Oxford Textbook of Paediatric Pain

Edited by
Patrick J. McGrath
Bonnie J. Stevens
Suellen M. Walker
and
William T. Zempsky
SECTION 1
Introduction
1. History of pain in children 3
   Anita M. Unruh and Patrick J. McGrath
2. Prevalence and distribution of pain in children 12
   Bonnie J. Stevens and William T. Zempsky
3. Long-term effects of early pain and injury: animal models 20
   Suellen M. Walker
4. Long-term effects of pain in children 30
   Ruth E. Grünau
5. Prevention of the development and maintenance of paediatric chronic pain and disability 39
   M. Gabrielle Page, Anna Huguet, and Joel Katz

SECTION 2
Biological basis of paediatric pain
6. Nociceptive signalling in the periphery and spinal cord 53
   Suellen M. Walker and Mark L. Baccei
7. Neuroimmune interactions and pain during postnatal development 65
   David Vega-Avelaira and Simon Beggs
8. Central nociceptive pathways and descending modulation 74
   Maria Fitzgerald

SECTION 3
Social and psychological basis of paediatric pain
9. Psychological theories and biopsychosocial models in paediatric pain 85
   Rebecca Pillai Riddell, Nicole M. Racine, Kenneth D. Craig, and Lauren Campbell
10. Cognitive styles and processes in paediatric pain 95
    Liesbet Goubert and Laura E. Simons
11. Pain in cultural and communicative contexts 102
    Ignasi Clemente
12. Families and pain 111
    Kathryn A. Birnie, Katelynn E. Boerner, and Christine T. Chambers
13. Pain, social relationships, and school 119
    Paula Forgeron and Sara King
14. The effects of sex and gender on child and adolescent pain 127
    Erin C. Moon and Anita M. Unruh
15. Sleep and pain in children and adolescents 135
    Bruce D. Dick, Penny Corkum, Manisha Witmans, and Christine T. Chambers

SECTION 4
Pain in specific populations and diseases
16. Pain in children with intellectual or developmental disabilities 147
    John L. Belew, Chantel C. Barney, Scott A. Schwantes, Dick Tibboel, Abraham J. Valkenburg, and Frank J. Symons
Paediatric cancer pain 157
Jennifer Hickman, Jaya Varadarajan, and Steven J. Weisman

Pain management in major paediatric trauma and burns 171
Greta M. Palmer and Franz E. Babl

Needle procedures 184
Anna Taddio

Procedural sedation 194
Joseph P. Cravero

Neuropathic pain in children 205
Suellen M. Walker

Inflammatory arthritis and arthropathy 215
Peter Chira and Laura E. Schanberg

Chronic pain syndromes in childhood: one trunk, many branches 228
Neil L. Schechter

Non-inflammatory musculoskeletal pain 237
Jacqui Clinch

Pain in sickle cell disease 248
Carlton Dampier and Lamia Barakat

Pain and gastroenterological diseases 257
Akshay Batra, Amanda Bevan, and R. Mark Beattie

Postoperative pain management 269
Richard F. Howard

Pain in palliative care 280
Ross Drake and Renée McCulloch

Recurrent abdominal pain 289
Jennifer Verrill Schurman, Amanda Drews Deacy, and Craig A. Friesen

Chronic pelvic pain in children and adolescents 298
Susan L. Sager and Marc R. Laufer

Headaches 307
Andrew D. Hershey

Persisting pain in childhood medical illness 319
Martha Mherekumombe and John J. Collins

Common pain problems in the outpatient setting 328
F. Ralph Berberich and Neil L. Schechter

Effective management of children’s pain and anxiety in the emergency department 338
Robert M. (Bo) Kennedy

SECTION 5
Measurement of pain

35. Neonatal and infant pain assessment 353
Grace Y. Lee and Bonnie J. Stevens

36. Self-report: the primary source in assessment after infancy 370
Carl L. von Baeyer

37. Behavioural measures of pain 379
Jill MacLaren Chorney and C. Meghan McMurtry

38. Biomarkers of pain: physiological indices of pain reactivity in infants and children 397
Susanne Brummelte, Tim F. Oberlander, and Kenneth D. Craig

39. The neurophysiological evaluation of nociceptive responses in neonates 401
Ravi Poorun and Rebecca Slater

40. Sensory processing and neurophysiological evaluation in children 407
Christiane Hermann

41. Measurement of health-related quality of life and physical function 417
See Wan Tham, Anna C. Wilson, and Tonya M. Palermo

SECTION 6
Pharmacological interventions

42. Principles of pain pharmacology in paediatrics 429
Kim Chau and Gideon Koren

43. The non-steroidal anti-inflammatory drugs and acetaminophen 436
Brian J. Anderson

44. Developmental pharmacology of opioids 449
Gareth J. Hathway

45. Opioids in clinical practice 457
Scott A. Strassels

46. Interventional pain management techniques for chronic pain 474
Navil F. Sethna, Pradeep Dinakar, and Karen R. Boretsky

47. Topical anaesthetics and analgesics 486
William T. Zempsky

48. Drugs for neuropathic pain 495
Sachin Rastogi and Fiona Campbell
49. Sucrose and sweet taste 508
   Denise Harrison, Vanessa C. Z. Anseloni,
   Janet Yamada, and Mariana Bueno

SECTION 7
Psychosocial interventions
50. Cognitive-behavioural interventions 519
   Deirdre E. Logan, Rachael M. Coakley,
   and Brittany N. Barber Garcia
51. Operant treatment 531
   Keith J. Slifer, Adrianna Amari, and
   Cynthia Maynard Ward
52. Child life interventions in paediatric pain 543
   Chantal K. LeBlanc and Christine T. Chambers
53. Procedural pain distraction 553
   Lindsey L. Cohen, Laura A. Cousins, and Sarah R. Martin
54. Hypnosis and relaxation 560
   Christina Liossi, Leora Kuttner, Chantal
   Wood, and Lonnie K. Zeltzer
55. New information and communication technologies for pain 569
   Jennifer Stinson and Lindsay Jibb

SECTION 8
Physical interventions
56. Physical therapy interventions for pain in childhood and adolescence 581
   Susan M. Tupper, Mary S. Swiggum, Deborah
   O’Rourke, and Michael L. Sangster
57. Occupational therapy 590
   Lisa Holsti, Catherine L. Backman, and Joyce M. Engel
58. Mother care for procedural pain in infants 600
   Celeste Johnston and Marsha Campbell-Yeo

SECTION 9
Special topics
59. Complementary drugs—herbs, vitamins, and dietary supplements for pain and symptom management 613
   Joy A. Weydert
60. Complementary therapy in paediatric pain 623
   Lonnie K. Zeltzer
61. Theory-informed approaches to translating pain evidence into practice 633
   Janet Yamada and Alison M. Hutchinson
62. Organizational systems in paediatric pain 642
   Mark Embrett and Norman Buckley
63. Education for paediatric pain 653
   Alison Twycross and Susan O’Conner-Von
64. The ethics of pain control in infants and children 661
   Gary A. Walco and Maureen C. Kelley
65. Sociodemographic disparities in paediatric pain management: relationships and predictors 669
   Miriam O. Ezenwa and Anna Huguet

Index 677
