# NEUTRABAS

A Neutral Product Definition  
Database for Large  
Multifunctional Systems

With contributions by  
Francisco Fernández-González  
Markus Lehne  
Kenneth J. MacCallum  
Sabine Müllenbach  
Bernard Nizéry  
Horst Nowacki  
George R. Stephenson

Springer

# Contents

<b>1</b>	<b>Introduction</b> .....	<b>1</b>
<b>2</b>	<b>The NEUTRABAS Approach</b> .....	<b>3</b>
2.1	Requirements .....	3
2.2	Approach .....	3
2.3	NEUTRABAS Product Models .....	5
2.3.1	The Global Information Model .....	5
2.3.2	The Spatial Information Model .....	5
2.3.3	The Structural Information Model .....	7
2.3.4	The Outfitting Information Model .....	7
2.3.5	Integration of the Models .....	8
2.4	Multifunctional Aspects .....	9
<b>3</b>	<b>Shipbuilding Product Models</b> .....	<b>11</b>
3.1	Overview .....	11
3.1.1	Scope .....	11
3.1.2	Organization .....	12
3.1.3	Specification .....	20
3.2	Ship Principal Characteristics Model .....	21
3.3	Spatial Arrangements .....	33
3.3.1	Introduction .....	33
3.3.2	Application Requirements .....	34
3.3.3	Hull Spatial Organisational Model .....	37
3.3.4	Review .....	41
3.4	Ship Structural Systems .....	43
3.4.1	Structural Information for Shipbuilding .....	43
3.4.2	Structural Information Model Requirements .....	45
3.4.3	NEUTRABAS Approach as Related to STEP .....	51
3.4.4	Specifications for Ship Hull Structure Modeling .....	52
3.5	Outfitting Systems .....	61
3.5.1	Overview .....	61
3.5.2	Outfitting Reference Model .....	64
3.5.3	Functional Model .....	65
3.5.4	Topology and Geometry Model .....	65
3.5.5	Administrative Model .....	65
3.5.6	Multifunctional Aspects .....	69

<b>4</b>	<b>Ship Application Reference Model</b> .....	<b>70</b>
4.1	Approach to Integration .....	70
4.2	Reference Architecture .....	72
4.2.1	Integration Strategy.....	72
4.2.2	Integration Method .....	74
4.2.3	Adaptation of Existing Models to New Schemas.....	77
<b>5</b>	<b>Software Developments</b> .....	<b>80</b>
5.1	Software System Architecture.....	80
5.1.1	System Requirements .....	80
5.1.2	Functional Requirements.....	83
5.1.3	System Architecture .....	84
5.2	General Concepts.....	88
5.2.1	Instances.....	88
5.2.2	Inheritance.....	90
5.2.3	Ownership / Usage of Instances.....	94
5.2.4	DBS-Sessions, Transactions and Verifications .....	95
5.3	Software Components .....	99
5.3.1	Modeling Tools.....	99
5.3.2	Implementation Tools .....	104
5.4	Lessons Learned.....	111
5.5	Demonstration and Test Cases .....	111
5.5.1	The PAN and SLAS Interfaces.....	113
5.5.2	The CADIS and CRESTA Interfaces.....	115
<b>6</b>	<b>Experiences and Results</b> .....	<b>122</b>
6.1	Overview.....	122
6.2	Extensions to EXPRESS .....	123
6.2.1	Status.....	123
6.2.2	EXPRESS Version 2 .....	124
6.2.3	NEUTRABAS Experiences and Recommendations .....	126
6.3	Extensions to STEP.....	128
6.3.1	Status.....	128
6.3.2	Required Application Schemas for Shipbuilding .....	131
6.3.3	Required Generic Resources.....	134
6.3.4	Experiences with STEP Integration.....	137
6.4	Conclusions .....	139
	<b>Literature</b> .....	<b>141</b>
	<b>Annex I:</b>	
	<b>Steel Structure Representation Diagram</b> .....	<b>143</b>
	<b>Annex II:</b>	
	<b>Applications Related to Ship Structures</b> .....	<b>149</b>

**Annex III:****On the Use of Boundaries and References in the Design of Ships..... 156**

1	Attributes of Referentials and Boundaries .....	156
1.1	Referentials .....	156
1.2	Boundaries .....	157
2	Treatment of Referentials and Boundaries in Ship Design .....	158
2.1	Concept Design Prefeasibility .....	158
2.2	Preliminary Design Feasibility.....	159
2.3	Contract Design/Specification Phase.....	160
2.4	Engineering/Detail Design .....	161
3	A Sample Application to Ship Design.....	162
3.1	Global Coordinate System .....	162
3.2	First Level Coordinate System .....	162
3.3	Nth-Level Coordinate System .....	163
3.4	Attributes of a Referential.....	163
3.5	Examples.....	163
3.5.1	Positioning the Flanges of Piping-Work in a Bulkhead .....	163
3.5.2	Locating a Connecting Flange in a Pump.....	163

**Annex IV:****List of NEUTRABAS Structural System Entities..... 165****Annex V:****NIAM Symbolic Notation and Sample Applications .....** 167**Annex VI:****EXPRESS Codes..... 180**

1	EXPRESS Representation of the Ship Principal Characteristics Model ....	180
2	EXPRESS Representations of the Ship Design and Production Engineering Entities.....	198

**List of Figures..... 201**
