Teleservices and Multimedia Communications

Second International COST 237 Workshop
Copenhagen, Denmark, November 20-22, 1995
Proceedings

Springer
Contents

Session A: Multipeer Communications
Chair: Georgio Ventre, Universita di Napoli Federico II, Italy

Group Support in Multimedia Communications Systems. 1
A. Mauthe, G. Coulson, D. Hutchison, S. Namuye,
Lancaster University, United Kingdom.

Object-Oriented Framework for a Scalable Multicast Call Modelling. 19
M.I. Smirnov, GMD Fokus, Berlin, Germany.

M-Connection Service: A Multicast Service for Distributed Multimedia Applications.
J.F. de Rezende, S. Fdida, Laboratoire MASI, Paris, France,
A. Mauthe, D. Hutchison, Lancaster University, United Kingdom.

Session B: Teleservices and Applications Support
Chair: Geoff Coulson, Lancaster University, United Kingdom

GLASS: A Distributed MHEG-Based Multimedia System. 61
H. Cossmann, C. Griwodz, G. Grassel, M. Pühnhöfer,
M. Schreiber, R. Steinmetz, H. Wittig, L. Wolf,
IBM European Networking Center, Heidelberg, Germany.

Performance Evaluation of the CSCW Application JVTOS. 79
E. Klovning, Telenor Research and Development, Kjeller, Norway,
O. Bonaventure, University de Liège, Belgium.

Multimedia Teleservices Modelled with the OSI Application Layer Structure.
E. van Rijssen, Logica, The Netherlands,
I. Widya, E. Michiels, University of Twente, The Netherlands.

Session C: Broadband Network and Transport Services
Chair: Serge Fdida, Laboratoire MASI, Paris, France

Service Definition of a Multimedia Partial Order Connection. 118
C. Chassot, M. Fournier, M. Diaz, A. Lozes,
LAAS du CNRS, Toulouse, France.

Network Support for Multimedia Communications
Using Distributed Media Scaling.
F. Toutain, L. Toutain, ENST de Bretagne Antenne de Rennes,
Cesson-Sévigné, France.
The ACCOPI Multimedia Transport Service over ATM.  
*L. Mathy, O. Bonaventure, University of Liège, Belgium.*  

**Session D: QoS Assurance**  
Chair: David Hutchison, Lancaster University, United Kingdom

Towards a Hybrid Scheme for Application Adaptivity.  
*H.S. Cho, M.R. Fry, A. Seneviratne, V. Witana, University of Technology, Sydney, Australia.*  

Admission Control for End-to-End Distributed Bindings.  
*L. Leboucher, J.-B. Stefani, CNET, Paris, France.*  

An Enhanced Admission Control Scheme for Deterministic and Predictive Services.  
*W. Reinhardt, D. Trossen, Technical University of Aachen, Germany.*

**Session E: Multimedia Support**  
Chair: Helmut Leopold, Alcatel Austria, Vienna, Austria

Equitable Conditional Access and Copyright Protection for Image Based on Trusted Third Parties.  
*J.-M. Boucqueau, S. Lacroix, B. Macq, J.-J. Quisquater, Université Catholique de Louvain, Belgium.*  

Designing Point to Point Interactive Video Applications.  
*M. Hamdi, H. Afifi, P. Rolin, L.M. Rojas, Télécom Bretagne, Cesson-Sévigné, France.*  

RIVUS: A Stream Template Language for Capturing Multimedia Requirements.  
*D. Lindsey, P.F. Linington, University of Kent, United Kingdom.*
