Chapter 1

Introduction 1

1.1 Scope of the study 1
1.2 Structure of the book 3
1.3 Limitations of the study 5
1.4 Project organisation and acknowledgements 6

Chapter 2

The CAP: its history, operation and proposals for its reform 9

2.1 The CAP: origins, objectives and principles 9
  2.1.1 Origins 9
  2.1.2 Objectives of the CAP 11
  2.1.3 Principles of the CAP 13

2.2 Instruments of the CAP: market organization schemes and structural measures 14
  2.2.1 Market organization schemes between 1968 and 1984 14
  2.2.2 Market organization schemes during the 1984-93 period 16
  2.2.3 Market organization schemes and the MacSharry reform 17
  2.2.4 Monetary Compensatory Amounts 18
  2.2.5 Structural measures 23

2.3 The dynamics of the agricultural sector of the EU during the 1973-90 period 25
  2.3.1 Production and value added 26
  2.3.2 Output of primary crops and livestock products 28
  2.3.3 Inputs 29
  2.3.4 Size and number of farms 35
2.3.5 Terms of trade with respect to the non-agricultural sector 37
2.3.6 Agricultural income 39
2.3.7 The changing role on the world market 39

2.4 The CAP under siege 43
2.4.1 Unfairness to non-farmers: budgetary and implicit costs 44
2.4.2 Misallocation of factors of production 48
2.4.3 Product-tied support is ineffective and unfair 48
2.4.4 The distorting effect on world markets 50
2.4.5 The CAP and the pursuit of an internal market 51
2.4.6 The administrative burden 52
2.4.7 The effect on the environment 52

2.5 Four perspectives on reform and future of the CAP 53
2.5.1 The free trade perspective 53
2.5.2 The interventionist perspective 55
2.5.3 The bureaucratic perspective 58
2.5.4 A long term perspective 58

2.6 Implications for the design of a policy model on EU agriculture 59

Chapter 3 61
Welfare analysis of CAP reform: a stylized model 61
3.1 A stylized version of ECAM 61
3.1.1 Specification 62
3.1.2 The Negishi-format 66
3.2 Free trade 68
3.2.1 The Welfare Theorems 69
3.2.2 Welfare improving reforms 71
3.3 Interventionism 71
3.3.1 Price policies and quotas to avoid direct transfers 73
3.3.2 Interventions to cope with external effects and indivisibilities 78
Annex 4B

Data and parameters of ECAM: an overview

4B.1 General outline
4B.2 Agricultural supply
  4B.2.1 Crop and livestock allocation
  4B.2.2 Yield trends
  4B.2.3 Land outflow
  4B.2.4 Agricultural investments
  4B.2.5 Occupational migration
4B.3 Feed mix
4B.4 Consumer demand
4B.5 Exogenous variables

Chapter 5

CAP reform in the bureaucratic perspective:
the MacSharry reform and the GATT agreement

  5.1 The MacSharry reform package: EU agriculture until 2005
    5.1.1 Scenario assumptions
    5.1.2 Model outcomes for production, demand and external trade
    5.1.3 Protection and the budget
    5.1.4 Value added and employment in agriculture
    5.1.5 The MacSharry reform: an interim evaluation
  5.2 What would have happened in the absence of the reform?
    5.2.1 Continuation of pre-MacSharry policies
    5.2.2 Model outcomes for production, demand and external trade
    5.2.3 Protection rates and the budget
    5.2.4 Value added and employment
    5.2.5 Consequences for economic welfare
    5.2.6 Was the MacSharry reform necessary?
  5.3 CAP reform and the revised Blair House Agreement: compatible or not?
