
  Temperature Conversions 283

CHAPTER 18
Dosage Calculations 287
Introduction 287
  Calculating the Number of Doses 288
  Calculating the Quantity to Dispense 290
  Calculating the Quantity of Ingredient 292
  Calculating the Correct Days Supply 294
  Solving Multiple Dosage Calculations 296
  Calculating Pediatric Dosages 297
    Calculating Pediatric Dosages Using Fried's Rule 297
    Calculating Pediatric Dosages Using Young’s Rule 297
    Calculating Pediatric Dosages Using Clark’s Rule 298
  Converting Weight from Pounds to Kilograms 299
  Calculating Dosages Using mg/kg/day 299

CHAPTER 19
Concentrations and Dilutions 302
Introduction 302
  Concentrations 303
    Weight/Weight Concentrations 303
    Weight/Volume Concentrations 306
    Volume/Volume Concentrations 308
  Dilutions 310

CHAPTER 20
Alligations 313
Introduction 313
  Solving Alligations 313
    The Alligation Grid 313

CHAPTER 21
Parenteral Calculations 323
Introduction 323
  Basic Dimensional Analysis 323
  Flow Rates 325
    Flow Rate Duration 326
    Volume per Hour 328
    Drug per Hour 330
  Drop Factors 331
  TPN Milliequivalents 333
    Electrolyte Solutions 333
CHAPTER 22
Business Math 337
Introduction 337
Pharmacy is a Business 337
Cost, Selling Price, and Markup 338
Cost 338
Selling Price 338
Patient Co-Payments 338
Third-Party Insurance Coverage 338
Markup 339
Markup Percent 339
Profit—Gross and Net 340
Gross Profit 340
Overhead 340
Net Profit 341
Accounting Formulas 342

IV. PHARMACOLOGY 345

CHAPTER 23
The Body and Drugs 345
Introduction 345
Pharmacodynamics 346
Receptor Complex 346
Site of Action 346
Mechanism of Action 346
Receptor Site 347
Agonists and Antagonists 347
The Dose–Response Curve 348
Potency 348
ED50 348
Half-Life 349
Time–Response Curve 349
Pharmacodynamic Mechanisms 349
Pharmacokinetics 350
Plasma Concentration 350
Drug Absorption 350
Drug Distribution 351
Membrane Transport Mechanisms 351
Passive Diffusion 351
Facilitated Diffusion 351
Active Transport 351
Pinocytosis 352
Bioavailability 352
The Quality of Drugs—Solubility 352
Drugs and Their Ionization 352
Drugs and Their Formulations 352
Drug Distribution and Metabolism 352
The Path 353
Plasma-Binding Protein 353
Absorption 353
Salt Forms 354
Rate of Administration 354
Volume of Distribution 354
Clearance 354
Addiction 354
Characteristics of Addiction 355
Causes of Addiction 355
The Criteria for Addiction 355
Alcohol 356
Alcohol, Other Drugs, and Their Effects on the Body 356
Immediate Effects of Alcohol 356
Long-Term Effects of Alcohol 356
Neurotoxic Effect 357
Alcoholism 357
Treatment of Alcoholism 357
Smoking Withdrawal and Cessation 357
Medications Used in Smoking Cessation 358
Drug Dependency 359
Controlled Medications 359
The Role of the Pharmacy Technician 359

CHAPTER 24
The Skin 363
Introduction 363
Anatomy 363
Diseases and Conditions of the Skin 364
Rash 364
Eczema 364
Psoriasis 364
Treatments for Psoriasis 365
Skin Infections 365
Viral Infections 365
Bacterial Infections 365
Fungal Infections 365
Acne 365
Cellulitis 367
Hives 368
Parasitic Infestations 368
Tumors and Cancerous Growths 368
Basal Cell Carcinoma 368
Squamous Cell Cancer 368
Malignant Melanoma 369
Precancerous Conditions 369
Pigmentation Disorders 369
Miscellaneous Skin Conditions and Diseases 369
CHAPTER 25
The Eyes and Ears 376

