Sources of Hyperbolic Geometry

John Stillwell
Contents

Introduction to Beltrami’s
  *Essay on the interpretation of noneuclidean geometry* 1

Translation of Beltrami’s
  *Essay on the interpretation of noneuclidean geometry* 7

Introduction to Beltrami’s
  *Fundamental theory of spaces of constant curvature* 35

Translation of Beltrami’s
  *Fundamental theory of spaces of constant curvature* 41

Introduction to Klein’s
  *On the so-called noneuclidean geometry* 63

Translation of Klein’s
  *On the so-called noneuclidean geometry* 69

Introduction to Poincaré’s
  *Theory of fuchsian groups, Memoir on kleinian groups, On the applications of noneuclidean geometry to the theory of quadratic forms* 113

Translation of Poincaré’s
  *Theory of fuchsian groups* 123

Translation of Poincaré’s
  *Memoir on kleinian groups* 131

Translation of Poincaré’s
  *On the applications of noneuclidean geometry to the theory of quadratic forms* 139
