From Data to Knowledge

Theoretical and Practical Aspects of Classification, Data Analysis, and Knowledge Organization

With 123 Figures
and 57 Tables
Contents

Plenary and Semi Plenary Presentations

Advances in Cluster Analysis Relevant to Marketing Research
   P. Arabie, L. Hubert ................................................. 3

Representation of Statistical Structures, Classification and Prediction
Using Multidimensional Scaling
   C. M. Cuadras, J. Fortiana, F. Oliva .............................. 20

Null Models in Cluster Validation
   A. D. Gordon ....................................................... 32

Classifying Space and Analysing the Consequences: Spatial Analysis of
Health Data
   R. Haining .......................................................... 45

An Ordinal Model for Cluster Analysis – 15 Years in Retrospect
   M. F. Janowitz ...................................................... 58

An Overview and Recent Developments in Dual Scaling
   S. Nishisato .......................................................... 73

Gibbs Sampling in AR Models with Random Walk Priors
   W. Polasek, S. Jin .................................................. 86

Finding the Edge of a Poisson Forest with Inside and Outside
Observations: The Discriminant Analysis Point of View
   J. P. Rasson, M. Rémon, Fl. Henry ............................... 94

Spatial Fibre and Surface Processes – Stereological Estimations and
Applications
   K. Sandau ............................................................ 102

Robustizing Mixture Analysis Using Model Weighting
   M. P. Windham ...................................................... 116

Evaluation of the First Life Table Published in 1888 in Japan
   K. Yajima ............................................................ 124

Classification Related Results and Other Aspects
of Data Analysis

Incomplete Data Matrices and Tests on Randomly Missing Data
   U. Bankhofer ......................................................... 133

### Applications in Economics

- **A Unifying Approach to Benefit Segmentation and Product Line Design Based on Rank Order Conjoint Data**  
  *E. Aust, W. Gaul*  
  Page 289

- **Classification and Representation Using Conjoint Data**  
  *D. Baier, W. Gaul*  
  Page 298

- **Overlapping Clustering of Statistical Software Packages for PC**  
  *R. Lasch*  
  Page 308

- **Scenario Analysis with BASICS – Testing the Representativity of the Results of the Dynamic Probability Adjustment of Scenario Components with the Help of Classification Methods**  
  *M. Missler-Behr*  
  Page 318

- **Analysis of Sales Data: A Neural Net Approach**  
  *F. Wartenberg, R. Decker*  
  Page 326

### Applications in Linguistics

- **On the Definition of Inflection**  
  *P. ten Hacken*  
  Page 337

- **Computer-Aided Analysis of Vocabulary Acquisition**  
  *J. Liedtke*  
  Page 345

- **Features and Tags**  
  *S. Naumann*  
  Page 353

- **Semantically Based Universal Definitions of Grammatical Agreement and Agreement Domain Universals: A Critical Evaluation**  
  *P. Schmidt*  
  Page 360

- **Towards a Hypermedia, Multilingual, On-Line Resource System for LSP Users/Learners**  
  *W. Wieden, K. Ronacher, A. Weiss, H. Goebel, K. Müller*  
  Page 367

### Applications in Medicine and Biology

- **A New Methodologic Look at Describing the Performance of Diagnostic Classification Procedures in Medicine**  
  *O. Gefeller, H. Brenner*  
  Page 379

- **Xmed-DD: From Document Processing to Systematic Information Storage**  
  *W. Giere, A. Gregori, C. Luz*

- **Ribosomal RNA Phylogeny Derived from a Correlation Model of Sequence Evolution**  
  *A. von Haeseler, M. Schöninger*  
  Page 395
SALBIDH2 – Modifications of the LBI-Method for Automated Lexicon-Based Indexing of Diagnoses
K. Hofmann, B. Brigl, E. Glück, R. Haux .......................... 404

Record Linkage of Anonymous Data by Control Numbers
W. Thoben, H.-J. Appelrath, S. Sauer .......................... 412

Information Systems and Knowledge Organization

Processing Partial Information in Decision Support Systems
F. Dellmann .................................................. 423

Consistency Conditions for the Classification in LIS/C1
W. Lenski, M. M. Richter, E. Wette-Roch .......................... 433

Using Hypertext for Information Retrieval in STEP/EXPRESS Schemata
H. Lührsen, H. Wedekind ........................................ 442

Two Software Tools Supporting Enduser Oriented Information Retrieval in Physics
L. Weisel, B. Diekmann ........................................ 450

From Verbal Data to Practical Knowledge
J. Zelger .................................................. 458

Index .................................................. 467