Introduction 376

Anatomy and Physiology of the Eye 377

How the Eye Works 377

Diseases of the Eyes 378

Eye Infections and Pharmaceutical Treatment 378

Stye 378
Blepharitis 378
Conjunctivitis 378

Allergic Conjunctivitis 379
Bacterial Conjunctivitis 379
Viral Conjunctivitis 380
Conjunctivitis Caused by Chlamydia 380

Eye Disorders That Affect Vision 383

Glaucoma 383

Open-Angle Glaucoma 383
Closed-Angle Glaucoma 384
Secondary Glaucoma 384

Cataracts 385
Vascular Retinopathies 385
Types of Retinopathies 385
Macular Degeneration 387

Cycloplegic Drugs, Mydriatic Drugs, and Lubricants 387

The Ear 388

Anatomy and Physiology of the Ear 390

External Ear 391
Middle Ear 391
Eustachian Tube 391
Inner Ear 391
Cochlea 391
Vestibular Labyrinth 391

Disorders and Diseases of the Ear 391

Complications of Earwax Buildup 391
Types of Hearing Loss 392

CHAPTER 26
The Gastrointestinal System 396

Introduction 396

Anatomy and Physiology of the Digestive System 397

Digestion 397

The Mouth 397
The Stomach 398
The Small Intestine 398
The Large Intestine 399

Disorders of the Digestive System 399

Gastroesophageal Reflux Disease 400
Nausea and/or Vomiting 401
Ulcers 404

Nonsteroidal Anti-Inflammatory Drugs 404
Other Causes of Ulcers 404
Ulcer Therapy 405

Diarrhea 405
Constipation 406
Flatulence 408
Irritable Bowel Syndrome 409
Crohn's Disease 409
Ulcerative Colitis 409
Diverticulitis 409

Nutrition 409

Macronutrients 410
Carbohydrates 410
Fats 411
Protein 411

Micronutrients 412
Vitamins 412
Minerals 414
Water 414

USDA MyPlate Food Guidance System 415

Food Allergies 416

CHAPTER 27
The Musculoskeletal System 418

Introduction 418

Anatomy of the Muscles 419
| CONTENTS |
|-----------------|-----------------|
| **Muscle Action** | 419 |
| The Functions of Muscles | 419 |

Beta-Adrenergic Blockers 480
Antiadrenergic Agents 482

Coronary Artery Disease 482

Treatment of Coronary Artery Disease 482
Antiplatelets 483
Anticoagulants 483
Tissue Plasminogen Activators 485
Thrombin Inhibitors 486
Antidotes for Overdose of Antiplatelets or Anticoagulants 486
  Warfarin Overdose 486
Information 487
  Heparin Overdose 487
  Thrombolytic Enzyme Overdose 487

Antiplatelets 483
Anticoagulants 483
Tissue Plasminogen Activators 485
Thrombin Inhibitors 486
Antidotes for Overdose of Antiplatelets or Anticoagulants 486
  Warfarin Overdose 486
Information 487
  Heparin Overdose 487
  Thrombolytic Enzyme Overdose 487

Thromboinhibitors 486

Anticoagulants 483

Antidotes for Overdose of Antiplatelets or Anticoagulants 486

Tissue Plasminogen Activators 485

Thrombin Inhibitors 486

Antidotes for Overdose of Antiplatelets or Anticoagulants 486

Zwitterionic Anticoagulants 486

Warfarin Overdose 486

Heparin Overdose 487

Thrombolytic Enzyme Overdose 487

Antidotes for Overdose of Antiplatelets or Anticoagulants 486

Cholesterol 488
Triglycerides 488
Antihyperlipidemics 488

The Lymphatic System 491

CHAPTER 30
The Immune System 494

Introduction 495

The Body's Defense Mechanisms 495
Nonspecific Defense Mechanisms 495
Specific Defense Mechanisms 495
Lymphocytes 497

Types of Infectious Organisms 498
Animal Microorganisms 498
  Parasites 498
  Protozoa 498
  Bacteria 498
  Rickettsia 499
Viruses 499
Plant Microorganisms 500

HIV/AIDS 500
Five-Stage Progression of HIV to AIDS to Death 500
HIV/AIDS Drugs 501

