HEATHS AND MOORLAND: CULTURAL LANDSCAPES

Edited by
D. B. A. THOMPSON, ALISON J. HESTER and MICHAEL B. USHER

With a Foreword by
Magnus Magnusson

SCOTTISH NATURAL HERITAGE

EDINBURGH: HMSO

Part Two  Dynamic processes: landscape and environmental changes 115

10 Heathland dynamics: a matter of scale. C. Legg 117

11 Longevity of the *Calluna vulgaris* seed bank determined from a history of lead smelting at Leadhills and Wanlockhead, Scotland. G. Cumming and C. Legg 135

12 Scrub and woodland regeneration: prospects for the future. A. J. Hester and G. R. Miller 140

13 Are the upland heaths in the Cairngorms pining for climate change? J. McConnell and C. Legg 154

14 The effects of grazing on vegetation species composition. H. M. Armstrong and J. A. Milne 162

16 Bracken invasion: lessons from the past and prospects for the future. R. H. Marrs and R. J. Pakeman 180

17 Bracken, heath and burning on the Quantock Hills, England. R. B. Ninnes 194

18 Habitat selection by whinchats: a case for bracken in the uplands? D. S. Allen 200

19 The imminent destruction of north-west European heaths due to atmospheric nitrogen deposition. J. T. de Smidt 206

20 The distribution of heather moorland and the sensitivity of associated soils to acidification. S. J. Langan, A. Lilly and B. F. L. Smith 218

21 Heaths and moorland: long-term ecological changes, and interactions with climate and people. A. C. Stevenson and H. J. B. Birks 224

22 The relationship between fire and long-term wet heath development in South Uist, Scotland. K. J. Edwards, J. Whittington and K. R. Hirons 240

23 Charcoal analysis of mor humus soils: a palaeoecological assessment of the utility of moorland soils for the reconstruction of extended fire histories. A. N. Rhodes 249
Contents

24 Heather moorland patch dynamics and consequences for wildlife. M. B. Usher 256

Part Three Management for the future 273

25 Measuring the public benefits of landscape and environmental change: a case of upland grazing extensification. C. Bullock 277

26 Ecological trends and grouse management in upland Britain. P. J. Hudson 282

27 Moorland management and impacts of red deer. B. W. Staines, R. Balharry and D. Welch 294

29 The ecological effects of mechanised peat extraction on blanket bogs in Northern Ireland. P. A. Todd, J. H. McAdam and W. I. Montgomery 312

30 Scottish heaths and moorland: how should conservation be taken forward? S. D. Ward, A. J. MacDonald and E. M. Matthew 319

31 Heather moorland and monitoring in the Loch Lomond Environmentally Sensitive Area, Scotland. D. J. Henderson, A. Lilly, S. Madden and M. J. Still 334

33 Key requirements for management of heather moorland: now and for the future. J. Phillips and A. Watson 344

Finale

34 Heaths and moorland: some conclusions and questions about environmental change. D. B. A. Thompson and J. Miles 362
