<b>Tables</b>	
2.1. Summary Business Cycle Correlations	6
2.2. Business Cycle Correlations: Subsample	7
3.1. Emerging Economies: Workers' Remittances	15
3.2. Developing Countries: Workers' Remittances in Relation to Selected Balance of Payments Inflows	16
3.3. Emerging Economies: Volatility of Workers' Remittances in Comparison to Selected Balance of Payments Inflows	17
3.4. Emerging Economies: Correlations Between Workers' Remittances and Other Selected Balance of Payments Inflows	18
3.5. Emerging Economies: Selected Macroeconomic Variables Across Percentiles of Workers' Remittances, 1995–2004	19
4.1. Determinants of Workers' Remittances, 1970–2005	26
4.2. Determinants of Workers' Remittances, 1985–2005	27
4.3. Determinants of Workers' Remittances, 2001–2005	28
6.1. Steady-State Values Under Labor Taxation	47
6.2. Steady-State Values Under Consumption Taxation	48
6.3. Standard Deviation of Calibrated Chile Economies	50
6.4. Utility Gains from Consumption Taxation Versus Labor Taxation	53
7.1. OLS and Fixed-Effects Regressions Explaining Per Capita GDP Growth as a Function of Workers' Remittances and Different Conditioning Sets, All Countries	64
7.2. OLS and Fixed-Effects Regressions Explaining Per Capita GDP Growth as a Function of Workers' Remittances and Different Conditioning Sets, Emerging Economies	65
7.3. OLS and Fixed-Effects Instrumental Variables Regressions Explaining Per Capita GDP Growth as a Function of Workers' Remittances and Different Conditioning Sets, All Countries	66
7.4. OLS and Fixed-Effects Instrumental Variables Regressions Explaining Per Capita GDP Growth as a Function of Workers' Remittances and Different Conditioning Sets, Emerging Economies	67
7.5. Cross-Sectional Regression Explaining GDP Volatility as a Function of Workers' Remittances and Conditioning Variables	68
7.6. Cointegrating Relations for the Real Exchange Rate, 1960–2004	72

## Figures

2.1. Correlation of Workers' Remittances and Employee Compensation	7
3.1. Worldwide Workers' Remittances, 1970–2003	11
3.2. Workers' Remittances by Region: Developing Countries, 1980–2003	11
3.3. Top 20 Recipient Countries: Workers' Remittances, 2004	12
3.4. Top 20 Recipient Countries: Average Workers' Remittances, 1990–2004	12
3.5. Top 20 Recipient Countries: Ratio of Workers' Remittances to GDP, 2004	13
3.6. Top 20 Recipient Countries: Average Ratio of Workers' Remittances to GDP, 1990–2004	13
3.7. Workers' Remittances and Other Inflows to Developing Countries	14
3.8. Volatility of Inflows to Developing Countries, 1980–2003	15
3.9. Emerging Economies: Workers' Remittances, 1995–2004	16
6.1. Labor Market Dynamics in Response to a Positive Technology Shock	51
6.2. Remittance-Dependent Economies: Output Volatility and Inflation	52
7.1. Output Volatility and the Ratio of Workers' Remittances to GDP	69
7.2. Remittances and the Equilibrium Real Exchange Rate	70
7.3. Remittance-Dependent Economies and Fiscal Policy, 1990–2005	74

The following conventions are used in this publication:

- In tables, a blank cell indicates “not applicable,” ellipsis points (. . .) indicate “not available,” and 0 or 0.0 indicates “zero” or “negligible.” Minor discrepancies between sums of constituent figures and totals are due to rounding.
- An en dash (–) between years or months (for example, 2005–06 or January–June) indicates the years or months covered, including the beginning and ending years or months; a slash or virgule (/) between years or months (for example, 2005/06) indicates a fiscal or financial year, as does the abbreviation FY (for example, FY2006).
- “Billion” means a thousand million; “trillion” means a thousand billion.
- “Basis points” refer to hundredths of 1 percentage point (for example, 25 basis points are equivalent to  $\frac{1}{4}$  of 1 percentage point).

As used in this publication, the term “country” does not in all cases refer to a territorial entity that is a state as understood by international law and practice. As used here, the term also covers some territorial entities that are not states but for which statistical data are maintained on a separate and independent basis.