Autoimmune Diseases 502

Gram Staining 505

Methods of Transmission of Pathogens 505

Anti-Infectives 505
Antibacterials 505
  Penicillins 505
  Cephalosporins 508
  Tetracyclines 508
  Macrolides 510
Antifungals 510
  Fluconazole 510
  Amphotericin B 511
  Itraconazole 511

Antivirals 515

Drug Resistance 516
Solutions to Resistance 517

Vaccines 517

Various Infectious Disease States 518
Malaria 518

Cancer 520
Cancer Treatments 521
Drugs Used to Treat Cancer 521

CHAPTER 31
The Renal System 526

Introduction 526

Anatomy and Physiology of the Renal System 526
  The Kidney 527
  The Nephron 528
  The Bladder and Urine 528

Diseases, Conditions, and Treatments of the Urinary System 529
Renal Failure 529
Prostatitis 529
Urinary Incontinence 529
Urinary Retention 531
Urinary Tract Infections 532
Other Signs and Symptoms of Renal System Conditions 534
Kidney Stones 534
Edema and Hypertension 534
Diabetes Mellitus and the Kidneys 535

Diuretics 536

CHAPTER 32
The Endocrine System 538

Introduction 538

Anatomy of the Endocrine System 539

Hormones 540
The Endocrine Glands  540
Hypothalamus  540
Pineal Gland  540
Pituitary Gland  541
Thyroid and Parathyroid  541
Adrenal Glands  542
Glucocorticoids  542
Mineralocorticoids  543
Pancreas  543
Gonads  543
Female Sex Hormones  543
Male Sex Hormones  543

Estrogen Replacement Therapy and Menopause  545

Testosterone Hormonal Replacement  548
Side Effects of Anabolic Steroids  548
Androgen Precautions  549

Glandular Disease States  549

Endocrine System Disorders  549
Pituitary Gigantism  550
Pituitary Dwarfism  550
Acromegaly  550
Diabetes  550
Insulin  551
Diabetes Insipidus  552
Hyperthyroidism  556
Hyperparathyroidism  557
Hypothyroidism  557
Hypoparathyroidism  557
Osteoporosis  557

Abnormalities of the Adrenal Gland  557
Cushing’s Syndrome  557
Addison’s Disease  560
Cretinism  561
Myxedema (Secondary Hypothyroidism)  561
Graves’ Disease  561

CHAPTER 33
The Reproductive System  564

Introduction  564

The Female Reproductive System  565
Anatomy  565
Reproductive Cycle  565
Hormone Contraception  566
Drug–Drug and Drug–Herb Interactions with Hormone Contraception  567
Side Effects of Hormone Contraceptives  568
Topical Contraceptives  568
Contraceptive Devices  568

Conditions That Affect the Female Reproductive System  570
Menopause  570
Pelvic Inflammatory Disease  570
Female Hypogonadism  571
Mammary Glands and Childbirth  571
Female Infertility  572
Causes of Female Infertility  572
Pharmaceutical Treatment of Infertility in Women  573

The Male Reproductive System  575
Anatomy  575

Conditions That Affect the Male Reproductive System  575
Male Infertility  575
Erectile Dysfunction  577
Benign Prostatic Hyperplasia  577
Pharmaceutical Treatment of BPH  578
Prostate Cancer  579
Hypogonadism  579

Sexually Transmitted Diseases  579
Treatment and Prevention of STDs  580

CHAPTER 34
The Nervous System  582

Introduction  582

Anatomy of the Nervous System  583
Functions of the Nervous System  583

The Neuron  583
Neurotransmission and Receptors  585

The Central Nervous System  586
Spinal Cord  586
Brain  586
Cerebellum  586
Cerebrum  587
Brainstem  587
Reticular Formation  587
Limbic System  588

Blood–Brain Barrier  588

The Peripheral Nervous System  588
Autonomic System  588
Sympathetic Nervous System  588
Parasympathetic Nervous System  588
Somatic System  588
Neurotransmitters  588
CONTENTS

Diseases Affecting the Central Nervous System 589
  Anxiety 589
  Depression 590
  Bipolar Disorder 592
  Psychosis 594
    Mechanism of Action of Antipsychotic Drugs 595
  Insomnia 596
  Hypnotics, Sedatives, and Barbiturates 598
  Benzodiazepines 598
    Mechanism of Action of Benzodiazepines 598
    Management of Benzodiazepine Overdose 598
  Nonbenzodiazepine Drugs 598

