

Geophysical Monograph 88

# Active Margins and Marginal Basins of the Western Pacific

Brian Taylor  
James Natland  
*Editors*

 American Geophysical Union

**Preface**

*Brian Taylor and James Natland* ix

**Volcanism**

**Early Arc Volcanism and the Ophiolite Problem: A Perspective From Drilling in the Western Pacific**

*Sherman H. Bloomer, Brian Taylor, Christopher J. MacLeod, Robert J. Stern, Patricia Fryer, James W. Hawkins, and Lynn Johnson* 1

**Intrusive Volcanic Rocks in Western Pacific Forearcs**

*Rex N. Taylor, Michael S. Marlow, Lynn E. Johnson, Brian Taylor, Sherman H. Bloomer, and John G. Mitchell* 31

**Geochemical Evolution of Arc Systems in the Western Pacific: The Ash and Turbidite Record Recovered by Drilling**

*R. J. Arculus, J. B. Gill, H. Cambray, W. Chen, and R. J. Stern* 45

**Volcaniclastic Sedimentation and Volcanism During the Rifting of Western Pacific Backarc Basins**

*Peter D. Clift* 67

**Volcanic Activity Recorded in Deep-Sea Sediments and the Geodynamic Evolution of Western Pacific Island Arcs**

*Hervé Cambray, Manuel Pubellier, Laurent Jolivet, and André Pouclet* 97

**Evolution of the Lau Basin—Insights From ODP Leg 135**

*James W. Hawkins* 125

**The Indian Ocean-Type Isotopic Signature in Western Pacific Marginal Basins: Origin and Significance**

*Rosemary Hickey-Vargas, Janet M. Hergt, and Piera Spadea* 175

**Coexistence of Indian and Pacific Oceanic Upper Mantle Reservoirs Beneath the Central New Hebrides Island Arc**

*Anthony J. Crawford, L. Briquieu, C. Laporte, and T. Hasenaka* 199

**Fluids, Diagenesis, Metamorphism**

**Origins of Saline Fluids at Convergent Margins**

*Jonathan B. Martin, Miriam Kastner, and Per Kr. Egeberg* 219

**Sediment Diagenesis in Western Pacific Basins**

*Marta E. Torres, Kathleen M. Marsaglia, Jonathan B. Martin, and Richard W. Murray* 241

**Serpentine Bodies in the Forearcs of Western Pacific Convergent Margins: Origin and Associated Fluids**

*Patricia Fryer, Michael Mottl, Lynn Johnson, Janet Haggerty, Steven Phipps, and Hirokazu Maekawa* 239

## CONTENTS

### **Incipient Blueschist-Facies Metamorphism in the Active Subduction Zone Beneath the Mariana Forearc**

*Hirokazu Maekawa, Patricia Fryer, and Atsuo Ozaki* 281

### **Sedimentation**

#### **Sedimentation in Western Pacific Backarc Basins: New Insights From Recent ODP Drilling**

*Kathleen M. Marsaglia, Sam Boggs, Jr., Peter D. Clift, Abbas Seyedolali, and Randall Smith* 291

#### **Sedimentation in Forearc Basins, Trenches, and Collision Zones of the Western Pacific: A Summary of Results From the Ocean Drilling Program**

*Michael B. Underwood, Peter F. Ballance, Peter D. Clift, Richard N. Hiscott, Kathleen M. Marsaglia, Kevin T. Pickering, and R. Pamela Reid* 315

### **Tectonics**

#### **Paleomagnetic Rotations and the Japan Sea Opening**

*Laurent Jolivet, Hidetoshi Shibuya, and Marc Fournier* 355

#### **The Philippine Sea Plate: Magnetism and Reconstructions**

*Robert Hall, Michael Fuller, Jason R. Ali, and Charles D. Anderson* 371

#### **Closure of Western Pacific Marginal Basins: Rupture of the Oceanic Crust and the Emplacement of Ophiolites**

*Claude Rangin, Eli A. Silver, and Kensaku Tamaki* 405
