Preface	xi
Acknowledgments	xix
Overview	1
1 The International Debt Cycle and the United States as an External Debtor	9
The Debt Cycle	10
Measuring the Net International Investment Position	13
The Debt Cycle in Practice	16
The Global Balance Sheet Discrepancy	25
Debt Cycle Status and Growth Performance	28
Appendix 1A Estimating the Net International Investment Position	30
2 Valuation Effects, Asymmetric Returns, and Economic Net Foreign Assets	33
US Valuation Effects	33
US Asymmetric Capital Returns	48
Capital Services and Economic Versus Accounting Net Foreign Assets	57
Alternative Measures: Cash Flow Versus Debt Burden	63
3 Projecting the US Current Account Deficit and Net Foreign Assets	69
A Simple Projection Model	69
Calibration and Data	73
Identifying the Exchange Rate Lag	76

Backcast Performance	78
Baseline Projections	80
Comparison with Other Projections	85
Adjustment Scenarios	90
Impact Parameters	95
4 US Fiscal Imbalance and the External Deficit	99
Understanding the Linkages	99
The Decline in Personal Saving	117
Fiscal Outlook for 2005–10	122
Long-Term Fiscal Problem	125
General Equilibrium Framework	128
Toward Fiscal and External Adjustment	132
Appendix 4A A Simple General Equilibrium Model Relating the Trade and Fiscal Balances	135
5 Sustainability of the US Current Account Deficit and the Risk of Crisis	153
US Share in Global Portfolios	154
Debt Ratios and Critical Thresholds	167
Hard Landing, Long-Term Burden, and Protectionist Pressures	174
The Evolving Crisis Debate	184
Appendix 5A Key Features of Leading Recent Analyses	211
6 Impact of the US External Imbalance on the Rest of the World	219
Impact on Global Demand	219
Impact on Interest Rates	223
Emerging-Market Capital Supply and Current Account Performance	225
Developing-Country Reserves: Burden or Bonanza?	229
East Asian Exchange Rate Rigidity	231
Achieving Global Adjustment	233
Appendix 6A Optimal Exchange Rate Realignment	248
Appendix 6B Recent Alternative Profiles Proposed for Global Adjustment	253
7 Principal Findings and Policy Implications	259
The International Debt Cycle	259
Valuation Effects, Asymmetric Returns, and Economic Net Foreign Assets	261
Forecasting the US Current Account Deficit and Net Foreign Assets	263
The Role of Fiscal Adjustment	265
Sustainability and Risks of the Current Account Deficit	268
Global Impact of US External Imbalance	272
Policy Implications	275