Stimulants 600
  Adverse Actions of Stimulants 600
  Contraindications 601
  Withdrawal Treatment 601

ADHD and ADD 601
  Stimulants Used in the Treatment of ADHD and ADD 601
  Nonstimulants Used in the Treatment of ADHD and ADD 601

Convulsions, Seizures, and Epilepsy 601
  Types and Classifications of Seizures 602
  Status Epileptics 602
  Treatment of Seizures and Convulsions 603

Parkinson’s Disease 603
  Pharmaceutical Treatments 604

Dementia 606
  Signs and Symptoms of Dementia 606
  Treatment of Dementia 606

Migraine Headaches 607
  Classic Migraine 607
  Common Migraine 607
  Causes and Treatment of Migraines 607

Cancer Pain 608
  Treatment of Cancer Pain 608
  Nonpharmaceutical Pain Relief 611

Bell’s Palsy 612

Stroke 612

Tourette’s Syndrome 612

V. SPECIAL TOPICS 615

CHAPTER 35
Medication Errors 615

Introduction 615

The Five Rights 616
Types of Errors 616
Age-Related Errors 617
Statistics 618
Technology and Errors 618
Look-Alike–Sound-Alike Drugs 618
Case Studies 619
  Glynase/Ritalin Mixup 619
  mcg/mg Mixup 619
  Cycrin/Coumadin Mixup 619
  Tainted IV Bags in Alabama 619
  Emily Jerry Case Study 619
Preventing Medication Errors and the Role of The Pharmacy Technician 620
  Hospital-Wide Action to Prevent Medication Errors 620
  Pharmacy Actions to Prevent Medication Errors 620
  Pharmacy Education and Communication 621

Monitoring and Reporting Errors 621

CHAPTER 36
Workplace Safety and Infection Control 624

Introduction 624

Workplace Safety 625
  Management Leadership and Employee Involvement 625
  Workplace Analysis 625
  Hazard Prevention and Control 625
  Safety and Health Training and Education 625
  Special Areas for Handling Hazardous Drugs 625
  Drug Spills 626
  Laminar Airflow Hoods 626
  Compounding Aseptic Isolator 626
  Eyewash Stations 627

OSHA—Occupational Safety and Health Administration 627
  Hazard Communication Plan and Exposure Control Plan 627
  Handling Hazardous Materials and Waste 628
  Blood-borne Pathogens 628
  Pregnant Women and Workplace Hazards 628
  The Pharmacy and Ergonomics 629
  Workplace Violence in the Pharmacy 629
  Workers Rights under OSHA 629
CHAPTER 37
Special Considerations for Pediatric and Geriatric Patients 634

Introduction 635

Pediatrics 635
  Pharmacological Differences in Pediatric Patients 635
  Drug Metabolism 636
  Pediatric Medication Administration 636
  Poisoning 638
  Common Childhood Illnesses 638
    Respiratory Diseases 640
    Cardiovascular and Blood Disorders 640

Geriatric Patients 641
  The Physiological Factors 641
  Nutrition and the Presence of Disease 642
  Disease–Drug Interactions 642
  Noncompliance 643
    Role of the Pharmacy Technician 643
    Compliance Issues Related to Dosage Forms and Timing 644
  Polypharmacy 644
  Medicare Part D 645

Cognitive Impairment 646
  Elder Abuse 646

CHAPTER 38
Biopharmaceuticals 650

Introduction 650

What Are Biopharmaceuticals? 651

Process of FDA Approval 651

Genetic Engineering 652

Stem Cell Research 653

The Political Climate 654

Appendices

Appendix A: Common Over-the-Counter Products 657
Appendix B: Top 200 Drugs 663
Appendix C: Advanced Career Path Options 669
  Clinical Pharmacy Technician 669
  Federal Pharmacy 669
  Home Infusion Pharmacy 669
  Mail-Order Pharmacy 670
  Nuclear Pharmacy 670
Appendix D: Practice Certification Exams 671
  Practice Certification Exam I 671
  Practice Certification Exam II 677
  Practice Certification Exam III 683

Glossary 690

Index 701
